## **Edupoint and My Payment Network Announce Integration Partnership Between Leading eCommerce and SIS Solutions**

**IRVINE, CA – (July 31, 2012)** – Edupoint™ Educational Systems, a leading student information system (SIS) solutions provider to the national K-12 market, and My Payment Network, the oldest and leading eCommerce provider to K-12, today jointly announced their new partnership which integrates My Payment Network’s SchoolPay service with Edupoint’s Synergy™ SIS solution, providing an online payment solution to benefit parents and district administrators alike.

“We continually strive to provide solutions that streamline the administrative processes for today’s educators, and this partnership with My Payment Network helps achieve that goal,” says Robert Weathers, Founder and CEO of Edupoint. “Combining the strength of our Synergy SIS solution with the leading functionality of SchoolPay’s eCommerce service gives parents and district personnel an integrated solution for both payment and student data management. We look forward to a longstanding relationship between the two organizations.”

The partnership between Edupoint and My Payment Network provides an end-to-end eCommerce solution to users of the Synergy Education Platform. Parents will be able to submit payment for such items as hot lunches, class fees, and school events from the same ParentVUE™ web portal they already use to access their student’s class grades, attendance, and homework assignments. District administrators can receive online payments for virtually anything and settle funds to any number of district bank accounts on a payment-by-payment basis.

“My Payment Network is excited to be working with Edupoint,” says David Dunaway, President and CEO of My Payment Network. “By integrating SchoolPay with Synergy, Edupoint’s client base benefits from simplified payment processing for parents, and gains the ability to leverage SchoolPay’s enterprise level platform to manage eCommerce across all district departments – such as food service, after care, and more – via one integrated SIS/eCommerce platform.”

### **About Edupoint Educational Systems**

For thirty years, the leadership of Edupoint Educational Systems, LLC, has set the standard for K-12 student information management systems. Their innovative solutions have been used by thousands of schools to manage millions of students. Today, the company empowers a new era of self-sufficient school districts with solutions built on Synergy Technology™, its extensible, scalable, rapid application development platform. Those solutions include the Synergy™ Student Information System, an enterprise-level student information system, and Synergy™ Special Education, a comprehensive special education management system. ## **About SchoolPay**

My Payment Network, Inc., is the oldest and leading eCommerce provider to K12. Its flagship service, SchoolPay ([www.schoolpay.com](http://www.schoolpay.com)) is the first enterprise-level eCommerce solution built specifically for K12. SchoolPay centralizes every eCommerce payment in the district and synchronizes that payment data with disparate applications, such as student information systems, general ledger, and food service software, that rely on payment data. My Payment Network is based in Madison, WI. More information about My Payment Network can be found at [www.mypaynet.com](http://www.mypaynet.com).
