FOR IMMEDIATE RELEASE

**SCHOOL OFFICE PRO JOINS SCHOOLPAY'S K12 PAYMENT ECO SYSTEM
STUDENT REGISTRATION AND ENROLLMENT PAYMENTS IS POWERED WITH THE SAME
PAYMENT PLATFORM THAT CAN MANAGE EVERY IN-PERSON, ONLINE AND MOBILE PAYMENT
ACROSS THEIR DISTRICT**

MADISON, WI AND DALLAS, TX– (Feb. 10, 2014) – School Office PRO, the leading, registration and enrollment software for school districts, and SchoolPay, the only enterprise-level payment software exclusively built for K12, today jointly announced their new partnership. The partnership integrates SchoolPay's payment software that centrally manages every district online, in-person and mobile payment, with School Office PRO software, which is designed to eliminate the paper-heavy process of student enrollment and registration.

"Student enrollment and registration is a complex and historically manual process schools manage annually. Every student and department across the district is impacted by the process. Because of that impact, we are thrilled to power our payments with a K12-specialized payment provider that can centralize and manage every other payment need in the district," said Chris Lively, CEO of School Office PRO. "SchoolPay shared the same enterprise approach to payments that we take with student registration and enrollment."

The partnership between SchoolAuction.net and SchoolPay expands on SchoolPay's comprehensive K12 Payment Eco System. David Dunaway President and CEO, added "Registration and enrollment payments impact every student in a district. School Office PRO has built a powerful way to centralize the process and eliminate enormous manual work. We share that initiative in how we go about serving school payments. We are proud to power School Office PRO's payments and share in their commitment to streamline K12 back office."

About School Office PRO

School Office PRO is an online student registration + enrollment software company based in Dallas, TX that was specifically designed to eliminate paper-based form processes for K-12 school districts nationwide. Using cutting-edge technology and advanced data migration capabilities, School Office PRO radically reduces the work and costs involved from filling out paper forms by hand and seamlessly integrates with your school district's existing Student Information System (SIS).

School Office PRO currently serves over 2,000+ students across the country and may be installed locally or as a hosted solution.

About SchoolPay

SchoolPay (www.schoolpay.com), a product from My Payment Network, is the first enterprise-level payment software built specifically for K12. SchoolPay centralizes every in-person, online and mobile payment in a school, district or school group and synchronizes payment data with disparate applications, such as student information systems, general ledger, and food service software that rely on payment data. My Payment Network is based in Madison, WI. More information about My Payment Network can be found at www.mypaynet.com.
