Course Layout:
The course will be a short, less than 1-mile, layout under the lights. It will be very fast with many smooth turns. The entire course will be visible for the spectators. The course will share some sections with the Sunday course but will also use its own. The course is primarily smooth grass with very little dirt sections. Most lap times will be around 3 minutes or less.

Race Format:
Each category will race two races. Both races will be averaged together for the overall race winner. The person with the lowest number of points will win the overall. If there is a tie on points, the rider with the better second moto will get the overall. Example: Rider 1 finishes 3rd and 1st. Rider 2 finishes 1st then 3rd. Even though they both have 4 total points, rider 1 wins the overall because of the better second race. Every category will race at least one race under the lights.

There will be **NO PRERIDING** the course once the event has started. You must show up for the practice session to ride the course. Once one race is complete, the next race will start immediately. Please do not get on the course. With very short lap times, racers will be coming around very quickly.

Pre registered riders will be based upon your USAC ranking points. All riders who register on the day of the event will be called up randomly after the preregistered riders. Please preregister for the event and save some money and time.

START TIMES ARE APPROXIMATIONS. STAGING WILL BEGIN 15 MINUTES BEFORE YOUR RACE! SHOW UP EARLY AND PRE RIDE THE COURSE. SECOND MOTOS WILL BEGIN NO EARLIER THAN 6:00 PM.
