HELLO!

So glad to meet you! My name is Tammy Lane.

**And this is how I
feel about
working with
Joint Venture
Partners ...**

Yes, I **LOVE** working with Joint Venture Partners!

Having others with lists promote you is one of the best strategies to rapidly scale your business, with the ability to take you from even **\$0 in revenue to hundreds of thousands of dollars in sales almost overnight!**

AND have fun doing it because you're building friendships with the most incredible business owners who "get" you.

A photograph of four women smiling and laughing joyfully, huddled together. The woman on the far left is wearing an orange top and has her mouth wide open in a laugh. The woman next to her is wearing a white top and has a bright smile. The woman in the center is wearing a pink top and is also smiling broadly. The woman on the far right is wearing a white sweater and has a gentle smile. They all appear to be in a very positive and fun mood.

I know it because I've done it and I want to show you how fun and easy it can be ...

But first let's talk a little bit about you...

I bet if you've found me here that you ~~like~~ need to be bringing in more clients, maybe even a LOT more clients.

Maybe things aren't going quite as well as you hoped when you started this dream business of yours.

And maybe you're feeling that weight in the pit of your stomach saying that something needs to change and it needs to change soon or you're going to sink!

I get it ... I've been there, struggling just to stay above water and it isn't fun.

So let's get to it and start having your brand new joint venture partners start sending you clients!

FAST TRACK TO JV CLIENT FLOW

Let's fast track your JV success ...

So, maybe you've heard about working with partners, doing JV "launches" or Jving before ...

Around here we do things a tiny bit differently from what's typical!

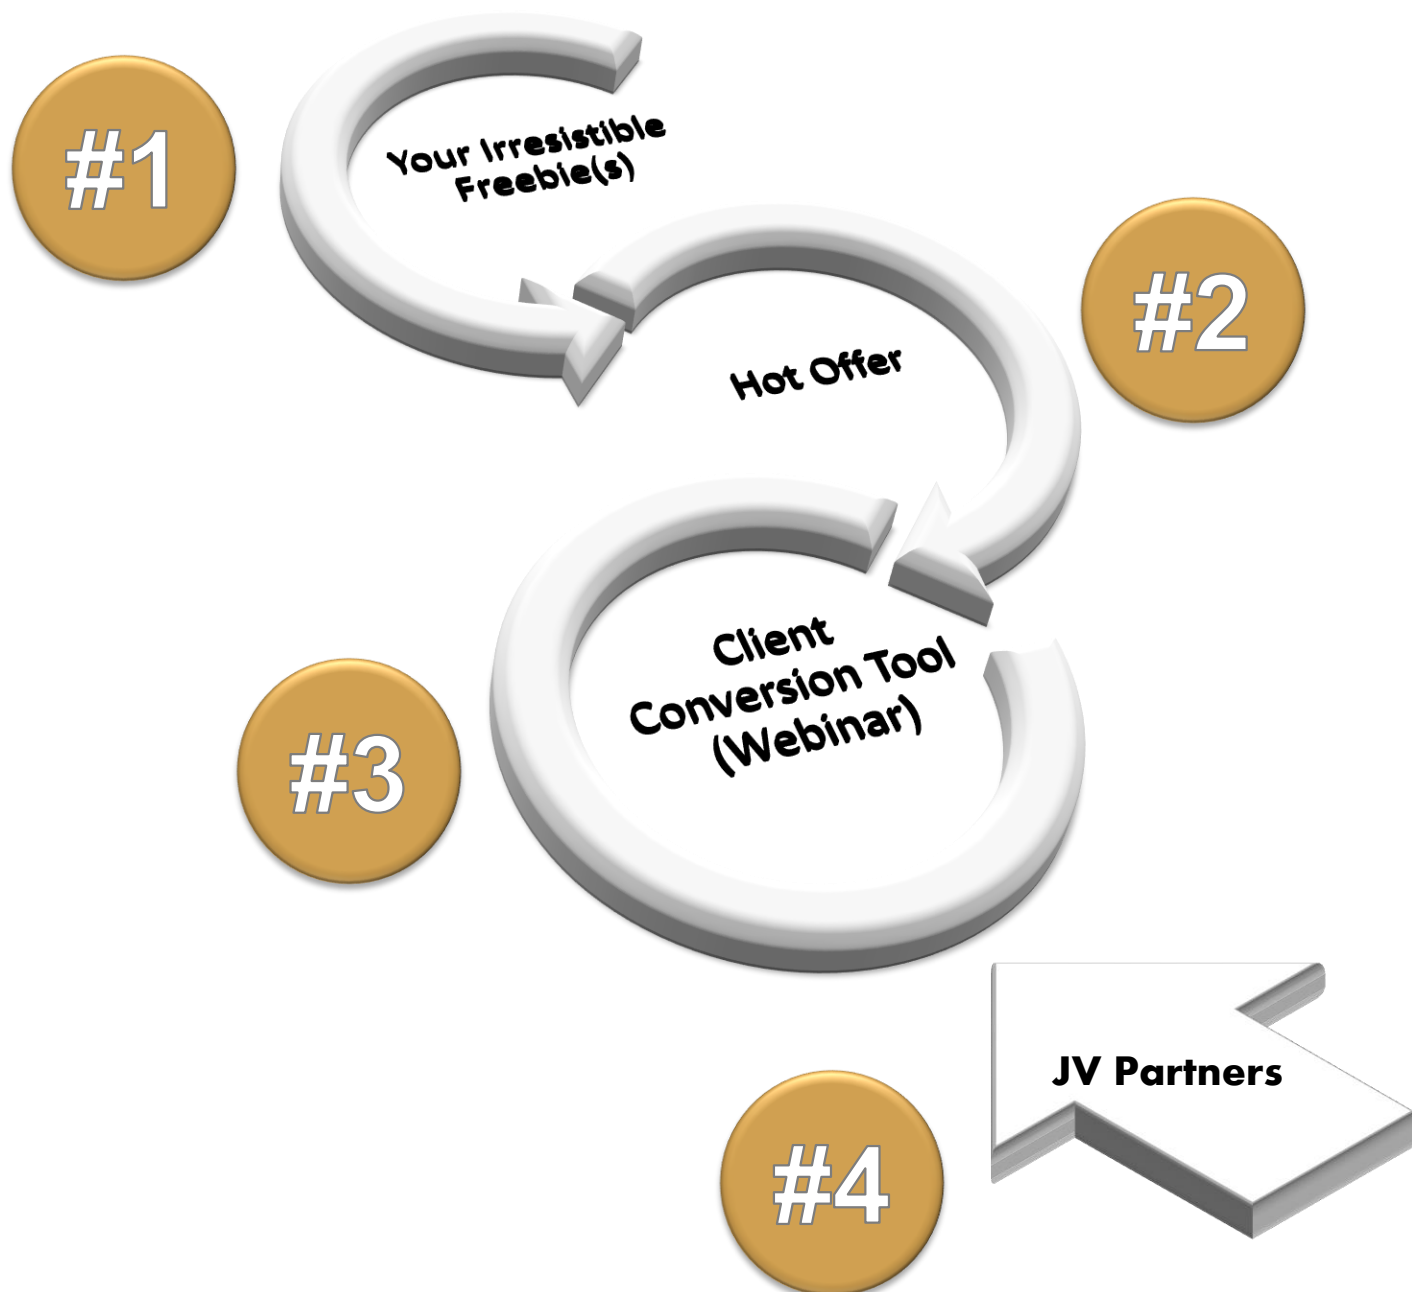

The reason we do things differently is that I get where you're at and you're probably feeling pretty anxious to start bringing in clients NOW!

And I'm all about getting you on the path that's going to bring you the results the quickest way possible.

SLOW TRACK TO JV CLIENT FLOW

Here's the Other Guys' System ...

SLOW TRACK TO JV CLIENT FLOW

Here's the problem with what the other guys teach ...

Now, don't get me wrong, I agree with their approach IF, **and it's a big IF ...**

IF you're going to approach the likes of Lisa Sasevich, Loral Langemire, or the big guy himself to be one of your first JV partners, they would want you to have all of that system in place **FIRST**.

While we'd all love to have those guys as our very first partners, Even if you did **EVERYTHING** exactly right with "The Other Guys' System" chances are, those partners are not going to work with you right out of the gate.

This is not a case of go big or go home ...

It's a case of start quick and bring on the client flow!

SLOW TRACK TO JV CLIENT FLOW

Here's the problem with what the other guys teach ...

The Other Guys' System generally takes about a year to implement because you have to have all of your ducks in a row **before you ever approach a JV partner** to work with you.

That means that you have to have:

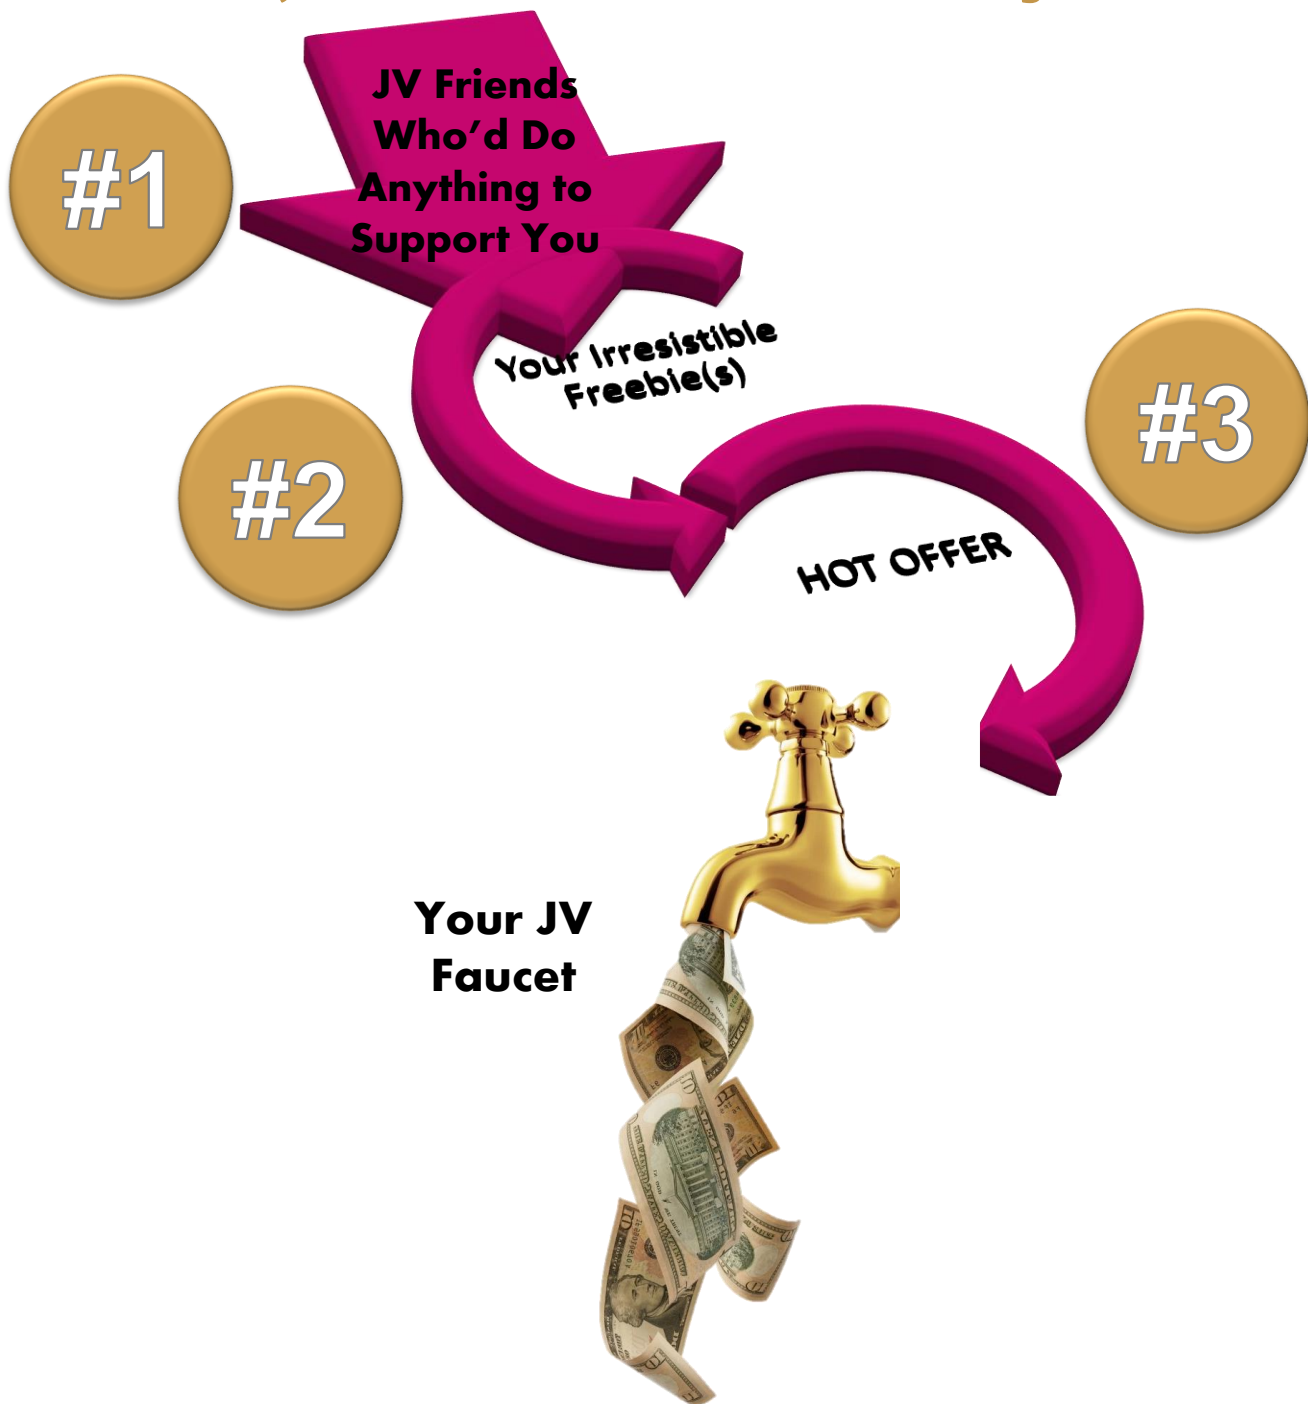

- ☐ Your Irresistible Freebie – DONE;
- ☐ Your Webinar – DONE and PROVEN;
- ☐ Your Hot Offer – DONE and CONVERTING;
- ☐ Your whole online launch funnel including all of the tech – DONE and TESTED;
- ☐ Your affiliate tracking software – DONE and TRACKING.

BEFORE YOU EVER APPROACH A PARTNER!

FAST TRACK TO JV CLIENT FLOW

Now, here's the JV Faucet Way ...

FAST TRACK TO JV CLIENT FLOW

Here's why the JV Faucet System is different ...

The real truth about JVing is that the kinds of partners that you're going to be working with when you first start out (and maybe forever!) are only going to care about two things:

1. That they like you and your work
2. That you'll support *them* in return in whatever ways you can.

That's it.

THEY DON'T CARE if you have the perfect product launch formula crafted.

THEY DON'T CARE if you've done 10 prior launches or any at all.

THEY DON'T CARE if you haven't served thousands of people.

That's great news for you because it means you can get started TODAY ... *before* you have a single additional piece of your marketing funnel ready!

A NEW WAY OF JVING

The truth about “BIG” partners ...

Still to this day, at \$200,000 plus in joint venture income this year, I only work with partners I love and who have become some of my closest friends.

I've worked with some of the big names before and what I found is that the results they get for me aren't nearly as good as you would think.

It's the surprising truth that no one shares with you, but many of those big names with a lists of **100,000 or more**, **only get a small percentage of them (7,000 people or so to) open an email.**

AND, you have to jump through million hoops to get those folks to mail for you.

A NEW WAY OF JIVING

Why I love this NEW way of Collaborating ...

Compare that to just one of my new partner friends who mailed with a personal recommendation to her list of 20,000 and had more than 6,200 people open that email and convert to sales at 4x what that big list did.

I'll take that fun, I just want to support you, kind of Jiving over the high maintenance big partner mailings all day long!

If you're looking for a new kind of collaborative partnering where it's fun and easy and just feels darn good, then this is for you!

If you're looking for a new kind of collaborative partnering where it's fun and easy and just feels darn good, then this is for you!

RAPID RESULTS JVING

Bring on the partners!

So, at this point you might be asking “that’s all well and good but how can I get started!”

I’m glad you asked 😊

This new way of JVing means that rather than staying home behind your computer trying to get “JV” ready with a million hours of technical details, we need to go get you some partners!

Then we’ll do just a little bit of work to get your ducks in a row enough to be able to work with them **AFTER you have a ton of partners lined up to bring you in that influx of clients you’ve been looking for!**

RAPID RESULTS JIVING

STEP 1: GET YOUR PARTNERS LINED UP

There are four things you need to get your first JV partners lined up:

1. **The perfect meeting spot** (check out the special resource I have for you on the “What’s Next For You” page as I’ve got the perfect playground for you to meet your next JV friends).
2. **A hot JV pitch** (an offer that makes your new JV friends leap to work with you) – I’ll be sending you more details on how to do this in my next email.
3. **The super simple secret weapon** that you wouldn’t think could triple the number of partners who support you!

Watch for my Super Secret email where I’ll share this 30 second strategy with you ;)

4. **Know who your perfect partners are** and how to spot them across the room.

STEP 2, GET YOUR DUCKS IN A ROW

Once you have a bevy of partners lined up of course, now you need to put in place a simple system to work with them!

If you've been learning about JV launches before this, this process may seem overwhelmingly complicated.

That's not how we roll around here!

I'm here to tell you that the **ONLY** things you need to get started work with **MANY** partners are:

1. A great free gift to give away to your new partners audiences. This needs to be the most Irresistible Freebie!
2. A single webpage for your partners to link to in their emails.
3. A hot offer that brings you in that incredible flow of clients!

WHAT'S NEXT FOR YOU ...

Do you want to get moving faster with joint venture partnerships?

I get so many questions, every day, from clients asking how they can quickly start bringing in clients with JV partnerships.

And here's what I tell them ... it's not as complicated as you think!

There's just two things you need to get started: The perfect place to meet the people who'll become your friends and JV partners AND the right details to put in front of them so they can easily support you.

I've created a brand new resource that will help you turn your next event into your very own JV Faucet ...
