SchoolPay was built from the ground up to sync data with any third-party software so schools can offer parents and staff a unified interface for all payments. SchoolPay's full API is used by schools, and third-party K12 software providers coast-to-coast.

School Pay maintains custom integrations with the following services:

- Skyward (Accounting) (SIS) (Food Service)
- PowerSchool (SIS) (Fees) (Food Service)
- Primero Edge (Food Service)
- Meal Magic (Food Service)
- MCS (Food Service)
- ISD (Food Service)
- eTrition (Food Service)
- iTickets (Ticket Sales)
- Websmartt (Food Service)
- Destiny (Library Mgmt)
- Edupoint/Synergy (SIS)
- alo Ca$h (Accounting)
- EPES (Accounting)
- ASB Works (Accounting)
- Blackboard Parent Link (Mobile)
- Twitter, Instagram, Facebook (Social Media)
- Gmail, Constant Contact (Email)
- School Office Pro (Student Registration)
- SchoolAction.net (Silent auction)
- Charms Office Assistant (Organization Mgmt)

Software providers not on this list? No worries. SchoolPay can often automate data in the absence of a formal integration.

Find out how you can reduce errors, vendors, and payment interfaces....
