**SCHOOLPAY ANNOUNCES CUSTOM INTEGRATION WITH FOLLETT DESTINY LIBRARY
MANAGER**

Extending their K12 Payment Expertise to Textbook and Library Fees

MADISON, WI (May 25, 2016) --- The enterprise-level K12 payment platform, SchoolPay, announced an integration with the library management software Follett Destiny, the most widely used library resource platform. This custom integration offers school districts and guardians the ability to manage their library fees from the same interface where both groups manage all other K12 payment needs.

“This custom integration is very exciting as it expands our ability to make every department in the district happy with their payment management. SchoolPay expanded on the basic integration and added key accounting features that are making library teams exceedingly happy. The resulting integration eliminates hundreds of manual accounting data entries for library staff. Having these fees reported in a place where guardians are paying other school-related fees has also resulted in much higher revenue recovery”, said David Dunaway, President and CEO of My Payment Network, Inc.

About SchoolPay

SchoolPay is the oldest K12 eCommerce solution provider and the only enterprise level solution. SchoolPay increases accounting transparency, improves cash flow, and streamlines operations by putting all department payments on a common payment platform. It centralizes every in-person, online and mobile payment in a school, district or school group and synchronizes payment data with disparate applications, such as student information systems, general ledger, and food service software that rely on payment data. SchoolPay is a product of My Payment Network based in Madison, WI. More information about My Payment Network can be found at www.mypaynet.com.
