GO CLEAR!

by **L. Ron Hubbard**

Now it is a curious thing that although "everybody knows" (and what a horrible amount of misinformation that statement lets circulate) it is "human to err," these sentient portion of the mind which computes the answers to problems and which makes man Man is utterly incapable of error.

This was startling discovery when it was made, but it need not have been. It could have been deduced some time before, for it is quite simple and easy to understand. The actual computing ability of Man is never in error, even in a very severely aberrated person. Observing the activity of such an aberrated person, one might thoughtlessly suppose that that person's computations were wrong. But that would be an observer error. Any person,

aberrated or Clear, computes perfectly on the data stored and perceived.

Take any common calculating machine (and the mind is an exceptionally magnificent instrument far, far superior to any machine it will invent for ages to come) and put a problem on it for solution. Multiply 7 times 1. It will answer properly, 7. Now multiply 6 times 1 but continue to hold down 7 and put other problems on the machine. They are wrong, not as problems, but as answers. Now fix 7 so that it stays down no matter what keys are touched and try to give the machine away. Nobody will want it because, obviously, the machine is crazy. It says 10 times 10 is 700. But is the actual calculating portion of the machine really wrong or is it merely being fed the wrong data? In the same way human

mind, being called upon to resolve problems of a magnitude and with enough variables to confound any mere calculating

machine a thousand times an hour, is prey to incorrect data. Incorrect data gets in to the machine. The machine gives wrong answers.

Focus on success

Go Clear where LRH went Clear: The Legendary Saint Hill – RON'S HOME.

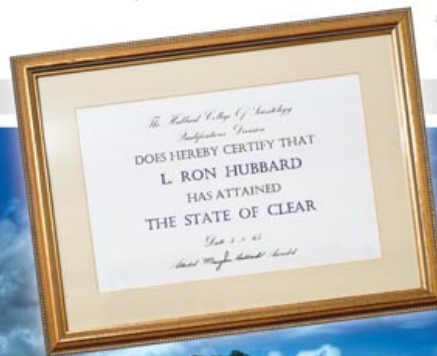

Following are some success stories of the most recent Clears who attested here at Saint Hill:

JASON LESLIE — Going Clear had been a goal of mine ever since I first read the Dianetics book. For me it is a very spiritual state. It is almost like I found myself, as a thetan, for the first time.
As a result, I find my life

much calmer now I am myself. I don't have to pretend to be this or that, I am just me. I don't mould myself to fit in with what others may consider acceptable. I feel much more confident in my own abilities and in who I am now. It really is everything LRH says about this state.

For me being on staff in a Scientology Organization is everything. One thing that has been very, very real to me just in

the past couple of weeks is that whatever one does or however far one gets up The Bridge, it has to be with the viewpoint of how does this increase ability to operate on the 3rd dynamic in

Yameet McMillan - Israel
Nicky Wood - UK

Robert Hoogstraat - Holland

Istvan Aradi - Hungary

helping to salvage mankind? In looking back at my life with this regained viewpoint, this was why I joined staff in the first place. Before that, I had a decent job, was earning decent money, and was doing a lot of very interesting things with my life. However, there was no real satisfaction, no real purpose in what I was doing. That is why I joined staff originally and why I will remain as a staff member. There is nothing more important and nothing as fulfilling.

Jason Leslie - UK

I am a Class VI Case Supervisor. Being trained gives you certainty in what you are doing and how you are doing it.

from page 1

Helen Goddard - UK

Helen holds the post of Organisation Executive Secretary in Plymouth Organisation, she is a Class V Auditor and Class IV C/S and has also done The Basics. "With going Clear you get back a LOT of power."

Most of all it gives you the ability seriously to help other beings and handle those things that are destroying them so they once again can be at cause.

At the beginning of the year, my partner asked me what it was that I wanted to achieve for myself and I said, New OT V.

She acknowledged me. It seemed totally unreal at the time but since then I have completed 6 Bridge steps and now I am on OT II while still producing every day as the Senior Case Supervisor of my Organization. My advice to anyone wanting to get up The Bridge is to make the postulate and then make it stick and do whatever it takes to make it a reality.

Go Clear where LRH went Clear: The Legendary Saint Hill – RON'S HOME.

Peter Hunter - Scotland

HELEN GODDARD —

The moment I went 'Clear' I knew that was it, the feeling was overwhelmingly incredible! I felt and still feel true happiness and know that I will now always have that. I feel that the 'lights' have been turned on and I am driving my car at full beam and racing down the highway of life! There is nothing in my road that I can't handle and I fully trust that the twists and turns I take are right! As a trained Class V auditor and Class IV Case Supervisor, and having studied The Basics, I can totally, 100%, state that the reason I got to Clear so fast, is my training. I can't stress enough how important it is to be trained

Jackie Mullally - UK

and to study The Basics.

In going Clear one gets back a LOT of power. And knowing how to use and apply that power on the dynamics is what training and The Basics gives one!

I work in Plymouth Org which has a fantastic team who are really on purpose and forwarding command intention so we can permeate out into the city and create sanity. My role in all this is to make sure that the tech delivery is 100% standard in the HGC, Academy and Qual. We keep on the ball in tech. We

are a very family oriented org and we have more people training in our Org now than at any time since the Org began. I love to encourage people to train because when they train they get to Clear faster and with greater stability. Then they influence people around them for the better and create stable pools of theta that will one day be a sea of sanity.

My training has stabilized me as a being and helps me to influence other people and my environment. I am sane on my judgment and I trust what I know as a person, in life, and across my dynamics. It's been very interesting as before I used to get keyed-in on things and now I don't have that going on. My ability to handle the dramatizations of others is a lot better and I don't get restimulated by them. I am very happy. I am more stably happy and more bouncy than I was before!

Andy Robb - UK

Andy Robb started Scientology in Manchester where he was body-routed in off the street. He joined staff after the first 4 years Andy joined staff because he wanted to help: "I could see that there was a group in Manchester that needed help and I could see a big game to play there and I wanted to be part of it."

ANDY ROBB, Patron Meritorious of the IAS. — Going Clear has helped me in life by giving me strength and intention for postulates. I can make them stick better than I

from page 1

The state of Clear is the goal of Dianetics

Incorrect data enters the human memory banks, the person reacts in an "abnormal manner." Essentially, then, the problem of resolving aberration is the problem of finding a "held down 7." But for that, much, much more, later. Right now we have accomplished our immediate ends.

These are the various abilities and activities of the human mind in its constant task of resolving and putting into solution a multitude of problems. It perceives, it recalls or returns, it imagines, it conceives, and then resolves. Served by its extensions – the mind brings answers which are invariably accurate, modified only by observation, education and viewpoint.

And the basic purposes of that mind and the basic nature of Man, as discoverable in the

Clear, are constructive and good, uniformly constructive and uniformly good, the solutions modified only by observation, education and viewpoint.

Man is good.

Take away his basic aberrations and with them go the evil of which the Scholastic and the Moralist were so fond. The only detachable portion of him is the "evil" portion. And when it is detached, his personality and vigor intensify. And he is glad to see the "evil" portion go because it was physical pain.

Later, there are experiments and proofs for these things and they can be measured with the precision so dear to the heart of the physical scientist.

The Clear, then, is not an "adjusted" person, driven to activity by his repressions now

thoroughly encysted. He is an unrepressed person, operating on self-determinism. And his abilities to perceive, recall, return, imagine, create and compute are outlined as we have seen.

The Clear is the goal of Dianetic therapy, a goal which some patience and a little study and work can bring about. Any person can be Cleared unless he has been so unfortunate as to have had a large portion of his brain removed or to have been born with a grossly malformed nervous structure.

SAINT HILL Training WHAT SCIENTOLOGY TRAINING MEANS FOR YOU!

Scientology Academy training, like processing, is arranged in easy stages or Levels. Each Level consists of two-week courses, leading to the award of a certificate at that Level. The Levels of training parallel the Grades of processing in that at each Level one is trained to audit the Grade of Release of that Level. In addition to learning how to handle the technology of each Level, each Academy course is a giant step of greater understanding of man's relationship to this universe and to one's fellow man.

It is quite factual that the higher a student advances in his training, the more his beingness also advances. Beingness means the ability of an individual to live or to handle the environment around him, to be something and to handle things as himself. Also, training, alone, can considerably raise a person's I.Q. Above all a person trained in the Academy Levels of Scientology is trained to become an Auditor, a skilled practitioner of Scientology who can handle the raw stuff

of life and audit his fellow man to a Grade of Release and thus help him along the road to Total Freedom. This is the true scope and prestige of an Auditor. L. Ron Hubbard has said, "Auditors are the most valued beings in this universe." The skilful, exact, well-planned Academy courses make skilled, able Auditors.

Two routes to Clear

There are two ways to follow this route to Clear. There is the PRECLEAR ROUTE. This route provides for the minimum of training necessary to have an understanding of The Basics of Dianetics and Scientology to make sure one benefits fully from the gains that he will acquire from processing. The study of The Basics can be done concurrently with auditing.

The AUDITOR ROUTE is for professional Scientologists who intend to find out some of the most fundamental discoveries regarding life and the human mind that have ever been discovered in the history of this universe. With this knowledge and training one is able to pass on this wonderful technology to others by releasing them on the Grades. One acquires

the skills to handle life and people, but also a much higher speed in personal progress up The Bridge. One can then co-audit up through the Grades as well as learn to solo audit on the Solo Course in order to solo audit the Clearing Course and OT Levels. Auditing becomes easier and faster with all the professional auditor experience one has under one's belt from training and practicing as an auditor.

These two routes are given step by step to the left of this article. More detailed information is contained in The Bridge to Total Freedom, Scientology Classification, Gradation and Awareness Chart of Levels and Certificates.

What Saint Hill holds for you

Saint Hill is first of all the home of L. Ron Hubbard. On the extensive grounds surrounding Saint Hill Manor is situated one of the largest Organisations of Scientology – The Church of Scientology, Advanced Organization and Saint Hill United Kingdom. This means,

of course, that you are in the hands of experienced, highly trained terminals delivering rapid, technically accurate and satisfying service to you! This is reflected in the Organisation's rapid expansion culminating in its recent award as the most rapidly expanding Saint Hill in the world.

POWER PROCESSING

The Saint Hill Hubbard Guidance Centers provide auditing on all Grades of Release—from Grade 0 to Power Processing (Grade V). Wonderful Power Processing releases the individual from certain hidden experiences in his past and enables him to handle power in life.

SAINT HILL SPECIAL BRIEFING COURSE

The Saint Hill Special Briefing Course was given

only at Saint Hill where LRH developed it and it was later exported to other specific Organisations of the world that were allowed to deliver it. It's a professional training course that combines both speed and thoroughness. The prerequisites are: Class V Auditor or Clear.

CLEARING COURSE

For those who do not go Clear on New Era Dianetics there is the Alternate Route to Clear. After New Era Dianetics

Case Completion one trains on the Solo Auditor Course which originated right here at Saint Hill. One then enrolls on the legendary Clearing Course and audits oneself to the State of Clear.

A Clear is a person who is again wholly himself and can follow his own basic purposes. Clear is a much higher state of beingness than has ever before been imagined by man.

GAIN AN UNDERSTANDING OF THE MIND ON THE SAINT HILL® SPECIAL BRIEFING COURSE

The Saint Hill Special Briefing Course is where Scientologists have always come for the full developmental track of Dianetics and Scientology, following with Ron as he made his breakthrough discoveries on the mind and life. And the result: An expert Auditor who can handle any case... a Duke of the Auditor Elite. And now, with the release of the Basics Books and Lectures, it is a level of understanding unattainable before, not to mention a speed of progress so fast, you won't believe it until you experience it for yourself. Studied in chronological

sequence, these fundamentals build one to the next, until you are operating at the level of knowingness. Combine it all with the full panorama of technical developments that proceed from the Technical Volumes and 447 Saint Hill Special Briefing Course lectures, plus Golden Age of Tech Drills delivering unprecedented competence and certainty—you will know Dianetics and Scientology to your very core, and for eternity. Special checksheet addenda for studying the Basics have been provided for every level of the Saint Hill Special Briefing Course.

LIFE IMPROVEMENT Scientology

Life can be a very confusing subject if the stable data concerning life are not fully understood. The reactive mind is booby-trapped with false purposes

and incorrect data. When the reactive mind kicks in, then of course one is, to a greater or lesser degree, confused, made stupid and made less effective. The Bridge provides

one with a series of stable data. Aberration is stripped away and one gains certainty, security and an ability to operate at cause over life. Now the onramps to The

Bridge have been secured in place making it easy for anyone to get onto The Bridge, no matter their personal ruin, or current circumstances.

HANDLING THE CONFUSIONS OF THE WORKADAY WORLD!

by L. Ron Hubbard

A confusion is only a confusion so long as all particles are in motion. A confusion is only a confusion so long as no factor is clearly defined or understood.

Confusion is the basic cause of stupidity. To the stupid all things except the very simple

ones are confused. Thus if one knew the anatomy of confusion, no matter how bright one might be, he would be brighter.

If you have ever had to teach some young aspirant who was not too bright, you will understand this well. You attempt to explain how such-and-so works. You go over it and over it and over it. And then you

turn him loose and he promptly makes a complete botch of it. He "didn't understand," he "didn't grasp it." You can

simplify your understanding of his misunderstanding by saying, very rightly, "He was confused." Ninety-nine percent of all

education fails, when it fails, on the grounds that the student was confused. And not only in the realm of the job, but in life itself. When failure approaches, it is born, one way or another, from confusion. To learn of machinery or to live life, one has to be able to either stand up to confusion or to take it apart.

We have in Scientology a certain doctrine about confusion. It is called:

THE DOCTRINE OF THE STABLE DATUM.

If you saw a great many pieces of paper whirling about a room, they would look confused until you picked out one piece of paper to be the piece of paper by which everything else was in motion. In other words, a confusing motion can be understood by conceiving one thing to be motionless.

In a stream of traffic all would be confusion unless you were to conceive one car to be

SCIENTOLOGY LIFE IMPROVEMENT

from page 1 **Scientology tools - the vital knowledge of life**

Now we have twenty Life Improvement Courses covering five key categories:

1. ETHICS AND SURVIVAL

- Overcoming Ups and Downs in Life
- Personal Values and Integrity
- How to Improve Relationships with Others
- Knowing Who You Can Trust
- How to Achieve Self-Confidence.

2. GOALS AND PURPOSES

- How to Get Motivated
- Formulas for Living
- Scientology Tools to Organize for Success
- Effective Time Management
- Setting and Achieving Your Goals
- Scientology Tools for Effective Leadership.

3. SURVIVAL AND PROSPERITY

- Scientology Tools for Overcoming Financial Stress

- Scientology Tools for Financial Security
- Scientology Principles of Prosperity.

4. MARRIAGE

- Creating a successful marriage
- Maintaining a happy marriage
- Salvaging a marriage.

5. CHILDREN

- Having a Happy Baby
- Successfully Raising Children
- Successfully Parenting Tweens and Teens.

Although these services are primarily intended for those who have not yet done major services, such is the scope of their content that they are also perfect for already trained and processed Scientologists with a particular difficulty in any of the five specified areas.

Time, finance, children, security, goals, relationships, trust, ups and downs, can all be addressed with the relevant Life Improvement Courses.

Each one of these courses addresses a specific part of life, and each contains the facts and tools to make that aspect of living the way it should be.

from page 1 **Handling the confusions of the workaday world!**

motionless in relation to the other cars - and so, to see *others* in relation to the *one*.

The switchboard operator receiving ten calls at once solves the confusion by labeling, correctly or incorrectly, one call as the first call to receive her attention. The confusion of ten calls all at once becomes less confusing the moment she singles out one call to be answered. The shop foreman confronted by three emergencies and an accident needs only to elect his *first* target of attention to start the cycle of bringing about order again.

Until one selects *one* datum, *one* factor, *one* particular in a confusion of particles, the confusion continues. The

one thing selected and used becomes the *stable datum* for the remainder.

Any body of knowledge, more particularly and exactly, is built from *one datum*. That is its *stable datum*. Invalidate it and the entire body of knowledge falls apart. A stable datum does not have to be the correct one. It is simply the one that keeps things from being in a confusion and on which others are aligned.

Now, in teaching a young aspirant to use a machine, he failed to grasp your directions, if he did, because he lacked a stable datum. *One fact* had to be brought home to him first. Grasping that, he could grasp others. One is stupid, then, or confused, in any confusing

situation, until he has fully grasped *one fact* or *one item*.

Confusions, no matter how big and formidable they may seem, are composed of data or factors or particles. They have pieces. Grasp *one* piece or locate it thoroughly. Then see how the others function in relation to it and you have steadied the confusion. And relating *other* things to what you have grasped, you will soon have mastered the confusion in its entirety.

In teaching a boy to run a machine, don't throw a torrent of data at him and then point out his errors - that's confusion to him, that makes him respond stupidly. Find some entrance point to his confusion, *one datum*. Tell him,

"This is a machine." It may be that all the directions were flung at someone who had no real certainty, no real order in existence. "This is a machine," you say. Then make him sure of it. Make him feel it, fiddle with it, push at it. "This is a machine," tell him. And you'd be surprised how long it may take but you'd be surprised, as well, how his certainty increases. Out of all the complexities he must learn to operate it, he must know *one datum* first. It is not even important *which* datum he first learns well, beyond that it is better to teach him a *simple basic datum*. You can show him what it does, you can explain to him the final product, you can tell him why *he* has been selected to

run this machine. But you *must* make one basic datum clear to him or else he will be lost in confusion.

Confusion is uncertainty. Confusion is stupidity. Confusion is insecurity. When you think of uncertainty, stupidity and insecurity, think of confusion and you will have it down pat.

Personal Efficiency Course: Taking the Confusion Out of Life

Conducted by the Senior C/S Saint Hill Foundation, Stephen Murray, Saint Hill experienced the brand new **Personal Efficiency Course**.

The Great Hall was full of enthusiastic public keen to get started on this brand new service.

The Course is based on the new film covering eight chapters of the *Problems of Work* book:

- On What Does Success Depend?
- Confusion
- The Anatomy of Control
- Affinity, Reality and Communication
- A-R-C and the Tone Scale
- The Eight Dynamics
- Exhaustion
- The One Who Succeeds.

Following each chapter the I/C got the audience to give real life examples of each of the data covered by the

Personal Efficiency graduates on stage in The Great Hall at Saint Hill

chapter in the film.

As work comprises 70% of life it is vital to know how life operates so that one can be successful at work, at home and in life.

The Personal Efficiency Course gives one Scientology stable data that is immediately

applicable in life to improve the quality of living.

With true knowledge and real tools, whatever is wrong in your life can be put right, and whatever is right in your life can get even better.

Here following are some of the many wins from students at Saint Hill.

Personal Values & Integrity

"I must admit going through the Personal Values and Integrity course was a big pleasure with

good wins and realizations.

I realized that I have chosen the correct conduct through my life. I'd like to be surrounded by people who think similarly.

If the society is responsible and honest we all have the chance to survive. As the game is on and the players actually know the rules, it's not only a desolate statement that we can really have a happy and successful life.

The concepts of Ethics and Responsibility speak to me with a great influence. The Code of Honor is exactly what I wanted to believe and trust in.

It makes me shiver when I realize that I'm amongst people who follow it. The data is obviously revolutionary concerning the state of mind of every person.

In the presence of Scientology we may not need the presence of policemen anymore. It means less expenses, less taxes, more efficiency and happy, smiley people who are able to conduct ethical lives and release themselves from the bars of this prisoners' life. — A.K.

Effective Time Management

I feel that I can apply the data in this course much more than I could before. Clearing words and getting through these data in a course format enabled me to have the time to look at my life and confront the times I did not handle things properly and thus found myself inefficient. This is like an exact science, but

I myself, as the one who applies it, can do it with ease and the certainty I have gained from this course, regarding the tools I should use.

The most important thing I achieved was the attitude towards production with a widened scope. Without the viewpoint of the workers who

need the orders, but as the one who goes like a technician into an area, confronting the outpoints and writing a correction programme that is practical and suitable for execution. That is already the postulate of better survival and the overall responsibility for results. Thanks a lot! — I.S.

Pro-Metering

"I just attested to the Pro-Metering Course. The confidence and ability I got from this course also covers all my dynamics, NOT only one! I learned so much particularly in the last step, I literally changed. My whole beingness changed from sort of namby-pamby to determined and strong willed with tone 40 postulates! I guess that was the EP of KSW 1 too. Thanks Ron! I have arrived." — Shiva Pirnazari

Pro-Metering & more...

"I have just finished the Professional Metering Course, Dianetics: Original Thesis, Dianetics: Evolution of a Science & the H.D.A. Seminar Delivery Course. As phenomenal as the other three courses are, I mainly want to share

my wins on the Pro-Metering course!
The first part of this training journey occurs between 1978 and 1990 when I learnt to use Mark V, Mark VI and Mark VII E-Meters. There was no Golden Age of Tech then, no metering films, and you pretty much relied on the 'wisdom' of others to discover if your metering was any good or not. Needless to say my confidence in my metering was not good during this time. I accumulated enough misunderstandings and omissions in the area to blow myself off the tech training line. I cleaned up a lot of stuff in my Eligibility last year, my confront on the area came up and I went on the Pro-Metering course. I was not confronting using the

meter; I hated the idea of doing a video! I also had no clue how I was going to get through the drills. But I persisted and went into the practical room and discovered a whole new dynamic to training. I found this amazing third dynamic in the course room where the emphasis was on you being able to use the meter to a 100% level of perfection. And to achieve this, I had to be willing to confront my misunderstandings, false data, fixed ideas, HE&R and go through all of it to discover the simplicity of what was being asked for on this course. What the Pro-Metering course did for me was to close the gap between the knowledge I had accumulated on the Basics and its application. I had to use what I had learned to get through and

FOCUS ON Success

in doing so my understanding of the technology of Scientology escalated and I had wins after wins getting there.

Training on Golden Age of Tech is incredible. It is not something anyone should miss out on. The tech training team here at Saint Hill is tremendous, the standards are ruthless and the gains are phenomenal. It has left me with a level of certainty on the tech that I have not experienced before and has me yearning to do more. —J.T.

TRs and Objectives

"Wow! To be honest I did not realise that so much can be gotten from Objectives. I kept saying throughout the course that if someone had told me I had not done them previously I would have totally believed them as the wins were so new to me I could not believe I had done them before.

I decided I wanted to do my Objectives again after hearing

Hannah auditing Chiara on CCHs...

... and later Chiara is the auditor and Hannah the PC

COB's briefing on how powerful they are and how they really, really, make a difference to the rest of The Bridge.

I can see this now and feel so much more aware of the MEST universe and how it really can bog a case. So, to anyone having to do them again, do them, as the wins just get better and better!

Thank you to my amazing twin Louise who made it that much better! — L.H.

"Wow!!! I have completed my TRs and Objectives, what a great journey this has been and how many changes to my life it has made. I have had so many wins over the months and it has been brilliant, not without its difficult moments but with the help of the standard supervisors I continued on. I do want to thank them so

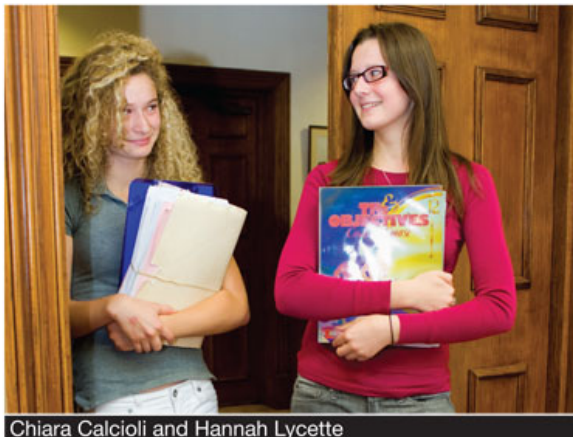

much for their help. Having reached the EP on this course I feel ready and able to continue up The Bridge." — L.B.

"Finishing my Objectives is the best cycle of action I have ever completed, ever.

The gains and wins that I have experienced during these Objectives have been phenomenal! Co-Auditing the Objectives; it's really a great feeling to not only progress through them yourself, but to get someone else through all of them as well.

I feel so in present time and in comm with my environment, it's kind of surreal.

A huge thanks has to go to the whole Saint Hill Foundation team; their sheer persistence and knowledge of the tech is amazing. And of course thanks to LRH for this amazing tech." — J.W.

THE LION, KING OF THE JUNGLE, IS MASTER OF WHAT HE SURVEYS. AN AUDITOR, WITH HIS TECH, IS

In the early 60's Ron called professional auditors from around the world and he told them to come to Saint Hill.

He trained them personally, lecturing them on the tech that is now included in the Saint Hill Special Briefing Course.

These auditors then fired out to their respective zones and built missions, orgs and Advanced Orgs in the succeeding years. Scientology's world-wide expansion has been non-stop ever since.

And now, with over 7 million well done auditing hours delivered and with "This is the session," being said in over 18,000 cities in just the last year alone, and Ideal Organisations opening at an unprecedented rate, it is the auditor who is at the cutting edge of planetary clearing.

Understanding what comprises the reactive mind puts one at cause.

Helping others to vanquish the false and booby trapped purposes that serve to confuse beings and lead them to all sorts of irrational and aberrated actions makes one a real king of the jungle known as life. Become an Auditor!

THE NEW STUDENT HAT®

Learning how to learn has been the vital missing ingredient that has hampered all fields of study.

It handicaps both children in school and people in life. Ron developed a precise technology of how to learn any subject. This technology ensures a person will not only fully grasp what he is studying, but proficiently apply what he has studied in work or life. This study technology is based on laws that underlie all learning. The barriers to study have been isolated and standard handlings worked out for each of them. Ron's study technology is available today in several courses. The *Basic Study Manual*, *Learning How to Learn*, *Study Skills for Life*, *How to use a Dictionary Picture Book for*

Children and Grammar and Communication for Children, are especially designed for children and teenagers and constitute invaluable hatting for these age ranges. *The New Student Hat Course* however, covers the entirety of Ron's Study Technology, including the twelve Study Tapes. The principles and information contained in these lectures, and the issues and drills on this course, are vital to your understanding of Scientology and thereby your progress up The Bridge!®

The product of THE NEW STUDENT HAT is a student who has the know-how and tools to be able to study and apply the materials of any course and will do so.

METHOD ONE® CO-AUDIT COURSE

You can fully recover your education, gain the ability to study new data rapidly and duplicate what you are reading on the METHOD ONE Co-Audit Course.

METHOD ONE Word Clearing is done on an E-Meter® in session with an Auditor. On this course, you'll learn how to do this on a co-audit basis. A co-audit is a team of any two people who are helping each other reach a better life with processing.

METHOD ONE Word Clearing clears up past misunderstood words in subjects that you have already studied. These misunderstood words can hold you back on course and in life right now, whether you are aware

of them or not. You can gain remarkable ease studying any subject by doing this action. Additionally, some incredible case gains can be gotten by both giving and receiving this auditing.

Upon completion of your METHOD ONE Word Clearing and STUDENT HAT courses you become a **Fast Flow Student**, which entitles you to wear a **Fast Flow Student pin** and study fast flow through your checksheets.

This rockets your progress up the training side of The Bridge and also the processing Grade Chart, when you continue to co-audit.

Gain the ability to confront and handle life

THE NEW HUBBARD

PROFESSIONAL TRs COURSE

Do you have the full ability to confront and handle all aspects of your life? Or do situations still cause you to hesitate, to back off or to waver?

The difference is TRs. Professional TRs enable you to hold your position in space. Without the confident confront that TRs give you, you are going to experience difficulties in your life – career, family relationships.

And as an auditor, TRs mean the difference between session success and failure. Good TRs are the key to your pc's case gain. The New Hubbard® Professional TR course is a prerequisite for Academy training and the very building block of superlative auditing ability.

Confront and communication are actual skills that you

can learn on the New Hubbard Professional TR Course. The checklist for this course includes a new major breakthrough from Ron – TR's Clay Table Processing. This processing is done prior to TRs to resolve any barriers that could prevent you from full communication and duplication. You'll also hear six demonstrations of Ron himself auditing a PC, to give you a model of perfect TRs in session.

Life changing wins are common on this course and the results reach deeply across the dynamics. Many New Hubbard Professional TR Course graduates attain a direct, unwavering intention to reach their goals, making their journey up The Bridge to full OT a much faster one.

THE NEW HUBBARD

PROFESSIONAL UPPER

If you have intention, you can be cause.

Those who are blown through life like leaves before the wind, are the effect of other people, activities, circumstances, emotions – even objects. Their own intention is weak and easily deflected by the common everyday randomness of life itself. Success is entirely dependent upon the intention to achieve ones goals and the ability to maintain a high level of control in any situation.

Learn how to operate in life with Tone 40 intention and control on the Hubbard Professional Upper Indoc Course. This course is invaluable to auditors, executives, FSMs, salesmen, teachers and even parents. Anyone who has

to deal directly with people to get things done must do this course. It is a requirement prior to Academy training. You'll hear eleven lectures given by Ron at the Washington, D.C. Freedom Congress in 1957, including live demonstrations of Upper Indoc TRs. Training Routines 6 through 9 are done until you can handle people and objects with intention alone. And that's quite an ability, as any graduate can tell you!

THE NEW HUBBARD

PROFESSIONAL METERING COURSE

This course is the most comprehensive E-Meter® training regimen ever developed. It has made thousands of experts who are now piloting their way up both sides of The Bridge. You start the Course discovering the basics of the E-Meter. Special Theory drills were created to give you an unparalleled understanding of how and why the E-Meter works. You'll see LRH technical training Films that show you exactly how the E-Meter works and the correct way to do a standard assessment and achieve flawless results every time.

Central to the course are actual E-Meter drills which give you a concrete reality and understanding of how they are used in an auditing session. The passing standard for the drills is perfection. You don't just do the drill until you are "pretty good at it". You do the drill until you can do it perfectly, all the way through, no flubs. And that's competence.

This course will make you into a new breed of auditor. Flawless. Certain. And capable of freeing man.

Communicate freely in life

Be in control

SCIENTOLOGY® ACADEMY LEVEL 0

The ability to communicate freely is native to a being. So why is it so difficult for everyone to communicate? How does one restore communication to a world where hate is the headline of the day, the family unit crumbles in an accelerating divorce trend and careers teeter on the brink of unemployment?

Academy Level 0 contains the survival technology you need to dissolve the barriers to communication.

You can handle the boardroom blow up, the failing marriage, the troubled child.

You can help restore communication to the world and personally gain more success in handling your own relationships and life.

It takes a lot of skill, but that's what you get on Academy Level 0.

In just 2 weeks, you can be auditing – bringing about positive changes in your pc's life that he had never conceived possible.

On this Level you learn ARC Straightwire® Recall processes and Grade 0 Communication Release processes.

When you complete, you've earned the title of Hubbard Recognised Scientologist.

SCIENTOLOGY ACAD

Strike up a conversation with any stranger and if you show just a little interest, he will almost immediately begin to tell you about his problems. Everyone has problems. Problems at work, at school. Problems with marriage and relationships. Problems with the kids. The car keeps breaking down. The cheque bounced. The boss got mad.

It is a rare individual indeed who can do something more than just listen sympathetically and nod in agreement. But even sound advice offered to solve a problem will likely go unheeded. Why?

On Scientology Academy Level I you learn about the anatomy of problems, what holds them in place,

the subject of help, solutions to problems and most importantly, how to help someone recognize the source of problems and make them vanish. You can gain an understanding of the relationship of help to aberration, why it can be hard to help others or accept help, handling present time problems and how a solution can even become the problem.

When you know the technology of problems, you can be cause over them. That includes your life and your own dynamics, as well as the pc that you're auditing.

Academy Level I can be completed in 2 weeks. A graduate of this course is Certified as a Hubbard Trained Scientologist.

Why would a person quit a perfectly decent job? Why would a husband abandon a pretty wife and a fine family? Why would a good friend suddenly withdraw his affinity and become critical of you to others? Man is basically good, and when he commits bad acts he will go to great lengths to prevent himself from doing more damage. Illness, sudden departures, emotional shut-off and loneliness are the result of the harmful overt act. These enslave the person who has committed them and cause misery and suffering for himself and others. No technology has existed to free man from his self-imposed chains and disabilities. Now, however, you can help others restore their innate honesty and

communication. All it takes is the willingness and the know-how to open the door to truth. You can raise ethical standards and increase the ability of those around you with the technology contained in Academy Level II. On this level you'll learn how to increase cause level, how to handle criticalness and how to improve honesty and integrity. You'll gain a complete understanding of overts and withholds and what lies behind them. You'll gain data to help you handle any blocks to what you personally want to attain in life. The course can be completed in 2 weeks, with the resulting validation of your beingness as a Hubbard Certified Auditor.

SCIENTOLOGY ACADEMY LEVEL III

Long-term upsets can wring the happiness out of existence and reduce it to a grind. A friend's lasting bitterness over an experience of long ago, enduring regret, a family grudge over a trivial matter – these things prevent a person creating a future and living life to its fullest. Many people dwell perpetually on troubles and upsets they have had in the past and unknowingly allow these to confine them. Life can become a minefield of misemotion, unless you know how to handle upsets in your life and the lives of others. The technology for handling long-term ARC breaks is found on Academy Level III. Here, you study all Ron's breakthroughs and discoveries on Affinity, Reality and Communication. You'll get the data on what holds ARC

breaks in place and how to free a person from their often devastating effects. With this handled, a person can be himself and choose his own reality. A new life is ahead of him.

On this level, you can learn about the source of upsets and how to handle them completely. Get the data on how you can rehabilitate a person's abilities and get him back into communication with life. This Academy Level can be completed in 2 weeks. And upon completion you'll earn the certificate of Hubbard Professional Auditor Class III. You can free people from upsets of the past and give them the ability to face the future.

Are fixed conditions in life blocking your survival? Look around you. Do you know someone who rejects new ideas as "unworkable" without really examining them? Perhaps you have a friend whose "solution" to being broke is spending more than he makes! Have you ever made a casual comment about something, and then had to handle someone who took it personally and got upset about it? And we've all known someone who insists that he is right in some decision or worn-out belief that is positively crazy.

since that point. These old ideas and operating patterns restrict a person's ability to learn new things, to reach and experience new viewpoints and to create in life. By validating the rightness of a being you can bring him to new levels of ability and free him from confining stops. On Academy Level IV you learn the technology to undo fixed conditions in life. Armed with knowledge, you can increase a person's ability to get things done and grant more beingness to others as well. You are actually eradicating major sources of aberration that have been holding this being back – often for lifetimes. This level can be completed in 2 weeks and produces a Hubbard Advanced Auditor.

New Era Dianetics (NED training) is a refinement of Dianetics techniques from 1950 to present time, containing new techniques developed by Ron for faster, higher gains and a full understanding of the reactive mind and its enslaving effects on man. New Era Dianetics contains the processes that cause erasure of the reactive mind. 1978 was the year of Lightning Fast New Tech that can clear people! Since its release, Clears have escalated into the tens of thousands, thanks to NED auditors. Many pcs attain the state of Clear right before your eyes as you standardly audit processes of New Era Dianetics. NED® achieves, in skilled hands, everything that Book

One auditing sought to achieve, but with more speed and precision. First you complete the practical section of the course, and then you get down to auditing. You even co-audit this level in many cases, attaining the state of Clear. This course can be completed in four weeks. Gain a full understanding of the reactive mind, how to erase it and free your pc from aberrations that hold him back. New Era Dianetics auditing often produces Clears! You can apply this technology as a Class V Auditor. Do the Hubbard New Era Dianetics Course.

THE SAINT HILL SPECIAL BRIEFING COURSE

On the Saint Hill Special Briefing Course you can study the complete body of Dianetics and Scientology technology and listen to Ron's lectures in the same environment where they were originally delivered.

Students come from around the world to study here at Saint Hill, where it all began.

From the moment you arrive you feel Ron's presence, and as you study and listen to his lectures to Briefing Course students, you feel as if you are right there, sharing in the excitement as he announces each new development and breakthrough.

Between May 1961 and December 1966, Ron regularly delivered lectures and demonstrations. These lectures, 437 in all – form the core of the Saint Hill Special Briefing Course – the most comprehensive course in Scientology, the only course

which covers the complete timetrack of the development of Dianetics and Scientology and the route to full OT®.

A full chronological study of LRH's phenomenal discoveries, this course covers the full body of Dianetics and Scientology material. It contains the largest, the only effective body of technology ever developed on human behaviour, the mind and life.

Beyond any possible university education, the Briefing Course gives a degree in life itself. You study all Dianetics and Scientology books, all technical bulletins and listen to more than 400 lectures by L. Ron Hubbard – in the sequence they were developed and released. This is vital data that you need to fully operate as an OT in life.

In addition to theory study, the Saint Hill Special Briefing

course students audit intensively on a wide range of levels and rundowns until he becomes an expert auditor.

Students on the Briefing Course can co-audit right up the Grade Chart.

LRH intended that the Briefing Course be broken down into individual checksheets, each with its own certificate and technical skill. This enables Scientologists who cannot do the Briefing Course all at once to do two or three levels at a time, becoming certified for each level as they go. Thus, the new Saint Hill Briefing Course now consists of sixteen separate checksheets, Levels A through P, each an average of just three weeks long. Each level is a major course in itself. Completion of all sixteen levels marks a tremendous accomplishment in Scientology. You become a Class VI Auditor, a "Saint Hiller", and

are awarded the certificate of Hubbard Senior Scientologist. The prerequisites for the Saint Hill Special Briefing Course are Student Hat, Method One, Hubbard Professional TR Course, Hubbard Professional Upper Indoc Course, Hubbard Professional Metering course and the Class V Auditor Course. If you are Clear or above, the only prerequisites are Student Hat, Method One, Hubbard Professional TR Course, Hubbard Professional Upper Indoc Course and the Hubbard Professional Metering course.

The data on the Briefing Course will provide you with the stability gained from understanding the woof and warp of life and the universe.

Our most recent "Duke of the Auditor Elite" Zsusa Nemeth

The Advanced Scheduling Registrar will respond to your inquiry with all the data you need to travel to Saint Hill and she will be happy to answer any questions you may have.

London Airport

From London airports. If you arrive at Gatwick airport then it is a simple 20 minute taxi ride to Saint Hill. If you arrive at Heathrow airport then you can do one of two things:

- a) Take the shuttle bus that travels from Heathrow to Gatwick and then get a taxi to Saint Hill, or

Victoria Station...

- b) Take the train into Victoria and get the train to East Grinstead. It normally leaves from platform 19.

... to East Grinstead Station

When you arrive at the station in East Grinstead you will find many friendly taxi drivers standing by waiting to pick up a fare. They will gladly take you to Saint Hill for just a few pounds.

Bus that travels from Heathrow to Gatwick...

Saint Hill, where LRH trained the Top Auditors of the world!

SCIENTOLOGY AND EFFECTIVE KNOWLEDGE

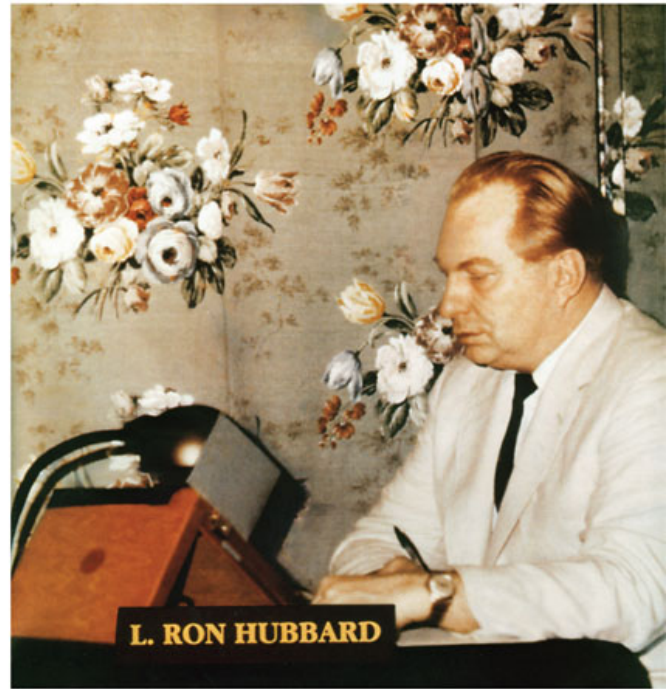

by **L. Ron Hubbard**

I woke up eventually to discover that these training drills all by themselves, practiced with sufficient rigor and coached well enough and instructed well enough and instructed well enough, were steps on the road to Clear all by themselves without any further processing. Why? Because they directly raise the communication level of an individual. But they take another course. Instead of processing this fellow, you say, 'Do it!' And he says, 'Ya-ya-ya-ya!' And you say, 'Do it!' Boom! And just about the time he's lying there in the exact position

where his mother *always* sympathized with him, he finds the coach and the Instructor putting him back on the chair saying, 'Do it!' And the circuits blow up and after a while he says, 'You know, I can communicate.'

It's a ghastly route to take. It could only be attempted on people of considerable stability, of considerable back-processing and a great deal of willingness and understanding, and I'm afraid wouldn't work on the routine preclear, unless in the process of doing them you made a willingness to be a Scientologist.

A group similar to this

L. RON HUBBARD

one, given as much duress as this had in one week, would be all plastered all over the walls by now. So understanding must accompany any drill, mustn't it? And you survive these because you

understand that there's an end goal to them. You understand where they are going and what they are doing, and so your understanding raises your tolerance to a point where

Maj Tapper-Johnson on the Saint Hill Special Briefing Course at AOSH UK, Ron's Home

Training is the other half of OT: "I feel totally effective in handling my own life!"

In March 1961, LRH invited the top Scientology auditors from around the world to his home, Saint Hill, for a "special briefing" on the latest advances in Scientology technology and to perfect auditing skills. This was the beginning of the famous Saint Hill Special Briefing Course. Forty-nine years later and the

Briefing Course is still working its magic, just ask Maj Tapper-Johnson from Sweden: "I have been in Scientology since 1974. I have done training and processing ever since. I am a New OT V and am now on BC Level L here at Saint Hill! An OT operates at cause and so it is important for me to be active in my area and

cause change for the better. I am an active member of the OT Committee Stockholm in Sweden and we are currently working towards obtaining our Ideal Org and that's a great game for a trained OT. In doing the Briefing Course, the amount of wins are just indescribable - each day on the course and with each

lecture by LRH, I get more and more understanding and comprehension about life and livingness and the role of the Auditor. I am not the same person today as I was when I started the Briefing Course. My understanding and ARC for my fellow human beings has increased immensely. Doing the BC puts you

at a new level and you rise above the dramatizations and confusions that make up Planet Earth. I feel totally effective in handling my own life and as I am going through the Levels, I gain the ability to bring someone else to a higher state on The Bridge. I now not only know there is a

go to page 3

from page 1 **SCIENTOLOGY & EFFECTIVE KNOWLEDGE**

you will actually attempt to do this impossible and incredible thing. So, understanding has something to do with it doesn't it? The funny part of it is the understanding is demanded of you, and you look in vain for the Instructor to understand a damn thing! Well, that's all to your benefit. It keys in past understanding on you as you try to give it to him and fail.

But when we look this over on a broad view we find ourselves articulate on the subject of where man is going, what man is doing, what the end product could be; and we for certain have sorted out factors the none of the humanities ever sorted out or ever dreamed of sorting out – that's more important.

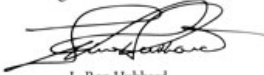

In order for a man to see when he can't, he would first have to understand that he was blind.

Therefore I pity you when someday you find in your midst – thrown to you in a government project or something of the sort – the fact that the old base psychiatrist or something or other is going to be put into your particular

project and you're going to be called upon to train this man.

Now we ourselves are asked to train such a man, we can do so only if we ourselves know that we, too, have risen from the unseeingness.

It's a funny thing for a fellow sometime in processing: he sits down, he's being audited, and he says, "You know... you know, I think I've got things wrong." Boy, you said it. He's not just had them wrong, he's had them upside down. But this sneaking suspicion comes through him. He sat down there so that you would audit him and thereby prove that he was always right and he was simply put-upon by the rest of the world. And he finds out in the course of it, somewhere along the line, that he was dead wrong and, to modify English, couldn't have been wronger.

Bridge, but have the technical understanding of how it works and know how to apply the data to help another person change conditions in life – which is totally new in this universe. To me personally, this has given me a certainty on my ability to help anyone I encounter in my life.

Once I am fully trained, I intend to put this knowledge to use to help others and make more Clears and OTs. But even

coming this far, I have had invaluable help from the tech in helping relatives and friends to a better existence.

As I live far away from Saint Hill, I have to plan my schedule carefully and I devote as much time as I can to come full time to be as effective as possible. I try and get the most

out of being here while I can, for most of the time I am on course from 9 in the morning to 10pm at night. I keep my study tech in and get the most wonderful assistance from the terminals here at Saint Hill. It is a luxury to be able to be on course and listen to LRH and get the superb help from the supervisors, word clearers, coaches, all the terminals.

Saint Hill has this wonderful tradition of training.

Before the BC, I did the HSDC in 1974 and co-audited my lower Bridge. But already then I met my first Class VIs and decided that I will one day also become a Class VI Auditor, as I realized they knew things that were new to this world. To do the BC here at Saint Hill is a privilege.

So far on the BC I have learned all the basic data from The Basic books like; tone scale and axioms etc. and from there to the E-Meter, ARC breaks, the mechanics of the reactive mind and the different styles of auditing.

I personally believe that the SHSBC is the best thing I have EVER done and I know I will never be the same again.

Metering Course, Academy Level 0-IV and the NED course. They don't have to do any internships. They just have to be a Class V Auditor.

Q. Does being Clear make a difference to the Pre-Requisites to the Saint Hill Special Briefing Course?

A. All a Clear needs to do is the Student Hat, Pro TRs, Upper Indoctrination TRs and the Professional Metering Course.

Q. What happens if someone is mid auditing of some kind?

A. The Student Hat anyone can do at any point. Regarding their PRO TRs they need to be at a flat point on their auditing for the Clay Table Processing. It's per the adjudication of the C/S. They don't necessarily have to complete their auditing.

Q. How easy is it to get onto the Briefing Course?

A. Ridiculously simple. Someone can train from Student Hat through to the NED Course in 6 months. And then, they are on the Briefing Course.

The main thing is that by the time they complete the Briefing Course they can audit anything from Life Improvement to making a Clear, including being able to audit all the Specialist Rundowns. The Briefing Course gives them the conceptual understanding of the PC and the bank. With the Briefing Course you get full conceptual understanding of what's happening in front of you. In the Practical Course-room you will get your auditing skills honed and refined so you can be certain of your auditing skill anywhere and with any PC.

SHSBC Successes

"Studying Level H of the Briefing course is another chapter in an amazing story of research of the mind and the route to Clearing. I have thoroughly enjoyed listening to many tapes and demonstrations given by LRH and I am sure it will improve my own auditing – and in addition I learned the underlying basics to what we know today as listing and nulling."—W.K. (SHSBC Level H)

"This level is the last of the theory levels and wow! I did it! I studied a lot of very interesting

Rundowns and prepared lists that I never knew existed and I think that it's great because with them I'll have a solution for every kind of case.

Now I know that every case can be solved. On this level I helped students with word clearing tech and I found out that I have the beingness of an auditor and the students were happy and willing to come back "in session" with me. Yes, because I'm able to put them really IN SESSION. This is a big win for me because it means that after all this theory, now I am ready to start the Level O where I'll audit PCs."—A.C. (SHSBC Level N)

"WOW! This was probably the best level I have done on the BC so far.

I have applied this very well to my Solo NOTs* auditing and can really spot missed withholds in life and know what to do.

Also, I have learned about auditing and unravelled what I'd done wrong in 2 assist sessions and their consequences.

I am now well on the way to becoming an auditor – for real!"—C.L. (SHSBC Level B)

tinest moment of time, thus greatly increasing your ability to read a meter.

PRODUCT: A thorough understanding of listing.

CERTIFICATE: BASICS OF LISTING GRADUATE (Provisional)

LENGTH OF COURSE: 3 weeks full time.

PREREQUISITES: SHSBC Level G.

Level I

On Level I, you will learn the fundamentals of listing and nulling, including the do's and don'ts of this precise technology.

The course also teaches you how to handle originations, how to spot the state of the pc, the cycle of an ARC break and what to do when an ARC break occurs in session, the relation of the reactive mind to purpose and more.

PRODUCT: A thorough understanding of the basics of listing and nulling.

CERTIFICATE: BASICS OF LISTING AND NULLING GRADUATE (Provisional).

LENGTH OF COURSE: 3-1/2 weeks full time.

PREREQUISITE: SHSBC Level H.

Level J

Level J covers service facsimiles and ARC breaks in depth. This is the technology of rightness and wrongness, how to get rid of a service facsimile, the history of lessening abilities and the thing that is wrong with the mind. You will learn about communication cycles and ARC breaks and ARC break assessments, the time track and dating, assessing, locating and indicating bypassed charge. On this level is a look at OT and how incorrect use of force and intelligence has contributed to the downfall of OTs down through time. You will drill various techniques on getting Tone Arm action and do practicals to ensure you fully grasp the mechanisms of the comm cycle,

service facsimiles and handling tone arm.

PRODUCT: A thorough understanding of the basics of ARC breaks and service facsimiles and the mechanics of how to get charge off a case.

CERTIFICATE: HANDLING OF ARC BREAKS AND SERVICE FACSIMILES GRADUATE (Provisional).

LENGTH OF COURSE: 3-1/2 weeks full time.

PREREQUISITE: SHSBC Level I.

Level K

Level K covers the data on pc indicators and the use of PC indicators – good and bad – to handle cases. You can find out "what's wrong" with someone with just an ability to spot their indicators. You can know exactly what is happening with them – even if they don't! This level includes LRH Technical Training Films *PC Indicators* and *PC Indicators Drill Film* and the *Book of Case Remedies*. You will drill spotting and handling pre-clear indicators and

the use of indicators to remedy cases. Among the materials of this level are the famous Study Tapes. You will also learn Styles of Auditing, Clay Table Processing, further data on ARC breaks and basic comm processes. On this level you will see the LRH filmed Saint Hill Special Briefing Course lectures, *Track Analysis* and *Running GPMs* [Goals Problems Masses]. These films are seen only on the SHSBC.

PRODUCT: A thorough understanding of pc indicators and the ability to recognize them.

CERTIFICATE: RECOGNITION OF PC INDICATORS (Provisional).

LENGTH OF COURSE: 3 weeks full time.

PREREQUISITE: SHSBC Level J.

Level L

During this period LRH released the Classification, Gradation and Awareness Chart – the Grade Chart, which remains fundamentally the same today. This level fully covers the

grade chart including the Awareness Levels and how these apply to an individual and his progress up the Grade Chart. The LRH SHSBC filmed lecture Classification and Gradation is shown on this course. This checksheet contains a broad range of other materials: the basic data on releases, rehabilitation, PTS/SP tech, Search and Discovery, the Laws of Listing and Nulling, Gross Auditing Errors, Class VIII and standard tech, LRH's initial findings on the effects of drugs on a being and interiorization.

You will drill Search and Discovery, rehab tech, Mutter TR, 5 Way Help Process, checking for false reads and more. You will learn the Laws of Listing and Nulling verbatim.

This level covers data on floating needles and end phenomena and at this point of the SHSBC the processes you will drill will be done to full end phenomena: floating needle, cognition, very good indicators and release.

What does the SHSBC consist of?

Letter of thanks from the new Ideal Org Lead C/S Rome to the Captain AOSH UK

"Dear Sir, Ciao!!! I wanted to write a couple of lines... If you would like to share this with others I would appreciate it. Basically what I want to say is... thank you.

Me being the Lead Case Supervisor in Rome Ideal Org is the product of your Advanced Org, AOSH UK!

Every day I remember my supervisors, my word clearers... my C/Ses... the Snr C/S... Graduations... the Saint Hill HGC and the Saint Hill Manor.

I learned a lot, being a Saint Hiller, about understanding, about ARC and how to deal with preclears and their cases. Every win my PC's write, is also my win, and it's your win and LRH's win.

If Rome one day rules again the Mediterranean area, it will be because you and other Sea Org members on the base, worked hard on me and created, from

scratch, a Standard Class VI Case Supervisor... all the way from Book One.

When I was at Flag recently for a "refresher" before joining Rome Org, I didn't have to do anything more than get checked out on the Student Hat, Professional TRs and Metering: that's all!

There was a complete trust in the Standard Tech of Saint Hill.

Since we opened the Org, my HGC has produced 13,700 Well Done Auditing Hours and made 128 Grade Chart Releases. And, additionally, we have recovered plenty of preclears that were off The Bridge!

So... thank you Captain... thank you very much.

LIFE - CAUSE AND EFFECT

by L. Ron Hubbard

The reason Scientology is such a fascinating study is that it takes apart the other fellow's ideas and permits one to create some of his own. Scientology gives us the common denominators of *objects, energies, spaces, universes, livingness* and *thought* itself.

There is CAUSE and EFFECT. Cause could be defined as "emanation." It could be defined also, for purposes of communication, as "source-point." If you consider a river flowing to the sea, the place where it began would be the *source-point*, or cause. And the place where it went into the sea would be the *effect-point*. And the sea would be the effect of the river. The man firing the gun is cause. The man receiving the bullet is effect. The one making a statement is causing a communication. The one receiving the statement is the

effect of the communication. A basic definition of communication is "cause-distance-effect."

Almost all anxieties and upsets in human relations come about through an imbalance of cause and effect. One must be willing at once to cause new data, statements, assumptions, considerations and to receive ideas, assumptions, considerations.

So great is the anxiety of a thetan to cause an effect, that he closely approaches those things which can cause an effect upon him. Thus a thetan becomes trapped. On the face of it, so few thetans make causative data and so many receive data, that it would seem (in view of the fact that a thetan can be touched only by his own consideration) that thetans are more anxious for effects, than to be cause. However, this is not true in practice. In a game, one seeks to cause an effect and to receive no-effect.

Circa 1953: Ron with Founding Scientologist, George Wichelow and his mobile Scientology bookstore; London, 163 Holland Park Avenue, where Ron established the first British Scientology Organisation.

It is learned, under close experiment, that there is nothing a thetan actually disdains on an effect level. He pretends not to like or enjoy certain effects and protests against them, but he knows very well that the

mechanism of protest causes the effect to approach more closely as a general rule. This came about by his repeated failure in games. Insisting on no-effect for himself, he lost. Then he had to say he

Know and understand how to handle life!

As L. Ron Hubbard points out in *The Fundamentals of Thought*, "Any information is valuable to the degree that you can use it." In studying Scientology one discovers a great deal of usable data that puts one at cause over life. Here are some personal wins from Saint Hill:

Professional Metering Course - I had many wins while doing this course. I had wins about life. But one that stands out, very

obviously, is that now I am able to handle people as thetans and bodies. For me it's a win to be at this level of causation. Before I was effect and thought that the meter would simply read because someone is holding the cans. To my surprise I realized this isn't true at all and that only by putting theta in a comm cycle and having certainty, can one get the meter to read properly, and this is what actually creates the effect.—Maribel Coronado

Academy Level I - This course was FAR better than I expected. The information contained in it and the 'problems' (no pun intended) in a PC's life that get handled on it, are VITAL to progress up The Bridge®. The tapes were SUPERB. I now understand how the Bank came about in the first place. I'm looking forward to helping people relieve themselves from the shackles that hold them back. Thank you SAINT HILL

once again for such SUPERB service and Standard Tech." —Ricky Delgado

Upper Indoc TRs Course - My God. The Student Hat was life changing. The Professional TRs were MORE life changing. The Upper Indocs? You guessed it - THE MOST LIFE-CHANGING experience yet!!!!!!

After the Professional TRs I had this wonderful new freedom. I could really communicate with the world around me for the very first time

without attention on myself, or hesitancy to speak, or fear of confrontation. I thought this was absolutely the best thing that had ever happened to me. I wondered, what more could these Upper Indocs possibly offer me? I already had it all... Wrong! Flunk! The Upper Indocs gave me something truly magical: intention. It was so amazing to use Tone 40 on a person. I felt like the world kept turning only because I intended it to. So there was just no way my coach wasn't going to touch that wall. To see her hand snap to the wall, and her

astonished expression made all the hard work worth it a million times over. I don't feel human anymore. I am something much bigger now... there is truly no denying it. I can handle anything and my responsibility as a being has risen to unprecedented heights. Everyone needs these TRs - RIGHT NOW!—Edmead Kangai

Academy Level IV - Wow, it is like a dream come true. I am a Class IV auditor, I underestimated this level. Doing this ser-fac handling on somebody made me

understand why these service facsimiles are standing in the way of flows. It is so important to have auditors and I am so happy to be one of them. These tools are not only for sessions, but also for life and it is great to have them, as I can see, so much more, things for what they are. —Caroline Grabijn

Professional TRs Course - The improvements made in me and my communication abilities on the Pro TRs would not fit on this page, or even two or three. I have always been extremely self-conscious about the way I communicated with others.

“The Upper Indocs gave me something truly magical: intention.”

Middle school (age 10-13) was an absolute nightmare for me as I tried desperately to “be myself” so others would “like me”. I tried and tried and tried, but the more I made “being myself” a doingness rather than a beingness (innate and natural, not something one has to TRY at), the more I felt myself drifting away into

“On Level I, I gained a new understanding for handling problems in my life.”

something I'm not. On the Pro TRs, I stripped away the “now I'm supposed to's” and the social machinery I had built up in trying to “be myself” – social machinery which was actually PREVENTING just that!

Now I have no attention on myself when I communicate

“I had wins about life. I am able to handle people.”

with others. I trust myself to say the appropriate and correct thing NATURALLY, without the consideration that “speaking without thinking” will cause some sort of disaster. People listen to me now because I speak to be HEARD, not to fill a silence or an expectation. The Pro TRs have given back to me something I never expected to have, and now the doors to being an effective auditor are wide open!—Lauren Pond

from page 1 **LIFE - CAUSE AND EFFECT**

liked the effect.

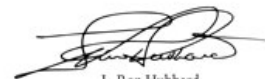

The prevailing anxiety then, is to “be an effect,” not to “be a cause.” The entire subject of “responsibility” is a study of cause and effect — in that a person who wants no responsibility is anxious to be an effect only, and a person who can assume responsibility must also be willing to be causative. ...It is only generally true that “an individual is responsible for everything that happens to him.” When an individual, wishing to cause many interesting effects, chooses to go into

many universes or traps, he can become confused about what he is doing, where he is, or what it is all about.

Scientology points out that this can be seen or changed, from a person's own viewpoint, to bring about a change in his own condition.

As an example, a thetan has to come to “believe” that the right way to get along in life is to do just as father did. This is an invitation to being in father's universe. Later on he changes his mind about this, but he finds himself still in father's universe and doesn't like it. He would be more effective, more capable, if he were not now in

father's universe. Customarily, in these unenlightened times, he waits for death to separate himself from the environment in which he finds himself, and “puts up with it” until then. It is not necessary to do this now that we have Scientology. He can at any moment, given the proper steerage, vacate any trap in which he finds himself and begin again on a new series of considerations.

Scientology Academy Level 0

The ability to communicate freely is native to a being. So why is it so difficult for everyone to communicate? How does one restore communication to a world where hate is the headline of the day, the family unit crumbles in an accelerating divorce trend and careers teeter on the brink of unemployment? Academy Level 0 contains

Academy training handles

the survival technology you need to dissolve the barriers to communication. You can handle the boardroom blow up, the failing marriage, the troubled child. You can help restore communication to the world and personally gain more success in handling your own relationships and life.

It takes a lot of skill, but that's what you get on Academy Level 0. In just 2 weeks, you can be auditing – bringing about positive changes in your pc's life that he had never conceived possible. On this Level you learn ARC Straightwire® Recall processes and Grade 0 Communication Release processes. When you complete, you've earned the title of Hubbard® Recognised Scientist.

Scientology Academy Level I

Strike up a conversation with any stranger and if you show just a little interest, he will almost immediately begin to tell you about his problems. Everyone has problems. Problems at work, at school. Problems with marriage and relationships. Problems with the kids. The car keeps breaking down. The cheque bounced. The boss got mad. It is a rare individual indeed who can do something more than just listen sympathetically and nod in agreement. But even sound advice offered to solve a problem will likely go unheeded. Why? On Scientology Academy Level I you learn about the anatomy of problems, what holds them in place, the subject of help, solutions to problems and

most importantly, how to help someone recognize the source of problems and make them vanish. You can gain an understanding of the relationship of help to aberration, why it can be hard to help others or accept help, handling present time problems and how a solution can even become the problem. **When you know the technology of problems, you can cause over them. That includes your life and your own dynamics, as well as the pc that you're auditing.** Academy Level I can be completed in 2 weeks. A graduate of this course is Certified as a Hubbard Trained Scientist.

Scientology Academy Level II

Why would a person quit a perfectly decent job? Why would

a husband abandon a pretty wife and a fine family? Why would a good friend suddenly withdraw his affinity and become critical of you to others? Man is basically good, and when he commits bad acts he will go to great lengths to prevent himself from doing more damage. Illness, sudden departures, emotional shut-off and loneliness are the result of harmful overt acts. These enslave the person who has committed them and cause misery and suffering for himself and others. No technology has existed to free man from his self-imposed chains and disabilities. Now, however, you can help others restore their innate honesty and communication. All it takes is the willingness and the know-how to open the door to truth. You

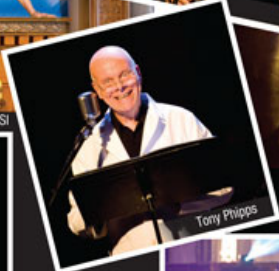

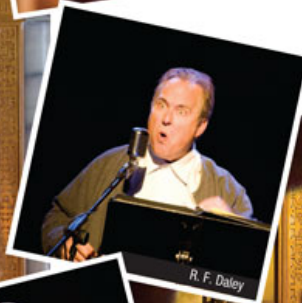

Author Services Inc. bring Ron's fiction work to the Great Hall stage!!

Two stunning events, two thrilled audiences!

When the Spitfire was hoisted into position above the Castle doors, it was obvious that this was not going to be an ordinary event. And whatever adjectives could be applied to describe the evening with Author Services Incorporated, the organization that deals with L. Ron Hubbard's fiction works, ordinary is definitely not one of them. As the public approached the Great Hall they were met with yet another unusual sight, for the doors of the Great Hall had been transformed from the grand oak

doors into a space portal manned by silver space-hostesses. Then from the sci-fi entrance it was again back down the track to the 30's and 40's, the heyday of the pulps, as the Kubillus sisters treated the audience to The Andrews Sisters song from that period - Boogie Woogie Bugle Boy of Company B. And as the cheering died down it was the turn of Sophii Hill to enthrall the audience with another song that has rattled down the decades, the Cole Porter classic, Too Darn Hot. Then it was onto the main event with Gunhild Jacobs, Executive Director for Fiction Affairs from Author Services Inc. The audience was captivated by the event content, by the scope of L. Ron Hubbard's fiction works and by the world wide acceptance of his works. But the main dish of the evening centred around the Writers of the Future Contest which has now been running for 25 years. A brand new publication, L. Ron Hubbard

presents "Writers of the Future - The First 25 Years," was released to the public. This book covers the phenomenal success of the Writers of the Future Contest with many testimonials from the world famous authors that got their professional careers on track by winning the contest. But if that was the main dish then the icing on the cake came in the form of a staged book-reading featuring R. F. Daley, Tony Phipps and Katy Norman. They enacted a story called "One Was Stubborn," written by LRH in 1939. And although the story was written many years before Ron released Dianetics and Scientology, it nevertheless gave many insights into operating at cause over life. The event was a great success and was followed, just 24 hours later, with another performance to the local community and again, as one would expect, the response was extremely enthusiastic. Roll on the next ASI Roadshow!

can raise ethical standards and increase the ability of those around you with the technology contained in Academy Level II. On this level you'll learn how to increase cause level, how to handle criticalness and how to improve honesty and integrity. **You'll gain a complete understanding of overt and withholds and what lies behind them. You'll gain data to help you handle any blocks to what you personally want to attain in life.** The course can be completed in 2 weeks, with the resulting validation of your beingness as a Hubbard Certified Auditor.

Scientology Academy Level III

Long-term upsets can wing the happiness out of existence and reduce it to a grind.

A friend's lasting bitterness over an experience of long ago, enduring regret, a family grudge over a trivial matter – these things prevent a person creating a future and living life to its fullest. Many people dwell perpetually on troubles and upsets they have had in the past and unknowingly allow these to confine them. Life can become a minefield of misemotion, unless you know how to handle upsets in your life and the lives of others. The technology for handling long-term ARC breaks is found on Academy Level III. Here, you study all Ron's breakthroughs and discoveries on Affinity, Reality and Communication. You'll get the data on what holds ARC breaks in place and how to free a person from their often

devastating effects. With this handled, a person can be himself and choose his own reality. A new life is ahead of him. **On this level, you can learn about the source of upsets and how to handle them completely. Get the data on how you can rehabilitate a person's abilities and get him back into communication with life.** This Academy Level can be completed in 2 weeks. Upon completion, you'll earn the certificate of Hubbard Professional Auditor Class III. You can free people from upsets of the past and give them the ability to face the future.

Scientology Academy Level IV

Are fixed conditions in life blocking your survival? Look around you. Do you know

someone who rejects new ideas as "unworkable" without really examining them? Perhaps you have a friend whose "solution" to being broke is spending more than he makes! Have you ever made a casual comment about something, and then had to handle someone who took it personally and got upset about it? And we've all known someone who insists that he is right in some decision or worn-out belief that is positively crazy. Attitudes and "solutions" are held in place with decisions made by the being himself – decisions that once helped him deal with something, yet which have remained fixed since that point. These old ideas and operating patterns restrict a person's ability to learn new

things, to reach and experience new viewpoints and to create in life. By validating the rightness of a being you can bring him to new levels of ability and free him from confining stops. **On Academy Level IV you learn the technology to undo fixed conditions in life. Armed with knowledge, you can increase a person's ability to get things done and grant more beingness to others as well. You are actually eradicating major sources of aberration that have been holding this being back – often for lifetimes.** This level can be completed in 2 weeks and produces a Hubbard Advanced Auditor.

KEY TRIANGLES TO HANDLE LIFE

by L. Ron Hubbard

A-R-C TRIANGLE

The A-R-C TRIANGLE is the keystone of living associations. This triangle is the common denominator to all of life's activities.

The first corner of the triangle is called AFFINITY.

The basic definition of affinity is "the consideration of distance, whether good or bad." The most basic function of complete affinity would be the ability to occupy the same space as something else.

The word affinity is here used to mean "love, liking or any other emotional attitude." Affinity is conceived in Scientology to be something of many facets. Affinity is a variable quality. Affinity is here used as a word with the context "degree of liking."

The second corner of the triangle is REALITY.

Reality could be defined as "that which appears to be."

Reality is fundamentally agreement.

What we agree to be real is real.

The third corner of the triangle is COMMUNICATION.

In understanding the composition

of human relations in this universe, communication is more important than the other two corners of the triangle. Communication is the solvent for all things (it dissolves all things).

The interrelationship of the triangle becomes apparent at once when one asks, "Have you ever tried to talk to an angry man?" Without a high degree of liking and without some basis of agreement, there is no communication. Without communication and some basis of emotional response, there can be no reality. Without some basis for agreement and communication, there can be no affinity. Thus we call these three things a triangle. Unless we have two corners of a triangle, there cannot be a third corner. Desiring any corner of the triangle, one must include the other two.

The triangle is not an equilateral (all sides the same) triangle. Affinity and reality are very much less important than communication. It might be said that the triangle begins with communication which brings into existence affinity and reality. A-R-C are UNDERSTANDING.

In front of the Saint Hill Manor: L. Ron Hubbard with the top auditors from around the world in the '60s.

K-R-C TRIANGLE

The upper triangle is particularly applicative to an executive, but applies to all Scientologists. It has not been widely known.

The points of the K-R-C TRIANGLE are K for KNOWLEDGE, R for

RESPONSIBILITY and C for CONTROL.

It is difficult to be responsible for something or control something unless you have KNOWLEDGE of it.

The Basics and The Bridge: Reach freedom and ability to handle life!

The Wonders of the World all have one thing in common: strong and solid foundations. The Pyramids would have crumbled and fallen long ago but for their solid foundations. And so it is with the greatest wonder known to man—spiritual freedom as contained in the works of L. Ron Hubbard. To attain total freedom it is essential that one starts with a complete foundation and that means a full and thorough

knowledge of The Basics. With The Basics under one's belt, Auditor training becomes the next step on a journey like no other in history. As in all things, with one's basics in, the

rest becomes so much faster and simpler. Can you imagine how long it would take you to play

Moonlight Sonata if you never learned how to play scales on a piano? Basics in equals speed of progress and depth of gain on the rest of the Grade Chart as pre-OT and Grad V Auditor, David Garcia tells here:

"It was the Basics that made me realise that this technology is applied to many levels and universes and that its scope is amazing."

"My father introduced me to Scientology when I was 13. We lived in Spain at the time but by the age of 16, I came to England to learn English. I attended Greenfields school in Forest Row just a few miles from Saint Hill. Once I graduated I lived in London for 3 years whilst studying for my B. A Hons. in

Film Making. During my time in London I did the Student Hat and PTS/SP Course in CC London. Also I continued to go up The Bridge in Spain during my school holidays.

I was 22 by the time I came to Saint Hill and started training as an auditor. I came to Saint Hill originally as I liked the idea of being in Ron's home and because the team looked very professional. I got my head down and studied the Levels and trained up to Class IV and that was when the Basics were released. I had been struggling with Advanced Procedures and Axioms on my Class IV course and then attended the event where the Basics were released and discovered that the very book I was having trouble with was one of the books that needed the most work to get it back to being fully as LRH had written and intended. It felt like such a validation.

Every time I study the Basics I find it applies to whatever I am facing in life. It is amazing to see

how I can utilise lots of data in my everyday life. I can then read it and understand it without any problem.

It was the Basics that made me realise that this technology is applied to many levels and universes and that its scope is amazing.

I disseminate to my friends who are non-Scientologists and to other people I meet along the way. During my internships and training I have had to literally go on the street and find strangers to audit. The gains from doing this are great and peoples reactions are astounding.

Four years ago I helped to create The Way to Happiness Outdoors club with a fellow Scientologist and since then we have brought

many Scientologists together to participate in diverse activities and have gotten out thousands of *The Way To Happiness* booklets and helped ideal orgs. Last week I met someone in London who was curious about why my business

“The Bridge has two sides and both are equally important.”

was so successful and I sent him one of the new Division 6 courses to do with money.

Being Clear makes a difference to one's general practice as an auditor. However since I've been on OT III my beingness as an auditor has

changed. I really understand who I'm auditing and how I should address my pcs now, which has improved the results I get on my pcs and altogether made me a better auditor.

As a Grad V auditor you learn many procedures and you get to do them in session which pays dividends when auditing yourself on OT levels, especially on OT III. As a trained auditor you have experienced all the difficulties in session already and have learnt from your errors and mastered the auditing techniques so when you are on your Solo auditing you can just get on with it.

I now feel like a part of that team as a trained Saint Hill and Flag auditor. Auditing someone is amazing! I

“Each time one of my pc's attests to something I have audited them on, I take the win with them.”

have now audited way over 1000 hours on dozens of different pcs. Each time one of my pc's attests to something I have audited them on, I take the win with them. During my internship I made two Clears which is not very common and it really felt like a great validation to me as a professional auditor.

Doing Ron's original route to Clear is very interesting. You get to be part of a group who get to read the advance levels material in Ron's handwriting and watch films that only people at that level can watch. Doing the original route i.e. Power, Power Plus, R6EW, Clearing Course and auditing

myself to Clear at his home felt like I was following his footsteps. It felt like he was leading the way and I was following him.

I now audit in a field practice while also running a successful business as a videographer filming high-end weddings and promotional videos. I have to say that the knowledge I have gained from The Basics and from training as an auditor has helped me in every aspect of my life. The Bridge has two sides and both are equally important, whether you intend to become a professional auditor or not, once you are an auditor everyone around you will benefit from it. And the depth of gain and stability of your Bridge progress is unparalleled.

KEY TRIANGLES TO HANDLE LIFE

It is folly to try to control something or even know something without RESPONSIBILITY.

It is hard to fully know something or be responsible for something over which you have no CONTROL, otherwise the result can be an overwhelm.

A being can of course run away from life (blow) and go sit on the backside of the moon and do nothing and think nothing. In which case, he would need to know nothing, be responsible for nothing and control nothing. He would also be unhappy and he definitely would be dead so far as himself and all else

was concerned. But as you can't kill a thetan the state is impossible to maintain and the road back can be gruesome.

The route up from death or apathy or inaction is to *know* something about it, take some *responsibility* for the state one is in and the scene and *control* oneself to a point where some control is put into the scene to make it go right. Then *know* why it went wrong, take *responsibility* for it and *control* it enough to make it go more toward an ideal scene. Little by little one can make anything go right by:

INCREASING KNOWLEDGE

on all dynamics, INCREASING RESPONSIBILITY on all dynamics, INCREASING CONTROL on all dynamics.

If one sorts out any situation one finds oneself in on this basis, he will generally succeed. The K-R-C Triangle acts like the A-R-C Triangle. When one corner is increased, the other two also rise. Most thetans have a dreadfully bad opinion of their capabilities compared to what they actually are. Hardly any thetan believes himself capable of what he is really capable of accomplishing.

By inching up each corner of the

K-R-C Triangle bit by bit, ignoring the losses and making the wins firm, a being at length discovers his power and command of life.

The second triangle of the symbol of Scientology is well worth knowing. It interacts best when used with high A-R-C. Thus the triangles interlock.

Get rid of the reactive mind as an auditor! Become able to Clear

The Hubbard New Era Dianetics Course

New Era Dianetics (NED training) is a refinement of Dianetics techniques from 1950 to present time, containing new techniques developed by Ron for faster, higher gains and a full understanding of the reactive mind and it's enslaving effects on man.

New Era Dianetics contains the processes that cause erasure of the reactive mind.

1978 was the year of Lightning Fast New Tech that can clear people! Since its release, Clears have escalated into the tens of thousands, thanks to NED auditors.

Many pcs attain the state of Clear right before your eyes as

you standardly audit processes of New Era Dianetics.

NED achieves, in skilled hands, everything that Book One™ auditing sought to achieve, but with more speed and precision. First you complete the practical section of the course, and then you get down to auditing. You even co-audit this level in many cases, attaining the state of Clear.

This course can be completed in four weeks.

Gain a full understanding of the reactive mind, how to erase it and free your pc from aberrations that hold him back. New Era Dianetics auditing often produces Clears!

You can apply this technology as a Class V Auditor. Do the Hubbard New Era Dianetics Course.

What does New Era Dianetics auditing consist of?

As a person goes through life and lifetimes, he collides with secondaries, losses, deaths of those he is closely connected with, injuries, accidents, illnesses, operations and emotional stress. These of course are not all, but cover the main complaints and symptoms of people.

On New Era Dianetics auditing you address unwanted attitudes, emotions, sensations and pains. As you progress through your NED auditing program, you can erase more and more of your own reactive mind.

Ron developed New Era Dianetics to deliver everything and anything Book One ever mentioned – with lightening speed.

Engrams are gone for good and so are the aberrations that they held in place.

New Era Dianetics includes a battery of rundowns that zero in on specific areas an individual needs to handle. The Case Supervisor determines which of these may be needed to address your case so that you can become powerful and able to lead a happier and more productive life.

The reactive mind plagues a person with the unthinking, irrational dictates of its contents and imposes anxieties, fears, unwanted sensations and feelings and a host of other undesirable effects. Freeing him from the command value such unwanted emotions exert over his volition, provides new levels of self-determinism.

Dianetics does not cure

A fantastic night of entertainment, fireworks, food and revelry made New Year's Eve at Saint Hill something very special.

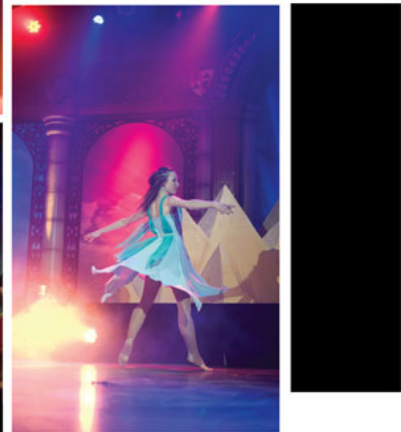

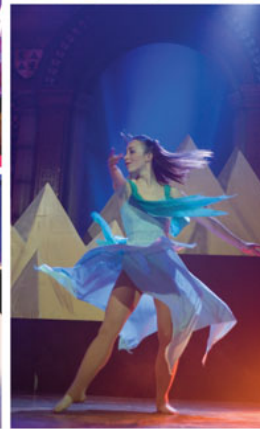

New Year's Event at Ron's Home.

A Chinese Lion, Hip-hop dancers, Hossam and Serena Ramzy's aesthetic Egyptian dance and all rounded off with an Irish Jig made for an International feel for the incredible video presentation of Scientology's accomplishments throughout 2010 that was to follow.

The video presentation from Chairman of the Board RTC was a completely spectacular global picture of Scientology technical application through all sectors and activities. The video presentation was followed by an amazing and

well enjoyed fireworks display. Then it was party time as the champagne flowed and DJ Mike Ricketts got the crowd on their feet all the way to, (and well past) the countdown to midnight and the heralding of a whole New Year!

... a NED people.

any physical condition, but does address those spiritual and mental factors that can predispose or precipitate illness or make medicine ineffective. As a result, by handling the psychosomatic causes, one can achieve a well and happy being and often bring a person to that burst of glory and freedom known as the State of Clear.

NED Drug Rundown

The NED DRUG RUNDOWN, for example, resolves the factors in the reactive mind relating to drug addiction, eradicating not only the unwanted after-effects of drugs, but also those reactive forces that initially led one to turn to drugs. The harmful effects on the mind are erased and a person is freed from the compulsion to take drugs.

Relief Rundown

And what about handling severe losses or sudden changes in life, such as the death of a relative or a pet, the loss of a favourite possession, even the loss of a job or a position, that can cast gloom over an entire lifetime? Until New Era Dianetics, there was no relief from such grief, failure and setback. The RELIEF RUNDOWN detects and handles the points where one's life changed for the worse after such an incident, and fully resolves these.

Disability Rundown

On another rundown, the DISABILITY RUNDOWN, you address anything that you personally consider to be a disability. The rundown is entirely tailor-made for the individual. Disabilities can include anything from an inability to talk to people to being unable to speak another language. With NED, these disabilities are eradicated.

Identity Rundown

Ever feel like you're "not quite yourself today"? The IDENTITY RUNDOWN helps you find yourself and gives you a whole new viewpoint on life.

Dianetics Student Rescue Intensive

And what is the DIANETICS STUDENT RESCUE INTENSIVE?

Bad experiences in school or failures to learn something can block a person's ability to learn. Just as its name implies, this rundown rescues a student who is not doing well so he can absorb and apply knowledge at a fast rate.

Past Life Remedy Rundown

In order to fully recover your ability and potential, it is necessary to be able to "return" the mind to incidents in the past - even those in previous lifetimes. The PAST LIFE REMEDY RUNDOWN helps unlock past life

memories that remain hidden from view so you can fully experience the results of New Era Dianetics auditing.

After completing your New Era Dianetics auditing, you could be a well and happy human being!

Your own basic beingness can return and enable your his own personality to flourish. When a person becomes Clear, he loses all the fears, anxieties and irrational thoughts that were held down by pain in the reactive mind and, in short, regains himself.

For those who achieve the state of Clear through New Era Dianetics, the next step is the Clear Certainty Rundown.

If you do not achieve the state of Clear on NED, your next step is Power Processing (Grade V) and Power Plus (Grade VA) at Saint Hill.

RELEASE YOUR HIDDEN POWERS. BE A POWER RELEASE!

POWER PROCESSING at Saint Hill achieves for you the fabulous state of POWER release

- POWER Processing is an immense step towards Clear.
- POWER Processing can release your submerged and hidden powers.
- POWER Processing can release you from major and deep-rooted problems.
- POWER Processing can increase awareness, intelligence and ability.
- POWER Processing requires no training or skill on your part. It is given effortlessly by highly trained auditors at Saint Hill.
- POWER Processing is NOT costly in terms of its worth to the individual. Fees are listed in the insert.
- POWER Processing is given in the Hubbard Guidance Centre here at Saint Hill.

KNOWING THE BASICS OF LIFE

by L. Ron Hubbard

A chronological study of materials is necessary for the complete training of a truly top-grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest levels of development...It is for this reason that the Saint Hill Briefing Course checksheet should consist only of the chronological materials, studied in chronological order, excepting

only the Study Tapes (Primary Rundown) which should be done first if not previously done properly. An enormous amount of this material does exist in issuable form... The subject of Scientology is to some degree developed in reverse order. The task was to undercut the current level of man and this was the general target. Therefore one finds the higher levels publicly spoken of most frequently in the earlier books

"These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life itself." — LRH

and tapes (between 51 and 55). In seeking full application to others and attainment for them of their potentials it was necessary to codify the materials and develop processes for them. Any difficulties people were having with going Clear were handled in the mid-60s and OT levels as they exist in Advanced Orgs were completed by 68. There are perhaps 15 levels above OT VII fully developed but existing only in unissued note

The Basics of life give ability for eternity

The release of the Golden Age of Knowledge ignited the chain reaction now sweeping across the Scientology world. This fundamental turning point has everything to do, not only with the lasting freedom of every individual, but planetary clearing itself. Following are some of our SHSBC students successes highlighting the power of The Basics and the Briefing Course.

"Level D encompasses help, responsibility, the use of the E-Meter from 1961 and the first Saint Hill® Special Briefing Course lectures given by LRH, right here at Saint Hill.

I did the Academy a long time ago and I studied about help, responsibility and of course about the E-Meter, but the brilliant thing on the Briefing Course is that it is a

Training is the fastest way to OT!

The correct application of the knowledge of Dianetics and Scientology is vital and fundamental to attaining lasting freedom and ability for living life. Now with The Basics, every Scientologist can attain a conceptual understanding of

the basic materials of Dianetics and Scientology, exactly as LRH intended. Bridge progress and gains have doubled since the release of The Basics and here is an example of what can happen when one has one's Basics in!

“I just decided to play the game and be one of AOSH’s One Hundred New OT Vs for Ron’s 100th birthday.”—J.M.

“Just over a year ago, after finishing Power and Power Plus, I finished the Basics line-up for Solo Course Part I. I started Solo I on a part-time schedule and I haven’t stopped until now. Between tutoring and supervising at Tunbridge Wells

Mission, I took the Alternate Route (the route LRH did to clear himself right here at Saint Hill). I attested to Clear in September and then went onto the OT Levels up to OT III.

Clearing myself and Solo auditing to OT III was a huge accomplishment and I have great respect for anyone who has done this route. I always said that I wanted to do the Solo levels up to OT III at Saint Hill and I thought I would have to stop there for a while but that just wasn’t going to happen. As soon as I finished OT III my friends helped me get onto New OT IV which I attested to on Christmas Day!! What a Christmas present.

I thought I will have to wait to do New OT V, but I just decided to play the game and be one of AOSH’s One Hundred OT Vs for Ron’s 100th birthday.

Exactly five months to the day

after going Clear, I attested to New OT V and was the 74th New OT V this year.

If someone said that this was possible a year ago I would have laughed, but I have seen so many Clears get through the Solo OT Levels and somehow manage to continue on up to New OT V and beyond, that I know it can be done by anyone.

Now I go to bed with a problem and wake up with a solution, or the problem has resolved itself.

I have so much space and my stability in that space is unshakable.

I can put my attention on something and it happens, I take my hat off to all the staff of Saint Hill for their persistence and determination. This last year has been a rocket ride and I’m still flying.

Thanks to LRH for making Total Freedom a reality for us all.”—J.M.

THE BASICS

The LRH’s books and lectures form the foundation upon which The Bridge to Total Freedom is built. They are presented in the sequence Ron wrote or delivered them. In many instances, Ron gave a series of lectures immediately following the release of a new book to provide further explanation and insight into these milestones. Through monumental restoration efforts, those lectures are now available.

Through a sequential study, you can see how the subject progressed and recognize the highest levels of development. The books and lectures are shown where they fit within the developmental line. From there you can determine your next step or any earlier books and lectures you may have missed. You will then be able to fill in missing gaps, not only gaining knowledge of each breakthrough, but greater understanding of what you’ve already studied.

This is the path to knowing how to know, unlocking the gates to your future eternity. Follow it.

SOLO COURSE PART 1 & PART 2

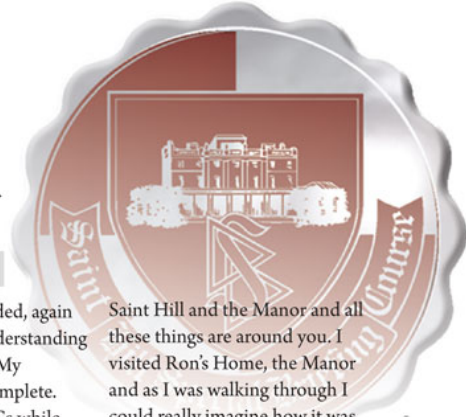

As a Clear, the new Solo Auditor Course Part I is the next step on your route to total freedom. You will master with 100% certainty all the skills necessary to prepare you for your first solo flight. With Golden Age of Tech drilling applied to solo auditing you will gain total certainty on what to handle and exactly how to handle it in any solo session. The skills learned on this level will serve you in every solo session you ever do all the way through New OT VII.

Having completed your basics, Solo Course Part II is where you will apply your newly acquired auditing skills for the first time — your solo auditing journey has begun!

My first experience with chronological study was when I did The Basics line-up, all the pieces of data that were hanging around my mind and were not fully making sense, came together in a conceptual understanding on the fundamentals of the subject.

The Briefing Course is a continuation of this chronological study. I read recently, that the Briefing Course is for people who want to know 'the why' behind the Tech. In other words, why are the processes worded the way

they are, or why are they done in a specific sequence, and so on?

Understanding why LRH put it that way, and what the exact reason for that wording was and why it is important for the PC and for the session, makes it easy to audit. It was a big win for me to experience this.

This level also handled my relationship with the E-Meter. Listening to the tapes on Level D concerning the E-Meter, and hearing LRH talking about this machine, about his 200% belief in the reaction it shows, his attitude that it is always right and it is the tool

to help the Auditor, handled my relationship to the E-Meter. Then I did all the E-Meter drills on the last section of the course and it was a great experience. Now I can sit relaxed behind the E-Meter and I feel the meter is my friend and I can use it to HELP. This was another great win from Level D of the Briefing Course."—Rosemarie MrKos, SHSBC Level D.

"The Basics gave me more understanding. I studied them before the Golden Age of Knowledge and the data was not so clear for me at that time. Then I restudied The Basics,

written as LRH intended, again and it gave me the understanding I was missing before. My knowledge is more complete.

I've had several PCs while doing this course and what I noticed was that the ones moving on The Basics were much easier to audit. They were running better and they were much faster and had more understanding.

So it speeds up the auditing a lot with more wins in less time.

Saint Hill is the best place to do the Saint Hill Special Briefing Course. You are here, listening to LRH talking about

Saint Hill and the Manor and all these things are around you. I visited Ron's Home, the Manor and as I was walking through I could really imagine how it was at the time when he was giving these lectures.

It gave me a lot of MASS. One day, for example, I was on study and this old recording machine was mentioned. I was thinking how to get more reality on this machine. I went down to the Manor and this machine was still there! Being at Saint Hill is being with Source!"—Alessandra Carli SHSBC Completion and New OT V

form, pending more peoples' full attainment of OT VI and VII. In the early 70s the bottom was found with the discoveries of exactly what psychosis was and the development of processes to handle it. This was outside the scope of organizations at the time and is not in general use; but it did finalize the task of undercutting low enough to include all spiritual and mental materials, then, within the subject of Scientology, in a state of applicability.

Many people believe that Scientology materials contain mainly processes. They think of Scientology as processing. This is a very narrow view. It is understandable enough as processing is the way out for them. But this neglects the more considerable materials

which deal with basics and fundamentals; processes are only one use of these.

Other people, having gotten their smallest toe damp as an HAS then wander off to other fields looking for answers, whereas had they taken Dianetics or Scientology grade training, to say nothing of the Saint Hill Briefing Course, they would have found more fundamentals than exist in all other subjects combined, a fact which any advanced student of Scientology can confirm. Still others think that the "newest" is of course the most advanced and are looking for new "processes" to be issued or new materials; whereas the process to resolve their case was most likely issued in earlier years. ...For quite a while I have had the "hat of finder of lost tech." Whole

sections of knowledge drop out of view, whole arrays of processes (and administrative principles) go out of use and preclears there and the organization of the area sags; but recovery is swift the moment the "lost" knowledge is pulled out of their own file cabinets and restored.

...These materials contain the full basics of the only game in the universe where everyone wins, the game of triumphant life .

CLEARING COURSE

Once you finish the drills on the Clearing Course, you won't just be "pretty good" as a Solo Auditor, you'll be flawless with the materials of this level!

Make no mistake, the materials of this level are very powerful, in fact, you'll be flying a straight route into the black inner core of the reactive mind.

The theory section contains several LRH filmed lectures in which Ron personally demonstrates the materials to be audited.

In one of the films, he even gives himself a Solo session to show you exactly how it's done!

Effective tools to handle life: The Basics and Life Improvement Courses for new and veteran Scientologists!

SCIENTOLOGY LIFE IMPROVEMENT™ COURSES

are uniquely effective because they contain

the truly *important* data on subjects of pressing concern in life. In matters of relationships, personal motivation, marriage, children, honesty and others,

a mountain of information is available. But which is the vital data? What knowledge must you have to actually live better?

Such an abundance of data could be viewed as an ocean in which every drop of water is a separate piece of data. At a glance, all drops look the same.

But among this vast sea of data, there are a select few *important* data. These are the *senior data*, the few drops which affect *all other* drops in that ocean. Knowing a million unimportant facts has little value, but knowing these senior data opens the door to change and advance and success.

In L. Ron Hubbard's decades of research, he isolated the senior data of life and living. The knowledge in Scientology Life Improvement Courses is drawn from these discoveries. You will find the *key* drops of water selected from that ocean. And our new Div 6 Delivery Team is standing by to help you get the key data to improve your life.

The new Division 6 delivery team ready to get you through The Basics, Life Improvement Courses and more...

The Basics Books and Lectures: Double

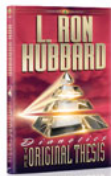

Perhaps the most vital benefit to you in studying The Basics is what it means for your Bridge progress.

By actual study of gains, counting of tone arm action in session and speed through Grades and auditing

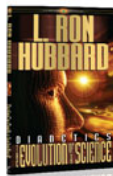

rundowns, any Saint Hill Supervisor will tell you it is most definitely double the case gain in half the

time, when you study the Basics concurrent to your auditing. The Basics give you an understanding of

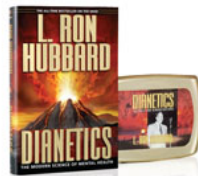

The Bridge® itself so that you know what to expect when you are in session.

Bridge banquets and graduations

Graduation - entertainers and graduates combine in an irresistible recipe.

There is always something happening at Saint Hill.

Graduations are a major weekly feature with entertainment, spectacular wins and lots of Birthday Game news. Sometimes it is a rock night with legends such as Elvis and other times it might be hip-hop but whatever

the entertainment, the real message is the phenomenal wins one gets from progress on **THE BRIDGE**®. With Basics completions, Life Improvement Course Completions plus training and processing wins, graduation provides the perfect end to anyone's week. Totally theta, uptone and full of surprises!

Seminars and banquets are a common feature at Saint Hill, covering Finance, Havingness, Postulates and most recently, The Bridge itself.

Stephen Murray, Senior C/S Saint Hill Foundation enthralled the audience with an in-depth briefing on The Bridge. He used volunteers

from the audience to create a human demonstration of some of the key phenomena handled by going up The Bridge, such as - what an engram is composed of - and so on. There is no doubt that the more knowledge and reality gained on The Bridge and what it handles, the faster a person cognites on the massive importance of moving up that

Bridge to Total Freedom. The successes from the seminar say it all:

"Wow! This was unbelievable. I loved the way he made it so real and now I know WHY I must move up my Bridge."—C.M.

The Golden Age of Knowledge Basics Courses combine the power of the LRH books and lectures with full-blown study on a precision checksheet—all paralleling the LRH breakthroughs and discoveries. Now, following a massive project to verify every single text against LRH's original manuscripts and dictation tapes, those books are now published in a form unlike any you have ever seen—a form that fulfills LRH's exact intentions for each work.

Ease of duplication is hundreds of percent greater. And when combined with the specific lectures for each book—all studied in the chronological order in which LRH released

them—one reaches a level of clarity and understanding far surpassing anything previously attainable.

LRH wanted all Scientologists to be able to know the fundamentals of Scientology to the core of their being. Your eternity depends on it.

That objective has now been achieved with the Golden Age of Knowledge Basics Courses.

Start the Golden Age of Knowledge Basics Courses today! Not only are you giving yourself a rock-solid education in the very foundations of Scientology, you are taking a giant step towards OT and Total Freedom—for your eternity.

THE HOPE OF MAN

by L. Ron Hubbard

In 1952 I recognized that we must be dealing with what we called right in Dianetics as "the awareness of awareness unit"—we must be dealing with an awareness of awareness unit which had tremendous survival power, because by various scientific, unquestionable means, I could track back the life of this awareness of awareness unit, life after life after life.

... Now, I can tell you that wherever we have neglected this factor of raising the self-determinism and ability of this awareness of awareness unit—wherever we have neglected it, wherever we have stressed machine reaction, wherever we have attempted to heal the body at the sacrifice of the man—we've gotten a leg, maybe, that worked better, we've gotten maybe a nose which twitched better, but we haven't gotten a better man.

Now, that's interesting, isn't it? And the culmination of this material and a study by reason of intelligence testing and personality testing over the last many months—a program eight months in length which has just

concluded—has brought me to the conclusion which, as far as I'm concerned, is the conclusion: that we cannot lose if we stress the spiritual side of man and that we always lose when we stress his material side.

Now, it's taken me twenty-five years to come to this conclusion and I give it to you just that way. Why didn't psychotherapy ever raise anyone's intelligence? Why do they cut up men in order to heal them? Well, they do that just for this reason, is they know they can get nowhere by doing it.

They can get nowhere by handling this mechanical object called man. The mechanical object is not handleable by other mechanical objects.

Now, that's interesting, isn't it? We have the same proposition: two cars sitting down here in the garage, and one of them has a flat tire and the other car is sitting alongside it without a flat tire. And we come back three months later, those cars are still sitting there, one of them with a flat tire.

Did the other car ever repair the flat tire?

Well, man is better than that, which is why he's baffling. He can always grow a new tire, one way

or another, through the genetic line or something.

He can always have a new tire. A car can't even do this. But as long as we treat man as a machine, he is capable of doing all the things a machine can do and no more. And a machine cannot change its intelligence, nor can it change its personality. This is a fantastic thing, that today in this twentieth century the thousands of years of belief in the field of religion have materialized into an actuality which can be put into an effect rather easily by the average individual. We have brought at last this material into the category of "practical." The oldest material man had—hope, the spirit—has come to a culmination of being intensely practical.

Now let me say something about this word *religion*. You know that *religion* has a great many meanings—it has a great many different meanings.

It could mean an enormous number of things. And where the public at large turns away from religion, they don't really know what they're turning away from. But where they turn away from it, they are turning away from its

1950 - L. Ron Hubbard with his first edition of the all-time best-selling, self-help book—*Dianetics: The Modern Science of Mental Health*. In the first months after the release of this best-seller (May 1950) thousands of articles appeared on newspapers across the USA, such as The New York Times, Los Angeles Times and more.

impracticality and that's all they're turning away from.

Saint Hill® Special Briefing Course Level A: Learn to handle life and others with certainty and understanding of the mind!

In May 1961, only 11 years after the release of *Dianetics: The Modern Science of Mental Health*, L. Ron Hubbard inaugurated at his home, Saint Hill, what would become a legend—the SAINT HILL Special Briefing Course!

Here is where Ron perfected every breakthrough, plotting the anatomy of the reactive mind and mapping the

exact route to Clear with the development of the *Classification, Gradation and Awareness Chart*.

Right here, today, from the birth place of the Saint Hill Special Briefing Course, our Class VI Supervisor is going to answer some of the most common questions that people have regarding the first steps of the BC such as Level A.

QUESTIONS AND ANSWERS

Q. What does Level A of the BC consist of?

A. Level A comprises the Basic books of Dianetics, studied in chronological order, along with all of the references and corresponding materials from 1950-1951 that are found in the red Technical Bulletins Volume I. In addition, you will be allowed to watch one specific Technical

Film that is released only for students on this level of the SHSBC.

The Golden Age of Tech Drills are another enormous advance in auditor training that are of course in full use on the BC and very key to auditing, not just to a good standard, but to perfection. These drills gradually train students in every single technical action required for the Level until full certainty is accomplished.

At the end of the course you audit these actions under the direction of the Class VI Auditing Supervisor until you have gained total certainty of your knowledge and confidence on how to handle auditing and life.

Q. What specific ability for life do I gain on Level A of the SHSBC?

A. The product of the checksheet for

go to page 2

from page 1 **Handle life and others with certainty and understanding of the mind!**

Level A reads: "A student with such a thorough understanding and grasp of the full scope of the fundamental basics of Dianetics that he will invariably apply this data as an auditor without having to think about it." Obviously, the technology learned in Dianetics applies both in session and in life. One will understand the exact development and make-up of the reactive and analytical mind, which gives him much more understanding and mastery over situations that he confronts in life. Not only this, but he actually has the auditing

skill to handle these situations. Training educates one in the laws needed to handle others and oneself. When you are trained, the competence achieved in controlling yourself and your dynamics is not just limited to an auditing session but is something that you naturally apply outside of session in controlling life. By the end of it you KNOW man, the mind and beings. This allows you to operate confidently in life because you know the fundamental parts of life and how they interrelate.

Q. How would training on the SHSBC increase my Bridge progress?

A. As a trained auditor, you also understand what is happening on the other side of the meter. When you are well-trained, you understand much more about the structure of the bank. This allows you to think with processing commands, and therefore how to get to the bottom of things faster. Due to this, auditing speeds up considerably.

Q. Why should one do the SHSBC if already done with Academy Levels Auditor training?

A. The SHSBC's purpose is to make auditors who have been totally educated in all the philosophic background of Dianetics and Scientology so that they understand it

The ambience here is unique, you definitely feel that you are at "Ron's Home."

conceptually and can apply it to handle ANY case and make Clears. As an Academy auditor, you have the basic technology to audit the procedures of that level, whereas as a Class VI, you fully understand why and how those processes came about in the first place, plus your auditing has been polished to a consistently high standard, which makes all the difference to results in session.

Q. What can I audit after completing the whole BC?

A. As a Class VI, you are able to audit everything from Life Repair – which is the first introductory auditing at the beginning of The Bridge – all the way through every step of the Grade Chart, Grades, New Era Dianetics" auditing all the way up to Clear! Not only this, but you are able to deliver any remedies and rundowns that may be needed at any point of the Grade Chart and additionally you learn many other types of auditing: Book One" auditing, Group Processing, Introductory Auditing and delivery of the Purification Rundown!

Q. Do I need to be on staff to audit as an SHSBC completion Class VI Auditor, or can I do it as my profession without being on staff?

A. No, you do not need to be on staff in order to train and audit as a Class VI Auditor. There are many successful Field Auditors in practices all over the world who have trained as Class VIs, then gone out to deliver with a group, or pioneered and

opened up whole new areas to Scientology.

Q. What do I need to do to start as a Class VI field auditor?

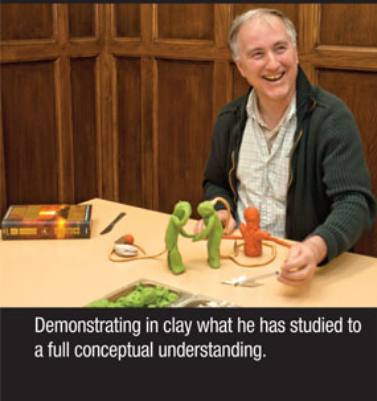

A. The first requirement is to train up to Class VI! After completing the Briefing Course itself and it's accompanying Internship, you are fully equipped to audit right away. Our competent Saint Hill Public Divisions staff can help you to decide on what is the best inclination for you – do you want to work with an established field practice, start a new practice of your own, or perhaps you would prefer to do something entirely different – like open an entire new region to Scientology? It is all up to you. They will help you contact the IHELP representatives for whichever area it is that you plan to work in as a field auditor and ensure that you are properly equipped for whatever adventure you have decided upon!

Q. Why should I do the SHSBC at Saint Hill, Ron's Home?

A. The Saint Hill Special

SHSBC student and New OT V Phil Cavanagh when listening to the Dianetics lectures given by Ron on the 23rd September 1950 at the Oakland's Municipal Auditorium on the subject of Book One; the discovery of the reactive mind and the technology on how to get rid of it.

Demonstrating in clay what he has studied to a full conceptual understanding.

Auditing, auditing, auditing... to the 100% Standard Tech™ results.

Briefing Course was originally delivered at Saint Hill. You can tour the rooms where the original lectures were given, walk the grounds where the students who originally did this course walked. The ambience here is unique, you definitely feel that you are at "Ron's Home." As a result of this, the reality of the data you are getting is that much more vivid – you really feel that you are receiving the Saint Hill Special Briefing Course where it was intended to be delivered.

"Training on Level A gave me an understanding of myself and others. The handling of life became easier and I was more relaxed in session. It helped my dynamics and I disseminated to people around me because I now have more understanding of how things developed. One should do Level A because it gives lots of understanding of oneself and of how auditing works." — P.C.

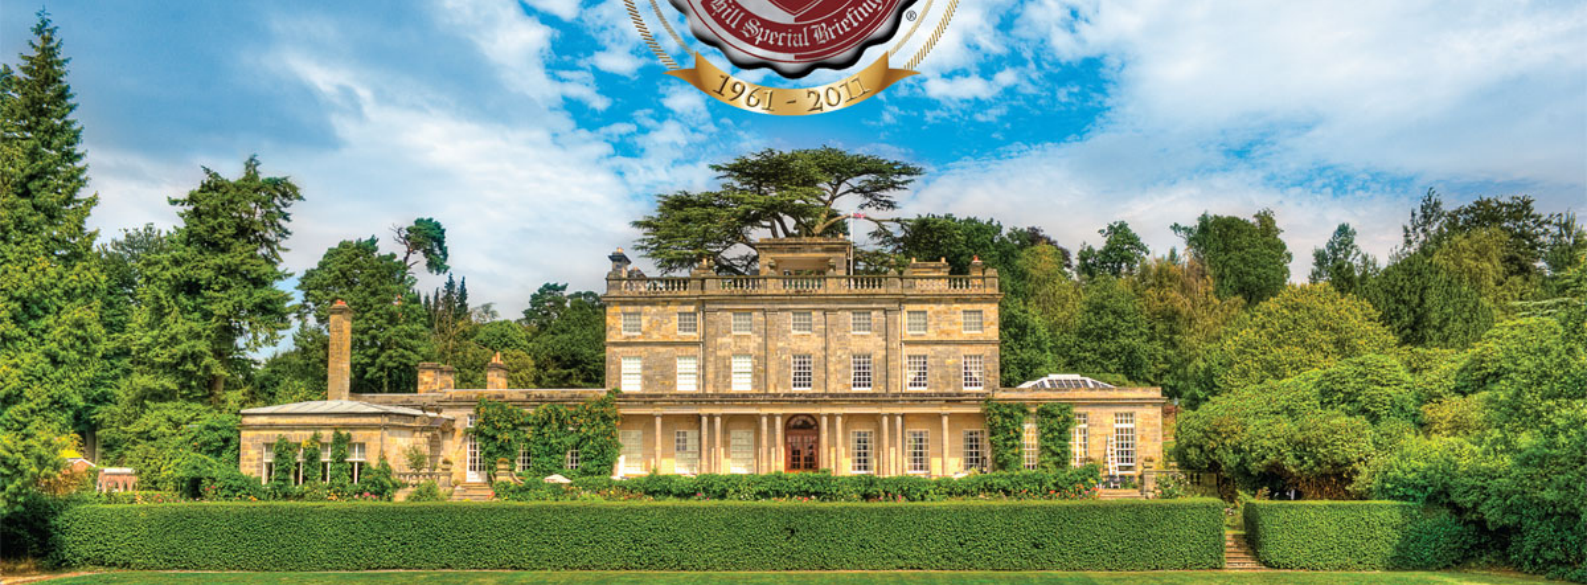

Drilling and coaching what one had just learnt, it's a perfect duo that gives one duplication, certainty and the ability to apply the data without any delay.

Phil with Level A student and New OT VII Yoann Dambrin. Yoann is here at Saint Hill for his Class VIII training.

Havingness Seminar, Venetian Havingness Banquet... amazing reach for The Bridge at Ron's Home!

HAVINGNESS - *By havingness we mean "owning, possessing, being capable of commanding, positioning, taking charge of objects, energies or spaces." The essential definition of having is "to be able to touch, or permeate, or to direct the disposition of."*—LRH
The Havingness Seminar set the atmosphere for a very successful weekend in the name

of havingness and of course Bridge progress. The Seminar was delivered by the Field Control Secretary AOSH UK that specifically covered LRH data on how havingness relates to overcoming barriers in life and the attendees feedback was a real success!
The next day The Great Hall was packed for the Venetian

Havingness Banquet. The Snr C/S AOSH UK gave a fantastic briefing on Havingness and how it relates with going up The Bridge.

Havingness Seminar

Venetian Havingness Banquet: The theme was music from the musicals such as "Phantom Of The Opera", "Beauty and The Beast" and "Wicked".

More people than ever are rocketing up The Bridge at AOSH UK! TRs and Objectives co-audit packed with PC's and students! All delivery lines are at a high speed and ready for you!

At Saint Hill right now there is the highest ever delivery of Bridge services in the history of AOSH UK! **Thousands of sessions every week, meaning one person starting a session**

every 10 minutes!!
To come at Ron's Home is now the best you can do to handle your life and dynamics more at cause either you want training or auditing.

HANDLING LIFE IS KNOWING AND UNDERSTANDING HOW TO HELP

by L. Ron Hubbard

An awful lot of us have had the marvelous experience—fellow sitting there, you know, he's going "Huuuh, huuh," and we say, "How are you getting along? How are you getting along?"

"Never felt better. Nothing wrong with me."

If you were to ask him, by the way, if there is anything wrong with him, he would say, "Well, once in a while I have a pain in my foot." High reality case.

Now the very funny part of it is, is you sit there and try to

on a Tone Scale. Now, a Tone Scale is the relative positions of people—well, actually, the relative freedom of the individual to think and to be and to exist.

And you start way up here, see? Interest. He hasn't got any

an entrance to an individual who obviously needs our help. And if we got a diver's suit and then a shovel and dug a hole in the bottom of the ocean, we might about get to how far we were from being able to reach

find out that was basically what was wrong with people is they weren't interested in anything. Now how can a democracy work, for instance? Democracy is a wonderful political philosophy, been working for quite a long time, more or less. But in a democracy, how can you have a democracy unless people are interested? You can't. They don't vote. They skip it. The reality that the whole thing is rigged probably long since has come home to them. They know they can't do anything about it so they're not interested anymore. Well, it forces a government into the position of becoming a dictatorship or an oligarchy or something of the sort. It's inevitable that this occurs. In a business, the head of the business or the head of a department is always assuming that everybody is interested in his job. What folly! They're not interested in their jobs. Most of the people on post these days are below interest—well below interest. They're kind of—they're not really even interested in their paychecks. I know that because in the United States the government takes—I think it's one and a half times the paycheck out as tax. And hardly anybody notices it. The world at large can have all sorts of things wrong with it, but if nobody is interested, who's ever going to put any of these things right? And so you get the deterioration of social states. You get the deterioration of broad—well,

"A person is still willing to help even though they don't like control and even though they won't communicate and even though they're not interested. Now, that's one of the wildest things you ever saw." — LRH

things that were great reforms at one time or another ceased to exist as reforms. They just kind of all fade out and life is just too horrible. Well, you say, "Well, if there is no interest, then that's it." Now, that's kind of what we've assumed up until very recently. If there is no interest, that's it. If a person isn't interested, you can't do anything else about it. Well, Scientology, being the science of knowing how to know, for a long time has sort of posed the idea that you could do something about it. You know, there must be something there someplace and there must be some answer to dissemination. And so there is.

As head of the East Grinstead Road Safety Committee, Ron also served as the town's Parade Marshal astride his BSA motorcycle.

interest him in something. You know it could do him some good, you know, and you try to interest him in this thing. Well now, there's where the whole thing falls down—interest. Interest.

There are many gradients

acquaintance with the subject of interest. He doesn't know what interest is. Of course, if he were in the Bank of England, he could tell you what interest was; it's something Heathcoat Amory fools with.

But here we have tried to make

that fellow's reality because, I tell you, there is no interest in the world. He basically and actually is interested in nothing—nothing whatsoever. Now that's a pathetic state of being. If you looked around—if you looked around the world today, you'd

The Key word being **HELP!**

Training for life: interview with Catherine Kubillus

One of the reasons, I decided to train is simply to be able to disseminate and know what I'm actually talking about...

I think, EVERY Scientologist should KNOW how to audit; this IS, if not the biggest, part of Scientology.

If I decide to be part of a movement that is freeing people primarily with auditing, I think I ought to know how to do it... I am a tiger NOW, but I wasn't before I started training. I had made the stereotype mistakes, bad relationships, wrong friends, London rat race, two faced characters left, right and centre, you name it I've seen it. As an artist you need elephant skin but I still didn't understand how I would have the talent to run into the same situations again and again.

Catherine when graduating on the Hubbard Professional Metering Course before her Academy Levels

I wanted to change that and understand WHY people react the way they do, I needed to explore what's underneath the tip of the iceberg.

My boyfriend at the time had dumped me, I had just given up my job, I was a total mess and the only thing I knew would keep me sane would be LRH, so I gave up my flat in London, moved back in with my parents in the countryside and I could not sleep the first few nights as it was too quiet, no sirens and city noises!

I didn't expect to get a lot of case gain from training when I started.

However, since getting trained, I've never felt so calm and competent before, to me it's more than 50% of The Bridge, I really understand myself and others and can grant beingness and can handle people and help them, the key word being HELP.

This was the best decision I've ever made and I'm not going to sugar coat it for you, it takes

persistence and passion. As a musician I have the advantage of being used to drilling to perfection and having to have a lot of discipline from an early age but if I can do it, so can you. It is just a decision and all you have to do is follow the steps on the checksheets and DO it.

I'm currently on Academy Level II and will continue on up to Class IV.

My musical career has gone up and away into the RIGHT direction, I have picked the RIGHT folks to work with.

I was featured on a track which was released on the 7th of March, it's on air and the video has had thousands of viewings and all this whilst I am training.

I will be in the studio to record my own single next month, to be released this year.

I have helped my friends to get back on The Bridge, enlightened people to train and the best of all; I go in session and help others which is still, every time, the most satisfying feeling!

from page 1

There are basically three steps below Interest where you can still have a meeting ground with a person. There are three steps below Interest and that's a long way down. Immediately below Interest is Communication. A person may not be interested very much, but he will communicate, somewhat. He'll talk. He'll answer. Now, if he won't do that, there's the next step below and that's Control: a person's willingness to control or to be controlled. And if you want an index of where the world sits today, just ask anybody offhand what control is and they say, "Oh, that's a bad thing." Well, down in—down in Sussex, I'm the road safety organizer. And by the way, we just had a tremendous drop in local statistics. Most remarkable coincidence. And I could tell those people that when they—I could ask them, you know, "Is control bad or good?" And I would get an immediate response, you know, "It's bad. Control is bad. It's bad to be

controlled. It's bad to have to control things," and so forth. You get this response from people. Well, this assumes, then, that the automobile is taking the person down the road. It just assumes that immediately, that the automobile just takes the person and turns all the corners and goes over the embankments all by itself. If control is bad—if control is bad, then confusion must be good. Oh, I don't know, confusion has its points. Last time I took a little kid to a carnival, he seemed to be very overjoyed at some of the confusions we got into. Of course, I couldn't walk very straight afterwards, after some of the rides at the carnival, but he seemed to be doing all right. Confusion was wonderful if you—or is wonderful if you can take it. That kind of a state of mind of what is confusion ... Of course, anybody who worked in the early days of Scientology, they know what an extremity of control is: it's a confusion—people bursting in and bursting

out and doing this and doing that and tearing off over the far horizon, and so forth. And yet it was all very orderly, compared to most governments.

Now control, that's just the idea of control, is foreign to a tremendous number of people. It's only the person who cannot embrace control in any form whatsoever that has accidents. And basically, you could take this person, you could examine him for this one point before you granted him a driver's license and simply end accidents in the United Kingdom, just as easy as that—if you could check him out on this point: Was he terribly averse to all forms of control? Well, you know you've got your hands on the accident-prone.

Saint Hill Internship Training offers unshakeable certainty across your dynamics and rockets you up The Bridge!

Jan - March 2010 Jan - March 2011

Within the last few months the Saint Hill Internship has more than 6Xed the amount of completions, graduating and debugging many interns that also progress up The Bridge at lightning speed helping other beings to become free.

Class VI C/S Tunde Petrone

As a Class VI C/S I feel certain and stable. I know how to help a Thetan no matter how dire the situation may be.

Case Supervision is an Art, a beautiful Art. You take the pieces and put them together using Standard Tech and finally you get an aesthetic, powerful being who is the PC himself. I think this is marvelous!

As a C/S you are responsible for the PC's case, the auditor's

Intern completions more than 6Xed

"I started to co-audit from Objectives up to Clear, than I continued with the OT levels, next to studying the Briefing Course. This is the best way to do it! The best thing that a Thetan could do!" —Tunde Petrone

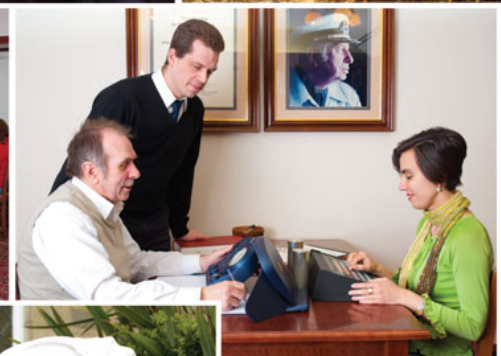

Tunde Petrone is from Miskolc Mission, in Hungary.

The Congresses

One side of the Internship courseroom: Tunde and Eric with the Class IX Dir Correction AOSH UK.

"I can say with CERTAINTY that I am a flubless auditor and actually it is easier to do it the right way than in the wrong way, it's just a matter of doing what Ron says!" —Eric Calder

Eric Calder, from Edinburgh (Scotland) is the newest Saint Hill Duke of the Auditor Elite

ability to audit, the Standard Tech™ and the reputation of Scientology in your area.

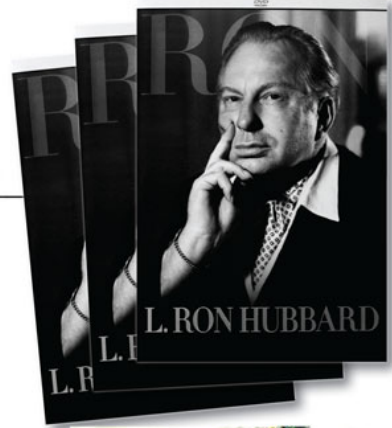

This is a huge responsibility but I'm happy to take it on.

Concerning the C/S Internship, while under the expert guidance of the C/S, the Dir of Correction, the Senior C/S and RTC, I learnt how to supervise flawlessly and I feel ready to go back to my mission and put everything to use. Actually I can't wait to do it.

I did almost everything I could do here at Saint Hill, only the Class VIII remains, but I'm going to return back to do that!

Right: The special DVD presentation, celebrating LRH's life, given to all attendees as a gift after the event.

Highest Ever LRH Birthday Event held at Saint Hill

The 3D, Woodmansys at the opening of LRH's Birthday Event.

This LRH Birthday Event was somewhat special this year, it's not often one witnesses a centennial celebration!

The Woodmansys's band, 3D, opened proceedings in style with an outstanding fusionistic sound and light display.

A beautifully narrated chronology on the spirited life of LRH followed with enthusiastic plaudits.

With the opening of 3 new Ideal Orgs in diverse locations this was something to behold.

All in all this was an event like no other, truly fitting for celebrating the life of man's best friend. The public were then entertained in the marquee with a stellar performance from the Jive Aces. And a cake of gigantic proportions to match this special occasion was served!

SAINT HILL INTERNSHIP

I would like to express my gratitude to all the Saint Hill staff, where I will portray them as my "model" in my mission.—T.P.

Class VI Auditor Eric Calder

Well, this has been quite some cycle! I started this cycle at Flag® 6 years ago! Then after a long absence (5 years) I finished it HERE!!!

I have had many, many, many questions answered and I now feel toally confident as an auditor!

The Saint Hill Internship is amazing, you really feel the power of intention behind you to make you a flubless auditor!

I can hardly believe that I braved this and I am very, very, pleased.

I have been an auditor for many, many, years and I can now say with certainty that I am a flubless auditor. It is actually easier to do it the right way than the wrong way, it's just a matter of doing what Ron says!!

So I'd like to thank the internship, the Dir of Correction, the Cramming Officer and all the Qual staff. Also the HGC and C/S for getting me through. I'd also like to thank RTC for keeping the Tech standard and, of course, LRH.—E.C.

After the event new public was introduced to Dianetics and the stress test.

Want to help others? Gain 100% certainty as a flubless auditor. Do the Saint Hill Internship!

What is an intern?

An intern per the dictionary is: *A person who works as an apprentice or trainee in an occupation or profession to gain practical experience, and sometimes also to satisfy legal or other requirements for being licenced or accepted professionally.*

Once you complete your Academy or SHSBC Training you are enrolled on the Saint Hill Internship. On the Internship you will audit and get polished to perfection and become an Expert Auditor.

While training auditors, LRH developed exact tools that are used to get a person to the level of a flubless auditor for the Class they are training at.

All of these tools are used at Saint Hill and with the help of our fully trained Intern Supervisor and an Intern Word

Clearer dedicated to help you through your Internship this dream of becoming a perfect expert auditor now becomes a reality and FAST!!!

The Internship is overseen by 3 Class IXs: The Senior C/S, the Dir of Correction and the Qual Secretary.

With the relentless application of Standard Tech and correction, the auditor learns that there is only one way to apply the tech and that there is only one standard application of the tech. This is reflected in the Intern Completions which 6Xed in the last 6 months alone.

Another magnificent OT Reunion

Dianetics Seminar with Yves Fiset

A Dianetics Seminar was held by Yves Fiset in the Saint Hill Great Hall. The event was really successful with highest ever attendance.

Those who attended, loved it and it really inspired them to disseminate more. After the seminar the public had the opportunity to book an appointment with Yves for personal interviews.

There were many fantastic results from this. For example

one lady who saw Yves after the seminar about getting assistance on bookselling, as she had not sold anything in the last three months.

As a result of the interview and received advice, she sold three DMSMH books the same day.

Top: Katy Norman and Yves Fiset during the seminar.

We are routinely debugging interns who have been stuck on their Internship for years.

One example was the field auditor from Austria who had been on the Class IV Internship for 4 years. She came to Saint Hill and was debugged, receiving her Gold Seal for her Class IV Certificate in only about 2 weeks.

In the last six months we completed four full Saint

Hill Special Briefing Course Internships making four new permanent Dukes of the Auditor Elite from as far away as Hungary. We also completed 2 Class VI C/Ses on their Internships. This is in addition to the Class IV, Class V, Senior Security Checker, False Purpose Rundown® Auditor, Word Clearer, Supervisor and C/S Internship Completions. We are ready to service you

and make you into a fully competent and certain auditor who knows he can apply his tech and has no questions concerning certainty.

In other words we are ready to make YOU a PERFECT auditor! You will be able to help with Standard Tech™ as being an auditor is about applying the tech in life!

The evening began with a grand banquet prepared by Saint Hill's own 5-star chef.

This year's OT Reunion was the largest to date. Saint Hill's OTs and their families from across Europe, UK and even Canada gathered together for

an evening of Source with LRH stories from those that worked with him.

The audience was enthralled by the performances and briefings on the importance of getting up The Bridge, by those who have achieved the state of OT.

Volunteer Ministers supporting local medical and rescue services to establish safe havens!

Australia

The Scientology Volunteer Ministers' flood relief efforts in Australia were the subject of an article in *The Chronicle*, republished here:

The Scientology Disaster Response Unit has been activated to the Lockyer Valley.

The national organisation has a database of volunteers ready, willing and able to be deployed to places in Australia, New Zealand and in the Pacific during times of crisis.

Currently there are 20 people from across the nation stationed in the Lockyer Valley, helping with clean-up efforts.

"Our people are available at a drop of a hat to go into an area," program co-ordinator Kevin Chapman said.

Mr. Chapman said his unit provided counselling services as well as clean-up muscle.

Top: (Australia) VMs lending a hand to clean-up flood devastated Queensland.

Right: Scientology Volunteer Ministers have been activated all over Japan.

"We are not there to promote or sell any ideals. We are sent in to help whether that is helping little old ladies to the supermarket, cleaning or food and water distribution.

"Our volunteers are saying that there is just a lot of mud and mess.

"The work is going to take few months." Peter Dunn of Adelaide was stationed in Helidon for a

few days last week. He arrived in the Lockyer Valley after spending five days in Brisbane.

"They seemed to need a bit of a hand."

Japan

Within 24 hours after the disaster, the first group of Japanese Volunteer Ministers travelled to disaster areas close to Sendai city (Miyagi region)

and Shiroishi city (Watari area, still covered with water or debris) to make an initial assessment of what Volunteer Minister activities are needed in the areas effected by last Friday's earthquakes and tsunami.

Four VM assessment teams visited several of the over 2,400 evacuation camps and shelters and talked to victims and officials to find out what is most needed. Meanwhile Volunteer Ministers from around Japan gathered in Tokyo to arrange food and water supplies and to work out logistics. In the past few days, Volunteer Ministers arrived from New Zealand and Australia, but the main activity is in the hands of the Japanese

VMs. As of today, more than 100 additional Volunteer Ministers from outside the country are ready to arrive.

The first 15 members of Los Topos, Volunteer Minister-trained search and rescue specialists (including a radiation specialist) were welcomed by the Volunteer Ministers in Tokyo. Another group of Topos members are expected shortly. Our top priority right now is to get medical personnel and rescue specialists on the ground while other volunteers are building safe bases in the South of Japan and in nearby countries. Our efforts are sponsored by the International Association of Scientologists.

THE MISSION OF SCIENTOLOGY

by L. Ron Hubbard

Scientology and Scientologists are not revolutionaries. They are evolutionaries. They do not stand for overthrow. They stand for the improvement of what we have.

Scientology is not political. When the fires of ideology threaten to consume us all, it is time to forget politics and seek reason.

The mission of Scientology is not conquest – it is civilization. It is a war upon stupidity, the stupidity which leads us toward the last war of all.

To a Scientologist, the real barbarism of Earth is *stupidity*. Only in the black muck of ignorance can the irrational conflicts of ideologies germinate.

Government, to a Scientologist, is a thing of reason and all problems of government can be resolved by reason.

Perhaps in yesterday one

could afford the exploitation of ignorance for the sake of fancied gain. Perhaps in yesterday the study of the mind and reason was something for a summer afternoon. Perhaps in that same yesterday one amongst us could afford his irresponsibility and hate.

But that was yesterday. Today, exploited ignorance, a dilettante attitude toward existing knowledge, a refusal to assume one's role as a responsible member of the human race may be punished in the searing thunderclap of H-bombs released by man whose intelligence and statecraft were incapable of a better solution. Ignorant people elect ignorant rulers. And only ignorant rulers lead to war – and this time will lead to a war which will bring silence forever after to Earth.

As your associates, their homes, their children, their possessions and all their future lie ending in a radioactive street, there won't be time for us to wish we'd worked

harder, been less easily dissuaded from pressing our arguments. The copies of this book you did *not* distribute will lie there too.

Some say they have no fear of death, until the midnight of their dying is at hand. They say different, then.

Those whose strike at this work out of some black well of ideological misorientation, some antisocial cravenness, strike at the heart of Man – for Man has been a long time on the track to reason and Scientology can take him there.

There is not much Earth time. We must work.

The criminal is ignorant and stupid. Ignorance and stupidity may therefore be called criminal.

Cause man to lay aside his hates and listen. Freedom from ignorance is at hand. Perhaps *that* was the Kingdom of Heaven.

There is not much Earth time in which to distribute this knowledge. This is *the* solution to

our barbarism out of which we would lose all. Scientology works. We must work, all of us – not to harangue Man toward impossible freedoms, but to make Man civilized enough to be worthy of his freedom.

It is time Man grew up. That is what we have in mind. For there can be but weeping in the night where ignorance, factionalism, hatred and exploitation are served by the most ferocious and final weapon of all – the H-bomb.

Change no man's religion, change no man's politics, interrupt the sovereignty of no nation. Instead teach Man to use what he has and what he knows to the factual creation, within *any* political reference, of a civilization on Earth for the first time. And so we work.

Saint Hill, where LRH trained the Top Auditors of the world!

POWER™

"During Power processing I gradually got back lots of perceptions. My universe became much calmer. I felt very confident about my decisions.

Before Power I never knew if I was taking the right decision or not, and I had lots of doubts. With Power this feeling totally disappeared and my doubts are gone! Now I can truly trust myself and feel really confident about what I think. I see it's really ME changing and I am the cause of the changes in my environment." — Monika Peterszegi

POWER

"I thought when I completed NED, I had reached a fantastic state of calmness but the Power processing put the finishing touches to it with amazing enhancement in perception and omni presence. What a journey, I am a very changed being, stable, happy and no longer under the influence of 'other' things.

A fabulous new state and feeling of total stability.
— Munaver Jafferji

POWER

"Another surprise from LRH! It was very simple processing yet I gained so much of MY POWER BACK. Then Power Plus was like the icing on the cake. I regained a big part of MYSELF. A big thank you to my Auditor who really pulled off a miracle and showed me what it is like to disagree with the physical universe. Thank you guys and thank you RON!" — Ildiko Bruce

RELEASE YOUR HIDDEN POWER

Power Processing is an immense step towards Clear. These processes release you from deeply occluded areas of hidden aberration and produce a being who can handle life with amazingly increased effectiveness.

Reading the Basics to practical and us

Apply the Basics to improve your ability in life

The Life Improvement® Courses are for everyone! They can be done at any point of The Bridge and they bring miracles to everyday life. They are all based on the Basics Books and Lectures of Scientology and one can apply them to improve skills in specific areas of life.

HOW TO GET MOTIVATED COURSE

"This course has been for me the course from which I have benefited the most in such a short period of study! My whole life has been turned upside down but for the better and the course has put me back behind the steering wheel where I belong—meaning from effect to cause.

I am beaming and outflow myself and theta towards all my dynamics and life has become a joy again.

Honestly I can say that I have enjoyed this course, and have experienced it and still do, as a

whole new OT level all by itself. It is a major life changing course, no doubt! Life is a game, it's fun and I am leaving Saint Hill as a different person.

Thank you so much LRH for this precious tech which has benefited me so incredibly. Thank you to the supervisors for delivering it and for having me here at Ron's Home, Saint Hill. Soon I will be back to do more of these Life Improvement Courses and I know I will make that go right, that's for sure." — G.L.

SCIENTOLOGY TOOLS FOR OVERCOMING FINANCIAL STRESS

"The stats in my business have gone into screaming affluence after completing the Scientology Tools for Overcoming Financial Stress. This was unexpected! Now I'm attacking my cycles of action, confronting the things that need to be done, I'm handling my work, completing any half-dones and not done, along with handling my backlogs. I'm gaining control of areas by getting On Source and rising above my troubles by being industrious. This is a recipe for success. Thank You."—K.T.

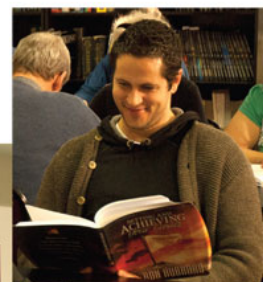

"This course has been fantastic. I have now got some amazing data and tools to handle finances.

After my second period on study I made my highest ever weekly and monthly gross income!!! And that was before applying all the data from the checksheet!

My financial future is definitely stress free. I can't wait to do the next course. Many thanks to LRH for the tech and to my wonderful supervisors and word clearer." — S.C.

"A fantastic course. The assembly of data is superb and brings up the cognitions. I had fundamental cognitions. I found I had false data from my earlier days when I started to work, and found that I still had postulates in place which were built on false data!

I see very clearly what went wrong in my finances and now I'm

opens the door able knowledge

on my way up.

I realised what I had done right when I had money in abundance and where and when it went wrong. Again, great compilation of data to bring about a real understanding on how to overcome financial stress."—D.E.

Basic Books

"It is incredible and unbelievable because you are telling Man, all in one breath, everything that Man or life has hoped for on the track, whether through religion or anything, has now been realized today." - LRH

"I now know that 'I' am a thetan and that my abilities can be rehabilitated. This book gave me more responsibility. I have to assume responsibility and do something about my life. It is fantastic to understand how these processes work and what the goal of them is. Thank you Ron for all your help." — Guy Rosquin

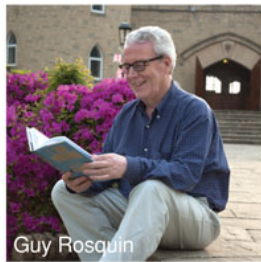

Yves Fiset

Javier Ramires

"I'm a Dianetics Auditor and currently at the end of Solo I and about to finish!!! During this course I have also been studying The Basics. While doing them I realized

Guy Rosquin

how important The Basics are, you can't fully understand Solo I and how it works without these materials. It has changed my viewpoint on Scientology. I use *Dianetics*,

Self Analysis, Science of Survival and Handbook for Prelears in my everyday life as I use them in auditing others. My ability has increased a lot and I now have lots of tools that enable me to help others. Each book gives something which I can really apply while auditing someone Book One. My help level has gone up, and up, and up, thanks to The Basics."—Yves Fiset

"Hola! My name is Javier Ramirez and I'm from South America. I just finished Academy Level I!!

I had amazing wins from doing this training level and after my Basics. On this trip to Saint Hill I have done Level 0 and Level I of the Academy. In the final sprint to

Balázs Hegyi and family at the Saint Hill Lake having a picnic in between study time

complete my Level 0, I had a situation: I couldn't complete because my PC had a huge win and couldn't get back to session! In the beginning I was worried because I was planning to complete my course that week but I had to send the PC home to enjoy his wins.

Then the Captain said to me: 'Javier, the Auditing is for the PC. The wins are for the PC. Well done, that is the purpose of the auditing.'

I went to the Academy and Melody, Adam, Gladys and Laetitia, all of them said the same to me: Well Done!

At Saint Hill the staff really care about their public."—Javier Ramirez

Balázs Hegyi moved with his family to England to be close to Saint Hill and be on study here every day: "We chose Saint Hill as it is Ron's Home and it is an

amazing place where the kids learn good English.

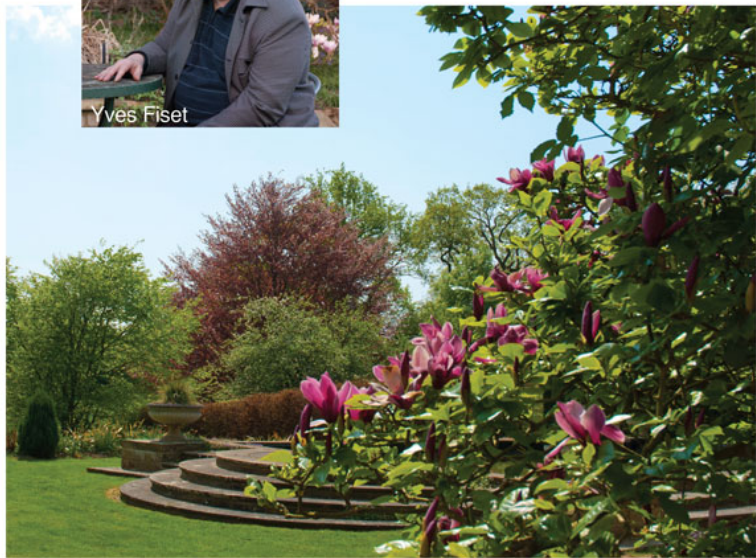

We are originally from Mánfa, next to Pécs in Hungary. We have 4 children.

Milla is on the Children's Communication Course.

Mate is doing Life Improvement Courses.

Eva and I are now on The Basics and planning to continue with the Congresses.

She is on *Advanced Procedures and Axioms Course* and I'm doing the *Science of Survival Course*. It's good to see how the children apply the Tech they learn. We are using assists at home and Milla, the youngest girl is giving assists to her sister and she was even doing locationals on our cat which had very good results! It's great to see the whole family doing so well and learning and applying the technology from The Basics."

THE BASIC BOOKS LEAD TO THE SAINT HILL SPECIAL BRIEFING COURSE

So many people first became interested in Scientology through reading a book. And now, with the release of The Basics Books and Lectures, we reach a level of understanding achieved never before, not to mention a speed of progress so fast you won't believe it, until you experience it for yourself. Through The Basics, thousands of people have found that point of agreement which has led them further on into the study of Scientology. Many enrol on the Saint Hill Special Briefing Course.

This is where Scientologists have always come for the

full developmental track of Dianetics and Scientology, following with Ron as he made his breakthrough discoveries on the mind and life. And the result: An expert Auditor who can handle any case...and a being with increased abilities to handle any situation that life can present. You can "know about" something but that doesn't mean one can handle that something. For instance, one can "know about" cars without knowing how to drive expertly. And so it is with life - you can "know about" life but that does not mean that you can uniformly and successfully

handle life. But when you fully understand the mind and how it operates, when you know people so thoroughly that dealing with them is second nature then you KNOW life and that is what a study of the Saint Hill Special Briefing Course provides. Studied in chronological sequence, these fundamentals build one to the next, until you are operating at the level of knowingness. Combine it all with the full panorama of technical developments that proceed from the Technical Volumes and 447 Saint Hill Special Briefing Course lectures, plus Golden Age of Tech Drills delivering unprecedented competence and certainty—you will know Dianetics and Scientology to your very core, and for eternity.

Special checksheet addenda for studying The Basics have been provided for every level of the Saint Hill Special Briefing Course.

What a Class VIII has to say about The Basics

A Class VIII is an expert in Standard Tech™. The entire fundamentals of the tech are contained in The Basics so it really goes without saying that to become an expert in Standard Tech you have to have a thorough understanding of the fundamentals of the subject and that is The Basics. Studying them in sequence has given me a whole

renewed certainty as a Class VIII! With Standard Tech all cases can be resolved and now with so many people studying and applying The Basics it is becoming easier and easier to get that tech applied because we are now dealing with educated PC's. It makes for a very exciting future!—L.B.

TRs & Objectives Co-audit

In the 17th American ACC, Ron explains that life is composed of control, communication and havingness and that is what the TRs and Objectives are all about. They therefore provide one with a tremendous grounding for life.

The factor of co-auditing also adds a whole dimension in itself, for on this course one is not only handling one's own case in relation to control, communication and havingness but one is

taking responsibility for another and so one learns to audit while receiving auditing. It is a double

edged sword and it cuts a huge swathe through the case and sets one up for rapid Bridge progress.

The theory of auditing: The preclear has lost confidence in his ability to face existence and its parts and has difficulty in

participation. He is trapped in many of those things he has failed to confront or has been prevented from confronting or has prevented others from

confronting or didn't exist. By gradient scales his confidence in confronting thought, time, life, energy, matter and space are improved. The rule is:

"Find something that the preclear can confront and improve that ability."—LRH (from 5th London Advanced Clinical Course)

TRAIN FOR LIFE!

"Today's auditor can be secure as to his own case. For we have found that to be well it is a demonstrable fact that one must be able to make others well. It is not enough to only be happy and well oneself. The confusion and upsets of life are such as to retard anyone's case. The auditor succeeding uniformly with cases, becomes better in ability and health than the best preclear on whom he practices. And this is a processing fact."

L. Ron Hubbard
Founder

Know that a technique capable of clearing somebody must make an atomic bomb look like a damp firecracker. You address this technique, which can clear somebody, to a case and don't give the case all the backup needed to maintain this level of boom and the

case does kind of go boom! You see that? So, we can't say today, "All you've got to do is just read this short pamphlet, read it carelessly, take some section of it, grab ahold of somebody off the street, get him to sit still for a few minutes and have a Clear." We can't say that.

Because it wouldn't be true. People, when they start in the direction of Clear, find more reasons why they can't go there. And Clear means so many different things to so many different people that it takes some very skilled, delicate auditing. And as you take one of these

techniques capable of clearing somebody and address it to a case and handle it poorly, all you get is the result of a great number of ARC breaks with the case. That's interesting, isn't it? ... Therefore skill is required to clear people because you're

really heading this boy out from the security of being aberrated into the unknown of being happy. And that's a long jump! — LRH (from the London Clearing Congress Lecture 18 October 1958 *The Skills of Clearing*)

“If this world has any faintest chance of surviving it will be not because I write, but because auditors can and will think and do. I think our auditors came from beings lately arrived on Earth who, seeing where it was going, decided to band together to send it elsewhere.

I consider all auditors my friends.”

GET ONTO SAINT HILL AUDITOR TRAINING AT AOSH UK.

From Scientology® Academy Level 0 up to Hubbard® Class V Graduate Auditor, training provides the technology to assist in clearing the planet, and can be embarked upon as a co-auditing action. It's about operating effectively across your dynamics and eradicating your fellow man's hinderances such as:

Inabilities to communicate freely in life by removing barriers that hinder relationships, have more control over your environment, including day to day problems thrust upon you from everyday living, restore ones honesty and trust, rehabilitate ones abilities with the enhancement of Affinity, Reality and Communication, along with being at cause over previously blocked barriers to better survival and of course the ability to Clear people!

Training also stabilises your processing gains and provides certainty on life and living. Auditors are the most valuable beings on the planet, so get started now on the Academy Levels or take on a bigger game and study the entirety of Dianetics® and Scientology technology and listen to Ron's lectures from the original point where they were given.

The SAINT HILL® Special Briefing Course is definitely *the* course that skyrockets your understanding of Scientology and life and gives you the ability to apply that understanding to yourself and others so as to change conditions remarkably. You are definitely the Doer at Ron's Saint Hill Special Briefing Course and never again could it be said that “Life is passing you by”. You are in there swinging, you are in control and at Cause.

YOU ARE THERE TO STUDY THE TECHNOLOGY OF SCIENTOLOGY SO AS TO APPLY IT. YOU CAN AUDIT YOUR PC'S TO MORE FREEDOM THAN HAS EVER BEEN KNOWN TO THEM BEFORE.

YOU WIN ON THE SAINT HILL SPECIAL BRIEFING COURSE.

The course is expertly supervised by people who know their Tech. All LRH Study Technology is in full use and there is a Staff of highly trained people to get you through. You can also feel Ron's presence here at Saint Hill, which is celebrating the 50th Anniversary of the Briefing Course!

"I discovered Scientology in 1996 via the help of a Field Auditor, so with this initial influence from an auditor I really wanted to help and therefore started training. Originally this was to get myself doing better in life, which then led to wanting others to have the similar wins! I have arrived at Saint Hill from Holland where I am combining my study of the Basics—I'm currently on "Dianetics SS!", "The Unification Congress"—along with completing my Class IV Internship training. I have really enjoyed learning about Marriage Counselling and how to audit children. One win in applying this Tech was on a brand new couple who wanted to handle some upsets on

their second dynamic, which were totally handled. I once also helped a 9 year old girl with the tech about overts & withholds as she was having trouble at school. After pulling some overts from her, she realised the problem hadn't started prior to those overts being committed and therefore she could handle the situation. This is something you gain from training, no longer does one have to be the ping pong ball in the game of life; one can operate as the bat."

Phil Cavanagh

"Well, I have completed Level O on the Saint Hill Special Briefing Course, which has been an amazing journey. I particularly enjoyed seeing myself back on the videos so I could witness my own ability to see meter reads. Thus you can see how to improve. Having expert supervision helps reassure you own capabilities to audit, so one is not alone. I have a lot more certainty in my auditing and I can't wait to get back into the field to make a positive impact. Training has certainly increased my understanding on how to be exterior to problems under normal living conditions and make them better!"

"I had some great wins, not just doing the level, but being at Ron's Home—it's so beautiful! My viewpoint on life changed having duplicated what LRH says about getting trained for life by doing Academy levels!"

"I am currently training on Level V whilst studying the Basics. I decided to train as I really love helping other people, so learning and using the Tech to help them out is very rewarding. I have also been applying the Tech to my 12 year old son. Firstly just using assists and answering his questions about Scientology, he's now winning and on his Objectives, which he should complete soon. I used to be a nurse and originally came from Iran. I now live in England with my family and have been in Scientology since 1997."

Catherine Kubillus

"Right now I am on the Academy Levels at Saint Hill learning to co-audit with my sister, which is such great fun as we get to work with each other to advance up The Bridge®. Applying the tech learnt from training is very valuable as one can deal with ARC breaks, the phenomena of withholds, by applying TRs to handle such occurrences. With the Academy Levels the understanding is very precise and makes it easy for me to decipher certain attitudes and how to handle such upsets in others as I understand it from someone else's viewpoint. The training has also enabled me to become a faster PC due to having a better grasp of how the other side of the E-meter functions, in fact my speed has practically doubled.

I used to work in London where the normal routine in company life was hearing others complain about working conditions, hating their job, bosses, all and sundry. Because such people were not Scientologists and did not have the correct technology, I found my training could quantify such conditions as the same problematic patter of existence, from which I knew how to handle such problems on the correct gradient. All thanks to training!"

The SHSBC Anniversary at Ron's

"An Auditor can handle another's life. If you can handle this flow you can handle flow one and it brings you closer to be an OT, cause over life!

With the Basics I had regained a few abilities that I did not know existed. For example my study rate became 2 times faster after reading 40 pages of "Dianetics: The Modern Science of Mental Health" in 2.5 hours. Then the real game started. I used what I have learnt and it worked. I am using the Basics in life. So doing the SHSBC for me is the continuation of LRH's research. I gained a good confront level: I went into a Psych Hospital, handled a patient and got him out of that suppression. And when I say that my confront for groups went up- it means something!"

Eric and Amir are twinning during their training at Saint Hill.

"To train as an auditor gives you the Tech and the ability to apply it and help your fellow man! You also have those wins that you give to your PCs and I have had many wins in applying the Tech."—E.C.

"I have met many wins in applying the Tech. One time I got a call from the parents of a guy saying 'if you want to come see him before he dies, then do so, he has only 48 hours to live'. So I went to the hospital and I ran an unconscious person assist. Then went back the next day and did another. Then it became from 48 hours to 1 week. Then he had 2 weeks and we just kept going with the assist and he recovered."

Cream Tea and LRH stories

Great entertainment and a final group photoshoot

The Saint Hill Special Briefing Course 50th Anniversary Event was held recently at Saint Hill and was a huge success with many SHSBC graduates and students attending from around the world. The Great Hall was nostalgically transformed to display photographs, E-meters and various memorabilia from the original Briefing Course days. A great lineup of events took place, starting with a mid-morning brunch, where all of the attendees received a special gift of an LRH framed photograph displayed in a presentation folder. They were treated to hearing LRH stories from selected speakers, including those who were

in attendance with LRH at Saint Hill. All Briefing Course students and graduates were presented with a stunning commemorative 50th Anniversary pin that was warmly received and immediately worn with pride. Further presentations, stories and auditing demonstrations continued throughout the day, including a big screen presentation of Ron's *The Classification and Graduation DVD*. Following traditional English custom, Cream Teas were served in the mezzanine to a packed audience who were entertained by a recollected story from a speaker who had experienced working with LRH.

The evening's entertainment offered a banquet prepared by Saint Hill's own 5-Star Chef, an engrossing re-enacted 1961 Radio Show, including stories and songs performed from the era. Further stories and speakers drew the evenings proceedings to a close, with particular plaudits noted for Saint Hill's first English SHSBC student, Liz Doria who partnered up with Rosalie Delacey to enthrall the audience with stories from the days of old, as well as an auditing demonstration from the same era. The evening concluded with a commemorative photo shoot, dessert and coffee.

The City of Pasadena, California, Awards the New Church Building

A Historic Preservation Award to the Church of Scientology of Pasadena.

The 58,000-square-foot building was originally constructed in 1906 in the heart of Old Pasadena and opened its doors to Church public in July 2010. Included in its refurbishment was the building's Beaux Arts exterior (an architectural style taught at the Ecole des Beaux-Arts in Paris, France) and skylighted atrium. It extended to the Church's Arts & Crafts-style furnishings and stained-glass windows. As part of the refurbishment consideration was given to environmental issues, where the Church excelled in implementing energy-efficient equipment, lighting systems, reduced water consumption and environmentally-friendly building materials and was thus granted a "Leadership in Energy & Environmental Design Certificate".

The Certificate of Recognition and award was accepted on behalf of more than 1,500 Scientology parishioners who contributed

to the purchase and renovation of the building by the President of the Church of Scientology, Eden Stein.

The Public Information Center is open daily and shows the beliefs and practices of the Scientology religion on its state-of-the-art multimedia displays. The Chapel is adorned with the codes and creeds presented in stained glass panels. It holds Sundays services, weddings, naming ceremonies and other congregational gatherings. An office of L. Ron Hubbard is maintained in every Church of Scientology on Earth. Its positioning is forwarding a mark of respect and a statement that each Church remains true to Founder's spiritual teachings.

THE WAY TO HAPPINESS SCHOOL LIBRARY CAMPAIGN

A new Library Donation Campaign has just been launched internationally in a wonderfully presented booklet called *The Way To Happiness* School Library Campaign. The aim is to have *The Way To Happiness* on film at every school library in the world. That amounts to 625,000 school libraries, which is six times the numbers of public libraries on the planet. Each school will receive at least 2 DVDs and can request more in additional languages, so the initial target is a staggering 1 Million copies in the hands of tomorrow's civilization!

So why address the planets' children? Well within the booklet are some hard hitting figures that tell many tales of unnecessary suffering our children have to experience, mostly at the hands of psychs and their evil dramatizations packaged under the guise of "child-calming solutions", which

come in tablet format, is pushed hard on society, thus making the drugging of children a lucrative source for schools. Yes schools... there is a new trend of the big pharma of paying a school at least two hundred US dollars a month per child drugged! So put that into context, every 10th child between 1-15 years old is getting treated for "mental disorder".

We don't want and will not tolerate unworkable solutions creating a generation of illegal preclears, so this campaign is paramount!

The Way To Happiness is a proven solution. The results from 70 million copies of TWTH already in distribution worldwide shows this work is reducing violence, political turmoil, reducing drug consumption and even reversing the skyrocketing crime statistics of entire countries, and without needing a monetary budget running into billions.
