

Lost Valley Luau

Sunday March 30th, 2014

USAC Event Permit pending

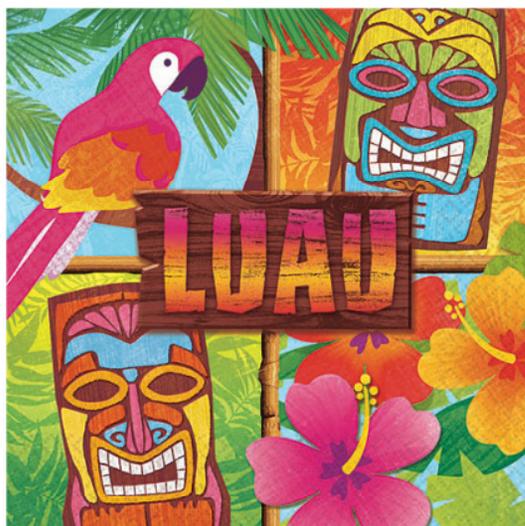

The 411

The name comes from the bootleggers who once made use of the area, getting lost among the numerous hollows. It was also near the site of an ammunition works and uranium processing plant which necessitated the cleanup that lies under the large mound on Hwy. 94. Now, the trail is a 10.5 mile loop with a mixture of double and singletrack punctuated with old homesteads, rock formations, natural springs, and a waterfall crossing. The gravel/doubletrack sections are fairly flat, with the exception of 2 big climbs. The singletrack sections are super flowy and will reward you with great views and better riding.

Trail surface varies from dirt to rock throughout the trail, and drains very well, except in the flats of the lower creek bottom.

From the Highway 40/94 interchange: Take Highway 94 South approximately 1 mile on Right at the Mound.
