Jeremy Powers and James Driscoll power up a climb at the 2013 UCI Cyclo-cross World Championships in Louisville, Ky. (Rob Jones)
Dear USA Cycling Members and Friends:

2013 was a very busy and exciting year for USA Cycling. In addition to supporting more than 710,000 racing days across all five disciplines of cycling, we successfully hosted the first-ever UCI Cyclo-cross World Championships to be held outside of Europe, opened a new European training hub in Holland, and launched our RaceClean and SafeSport programs.

More than 62,000 members purchased 75,000 USA Cycling racing or support licenses in 2013. With over 2,700 clubs and 3,100 sanctioned events in the United States, the sport of cycling has never been more accessible to athletes of all ages and abilities.

Not only is the competitive cycling scene strong on the home front, but Team USA Cycling athletes continued to maintain their status as a powerhouse nation overseas, as evidenced by the 152 world championship medals collected by U.S. cyclists in 2013. Thirteen of those medals came from our junior and elite athletes, while an additional 120 were brought home from amateur world championships and 19 from para-cycling competition.

As our nation’s top athletes were climbing onto podiums around the world, the next generation of great American cyclists was busy logging more than 4,500 training and racing days in USA Cycling’s European-based National Development Program. Historically, 2013 was one of the best years for our development athletes, with overall wins at the Giro Rosa, Tour du Pays de Vaud, and Tour de l’Abitibi.

As we celebrate the continuing international success of our elite and development athletes, we are also looking forward to a bright future at home as our more than 62,000 racing members continue to explore their own personal passion for this great sport by racing in our more than 3,100 local, regional and national events. Toward that end, I would like to wish all of you the best of luck and skill in the upcoming racing season; and also extend a special thanks to all of our donors and supporters of the USA Cycling Development Foundation who continue to play an important role in our ability to develop the next generation of American champions.

Yours in cycling,

Steve Johnson

OUR VISION AND MISSION

**Vision**
The vision of USA Cycling is to make the United States of America the most successful country in the world of competitive cycling.

**Mission**
The mission of USA Cycling is to achieve sustained success in international cycling competition and grow competitive cycling in America while delivering an exceptional customer experience.

The peloton heads toward Mt. Bachelor during the 2013 USA Cycling Masters Road National Championships in Bend, Ore. (Matthew Lasala)
WHAT WE DO

Recognized by the United States Olympic Committee (USOC) and the Union Cycliste Internationale (UCI), USA Cycling is the official national governing body for all disciplines of competitive cycling in the United States, including road, track, mountain bike, BMX, and cyclo-cross. USA Cycling is a membership-based organization that strives to grow the sport domestically and also foster the identification, development, and support of American cyclists in international competition. Sources of revenue for USA Cycling include annual license fees, permit fees, event surcharges, grants from the USA Cycling Development Foundation and the United States Olympic Committee, corporate sponsorship, and generous gifts from individual donors. Unlike most other national cycling federations across the globe, USA Cycling receives no government funding.

Sustaining International Success
To meet its goals of identifying and developing world-class cycling talent, USA Cycling maintains a proven athlete development pipeline for men and women in all disciplines of competitive cycling. This pipeline consists of several programs, including regional and national talent identification camps, instructional clinics, European-based programming, direct athlete funding initiatives, and access to superlative equipment, facilities, and coaching. Additionally, USA Cycling is responsible for the selection and organization of national teams which represent the United States at major international events like the Olympic Games, World Championships, Pan American Games, Continental Championships, and World Cup races.

Growing Cycling in America
As a membership-based organization, USA Cycling is comprised of clubs and teams, officials, coaches, mechanics, race directors, and competitive cyclists of all ages and abilities across the sport’s five disciplines.

In an effort to grow the sport on the domestic front, USA Cycling supports grassroots initiatives at the local level by reinvesting a significant portion of its membership dollars into its 34 local associations. The national governing body also works to grow the sport by providing regulation, education, and structure; working with a comprehensive network of certified coaches and officials; administering eight national-level calendars; and managing 18 national championship events for all ages and skill levels.

Keeping Cycling Clean and Safe
In order to grow a healthy sport that provides positive experiences for all involved, USA Cycling is committed to ensuring a clean and level playing field, promoting athlete well-being, and protecting athletes from abuse. USA Cycling has implemented two programs to meet these goals: RaceClean and Safesport. The RaceClean program focuses on ensuring clean sport by increasing not only education, but also the frequency and effectiveness of in-competition and out-of-competition drug testing at all levels of competitive cycling in the United States. SafeSport works to reduce risk for athletes and to prevent adverse experiences for youth by growing awareness of misconduct, abuse, and drug use in cycling and by empowering participants to act when they witness unsafe behavior.
USA CYCLING
MEMBERSHIPS

The popularity of the sport is due largely to a strong selection of domestic races, a dedicated group of local associations and grassroots organizers, and a committed network of volunteers and staff. Here is a look at USA Cycling’s growth patterns:

About Our Members
USA Cycling’s membership is comprised of not only competitive cyclists, but also of licensed coaches, officials, race directors, and mechanics. Here’s a breakdown of who our members are:

Total 2013 USA Cycling Licensees: 75,303
- BMX Riders: 192
- BMX Coaches: 28
- International Licensees: 3,347
- Collegiate Riders: 4,576
- Mountain Bike Riders: 15,378
- Road, Track & Cyclo-cross Riders: 46,612
- Officials: 1,604
- Mechanics: 282
- Coaches: 1,372
- Professional Riders: 355
- Race Directors: 1,557
GRASSROOTS CYCLING INITIATIVES

Local Associations
Each year, USA Cycling supports grassroots cycling initiatives at the local level through 34 Local Associations comprised of passionate volunteers that drive local racing across the country. USA Cycling’s Local Associations are in the best position to monitor, implement, and manage cycling programs specific to local environments. Through these local entities, USA Cycling annually reinvests a significant portion of its membership dollars into locally-driven programs. Since 2003, USA Cycling has given more than $3.8 million to its Local Associations for the betterment of competitive cycling across the country. Each Local Association determines exactly where to invest its financial allocation to best meet the needs of its members.
Based on 2013 license sales, USA Cycling distributed the following funds to its Local Associations:

**TOTAL 2013 LOCAL ASSOCIATION SUPPORT:** $438,355

**Mountain Bike Race Organizer Incentive Program**

In addition to the rebates paid out to Local Associations, USA Cycling also provides incentives specifically to groups that organize mountain bike events and/or series. In an effort to support and grow the mountain biking community, race organizing entities have the opportunity to qualify for a rebate pool which is based on USA Cycling license sales and number of racer days in the organizer’s respective state.

In 2013, 167 organizing groups qualified for the rebate pool of $30,714. With the addition of the 2013 rebate pool, USA Cycling has made more than $170,000 available since the incentive program began in 2007.
USA Cycling's 2,700+ affiliated clubs and teams provide amateur cyclists with fun, social and competitive environments in which to participate in the sport of bike racing. At the end of the year, USA Cycling recognized 11 “Club of the Year” recipients for outstanding programs that support USA Cycling’s mission. Clubs are judged on key areas, including race promotion, membership composition, instructional clinics and seminars, club activities, charitable contributions, and racing performance. Congratulations to the 2013 “Club of the Year” winners:

**2013 USA Cycling Club of the Year Recipients**

Division I Club of the Year: xXx Racing (Chicago, Ill.)
Division II Club of the Year: Northwest Cycling Club (Houston, Texas)
Division III Club of the Year: Riptide Cycling (Cream Ridge, N.J.)
Juniors/Interscholastic Club of the Year: Team Velosport Club (Irvine, Calif.)
Collegiate Club of the Year: Marian University (Indianapolis, Ind.)
Masters Club of the Year: Cross Creek Cycling (Fayetteville, N.C.)
Mountain Bike Club of the Year: Whole Athlete (San Anselmo, Calif.)
Best New Club of the Year: Paradise Garage Racing (Columbus, Ohio)
Women’s Club of the Year: Sound VELO Cycling Club/Team Group Health (Seattle, Wash.)
Cyclo-cross Club of the Year: Western Howard County Cycling (Woodbine, Minn.)
Collegiate Cycling is the division of USA Cycling responsible for administering competitive bicycle racing in 11 unique collegiate conferences, each of which is managed by a volunteer conference director that coordinates racing seasons for track, mountain bike, cyclo-cross, road, and BMX. USA Cycling conducts national championships for student-athletes across all five of these disciplines and recognizes collegiate athlete achievements with the Stenner and Kuck scholarships each December. Registered as both club and varsity teams with USA Cycling, collegiate cycling serves as an athlete development pipeline for professional and national teams by providing opportunities to compete at the highest level while still earning a college degree.

**COLLEGIATE CYCLING BY THE NUMBERS IN 2013:**

- **Collegiate Cycling Club Teams**: 269
- **Officially Recognized Varsity Collegiate Cycling Teams**: 13
- **Emerging Varsity Programs**: 6
- **Sanctioned Collegiate Cycling Events**: 193
- **USA Cycling Collegiate Cycling Licensees**: 4,576
USA CYCLING COACHING PROGRAM

With 1,400 licensed coaches nationwide, the USA Cycling coaching certification process begins with an online examination that covers the basic fundamentals of cycling-specific principles, and results in Level-3 certification. Licensed coaches progress through the ranks by attending additional instructional clinics designed to further their knowledge base, eventually attaining Level-2 status, followed by Level-1.

Throughout the year, USA Cycling conducts several other coaching education activities such as online webinars, seminars, and specialty clinics. These activities are designed for educating coaches at various levels of certification, training them for specialty certifications, or simply providing the coaching community with unparalleled instruction and the opportunity to network and share ideas with their peers.
Like all sports, competitive cycling needs officials to enforce the rules. USA Cycling’s Officials Program provides introduction and instruction to 1,600+ licensed officials around the country. To become an official, an individual must first attend one of USA Cycling’s official seminars, purchase a license and pass an examination. The initial seminar results in Level-C status and a basic understanding of road, track and mountain bike racing. After attaining Level-C status, officials can continue their progression by achieving Level-B, Level-A, National Commissaire, and International Commissaire designations. In addition to the general categories, USA Cycling also provides specialty instruction in order to become a motorcycle referee, track starter, or race secretary.

**Congratulations to USA Cycling’s 2013 Officials of the Year:**
- Randy Shafer–National Official of the Year
- Chris Constantino-East Region Official of the Year
- Steve Crews-Mountain Region Official of the Year
- Brett Griggs-Midwest Region Official of the Year
- Al Cronin-West Region Official of the Year
- Josie Strange-Southeast Region Official of the Year
USA CYCLING MECHANICS PROGRAM

The USA Cycling Mechanics Program was designed to build a community of mechanics that are qualified to provide the best possible support to American cycling athletes on both the national and international levels. In 2013, there were 282 licensed mechanics. In order to become a USA Cycling licensed mechanic, one must attend a USA Cycling Bill Woodul Mechanics Clinic.

The Bill Woodul Mechanics Clinic is held annually in Colorado Springs and is the only one of its kind in the world. (Mark Mager)
An important part of USA Cycling’s role in the cycling world is to bring together industry stakeholders for networking and continuing education opportunities. 2013 was no different with the national governing body organizing seven industry gatherings, most of which were held in the USA Cycling National Conference Center in Colorado Springs.

**Officials Summit**
USA Cycling hosted the nation’s cycling officials at its biennial Officials Summit in March of 2013 in the National Conference Center. Ninety-two officials attended and benefitted from presentations on a wide range of topics with the overall themes being team building and enhancing the USA Cycling member experience.

**Cyclo-cross Race Directors Summit**
The fourth annual Cyclo-cross Race Directors Summit was held in April of 2013 at USA Cycling’s National Conference Center in Colorado Springs. The summit doubled as a national/international level certification class and gave the participants the chance to learn about topics such as concussions, public relations, and economic impact reports.

**Medicine of Cycling Conference**
USA Cycling once again collaborated with Medicine of Cycling and UC San Francisco for the fourth annual Medicine of Cycling Conference, held in August of 2013. The two-day event offered medical professionals a platform on which to collaborate and establish common standards of care for competitive cyclists.

**Coaching Summit**
The annual Coaching Summit was held in November of 2013 at USA Cycling’s National Conference Center where certified coaches benefitted from a wealth of knowledge presented by leading experts in sport physiology, exercise science, team and individual coaching, nutrition, and athletes with disabilities.

**Local Association Summit**
USA Cycling held its ninth annual Local Association Summit in November of 2013. The three-day conference attracted 40 grassroots leaders from 27 Local Associations around the nation to discuss the opportunities and obstacles faced in their respective areas and to learn from each other’s successes and failures.

**USA Cycling Bill Woodul Race Mechanics Clinic**
The 2013 edition of the USA Cycling Bill Woodul Race Mechanics Clinic was held in November to give mechanics the opportunity to learn from industry experts, receive hands-on experience, and network with cycling industry leaders. It was the 27th edition of the one-of-a-kind clinic.

**Race Directors Summit**
The sixth annual Race Directors Summit (for road, mountain, and track race directors) was held in November in Winston Salem, N.C. and also doubled as a national and international race director certification class.
USA CYCLING-SANCTIONED EVENTS

With a healthy number of sanctioned events in our nation across all disciplines, it has never been easier to get involved with cycling no matter the age or ability level.

**TOTAL 2013 USA CYCLING EVENT SANCTIONS** 3,105
- Road 1,730
- Mountain Bike 626
- Cyclo-cross 566
- Track 166
- BMX 17

When an event is permitted by USA Cycling, it gains access to USA Cycling’s low-cost insurance programs, an entry on the USA Cycling event calendar, access to USA Cycling’s online registration system as well as the only national results & rankings system, and an abundance of online tools.

The pro-1-2 women cross the finish line at the Chris Thater Memorial Criterium in Binghampton, N.Y. (Dave Williams/Beyond the Print)
In 2013, USA Cycling showcased the top U.S. events with ten national calendars. With the exception of the Road Development Race Series (junior road calendar) and the American Mountain Bike Challenge (grassroots mountain biking calendar), these national calendars crowned overall champions as the seasons concluded. Congratulations to our 2013 national calendar champions!

ATHLETICS & THE USA CYCLING NATIONAL DEVELOPMENT PATHWAY

Thanks to the support of the USA Cycling Development Foundation, USA Cycling is able to maintain a proven development pathway for men and women in all of the sport’s disciplines.

The goal of USA Cycling’s National Development Program is to provide promising young athletes with the tools they need to excel at the highest levels of professional cycling, including opportunities to race against the world’s best talent while receiving support from world-class coaches, mechanics, and soigneurs. To meet these goals, USA Cycling provides a structured pathway to the top tier of the sport, beginning with junior racing series and moving all the way up to international competition.

In 2013, the following initiatives were part of USA Cycling’s National Development Program:

**Men’s Endurance Program**
The men’s endurance program aims to provide opportunities for U23 athletes to live and race in Europe so that they can receive maximum exposure to the European races and lifestyle. In 2013, 25 riders participated in the program for a total of 540 race days. Two riders graduated to Pro Tour teams and another three riders to Domestic Continental teams.

- 5th, U23 Time Trial, UCI Road World Championships
- 2nd overall, Le Triptyque des Monts et Châteaux
- 5th overall, Ronde l’Isard
- 8th overall, Tour de l’Avenir
- Two riders moved to Pro Tour teams
- Three riders moved to Domestic Continental teams

**Women’s Endurance Program**
The women’s endurance program operates with the goal of winning World Championship and Pan American Championship medals. In 2013, two such medals were collected as 30 riders participated in 956 participant days. The USA women secured the number four spot in the UCI nations rankings while two women ranked in the top ten of the international governing body’s individual rankings.

- 3rd, Elite Women’s Time Trial, UCI Road World Championships
- 4th, Elite Women’s Time Trial, UCI Road World Championships
- 5th, Elite Women’s Road Race, UCI Road World Championships
- 2nd, Elite Women’s Time Trial, Pan American Championships
- 1st overall, Giro Rosa
- 2 stage wins, Giro Rosa
- 3rd overall, Route de France
- Most Aggressive Rider, Energiewacht Tour
- Most Aggressive Rider, Tour Cycliste Feminin International del l’Ardeche
- 4th, UCI Women’s Nations Ranking
Junior Endurance Program
The primary objective of the junior endurance program is to prepare young riders for the U23 ranks and to win world championship medals. In 2013, one world championship medal was won while the USA ranked sixth in the UCI’s Nations Cup Ranking. All in all, the program boasted 1,110 participant days which included a five-day National Talent ID Camp for 28 young men at the Olympic Training Center in Colorado Springs.

- 3rd, Junior Men’s Time Trial, UCI Road World Championships
- 4th, Junior Men’s Road Race, UCI Road World Championships
- 6th, Junior Men’s Nations Cup Ranking
- 1st overall, Tour du Pays de Vaud
- 1st overall, Tour de l’Abitibi
- Best Young Rider, Tour de l’Abitibi
- 4th, Ster van Zuid Limburg
- 2nd overall, Internationale
- 3-Etappen-Rundfahrt der Rad-Junioren
- Best Young Rider, Internationale
- 3-Etappen-Rundfahrt der Rad-Junioren
- 2nd overall, Course de la Paix
- 2nd overall, Trofeo Karlsberg

BMX Program
USA Cycling’s BMX program operates with the goals of exposing development athletes to World Cup competition, cultivating a team environment, and winning World Cup and World Championship podiums. In 2013, riders participated in 1,106 participant days and as a nation, ranked number-one for elite women and junior women, and ranked number-two for elite men and junior men. The USA also boasted the highest ranked elite man and junior woman in the UCI’s individual rankings.

1st, Elite Men, Time Trial Superfinal, UCI BMX Supercross World Championships
1st, Junior Women, Time Trial Superfinal, UCI BMX Supercross World Championships
1st, Junior Men Supercross, UCI BMX Supercross World Championships
1st, Junior Women Supercross, UCI BMX Supercross World Championships
2nd, Elite Women, Time Trial Superfinal, UCI BMX Supercross World Championships
2nd, Junior Men, Time Trial Superfinal, UCI BMX Supercross World Championships
Mountain Bike & Cyclo-Cross Program
In 2013, the mountain bike and cyclo-cross development programs focused on World Championship, World Cup, and Continental Championship competition. With 725 participant days, the program aimed to provide top international-level experience to development-aged riders.

Mountain Bike
1st, Junior Women XC, World Cup #5
1st, Elite Women XC, Pan American Championships
1st, Junior Women XC, Pan American Championships
2nd, Junior Men XC, World Cup #5
3rd, Junior Women XC, World Cup #2
4th, Elite Women's XC, World Cup #6
6th, Junior Women XC, UCI Mountain Bike World Championships
9th, U23 Men XC, World Cup #5
9th, Elite Women XC, UCI Mountain Bike World Championships

Cyclo-Cross
3rd, Elite Women, UCI Cyclo-cross World Championships
4th, Junior Men, UCI Cyclo-cross World Championships
3rd, Junior Men, Overall World Cup Standings
2nd Junior Men, World Cup # 4

*Foundation Representative to the USA Cycling Board of Directors
Our History
The USA Cycling Development Foundation was established in 2000 as the fundraising arm for the national governing body of American cycling sports, USA Cycling. During the last twelve years, the Foundation has provided consistent annual funding for USA Cycling’s athlete development programs. Thanks to the generous donations and support from individuals around the country, the Foundation is one of the largest contributors to American athlete development programs in cycling. The Foundation Board plays a key role in the future of the sport, with four of the Foundation Directors filling USA Cycling Board Director positions.

Your Support
From the smallest gift to the Champions Club major donor program, Foundation donors are a unique group of people who share a very common interest in the love of cycling. Our Foundation constituents truly understand the importance of sport development and sport heroes in our culture, and the importance of competitive cycling and international results as a catalyst in the overall domestic growth of the sport.

What We Fund
The Foundation funds USA Cycling athlete programs that develop the future champions in cycling, beginning with junior athletes at the entry level, to elite athletes preparing for the Olympic Games. In 2013, the Foundation granted $879,828 to fund athletic programs managed by USA Cycling. These programs are outlined in the “Athletics & USA Cycling National Development Pathway” section of this annual report. Additionally in 2013, the Foundation and USA Cycling awarded $42,425 in grants and scholarships directly to athletes, clubs and teams. The Foundation will continue to fund the development of our emerging American cycling talent to the Olympic and World Championship level. -Sustained international success from our future champions is the ultimate goal.
**Special Campaigns**

**Burke Fund for Cycling Development:** The Burke Fund awards grants to U23 and junior age group athletes based on financial need and athletic achievement to assist with travel costs for USA Cycling athlete development camps and select competitions, including World Championships. In 2013 there were 47 athletes awarded grants totaling $21,500. More than $270,000 has been granted to 545 athletes over the last fourteen years ensuring that all deserving young riders have a chance to advance in the sport, regardless of financial means.

**Centers of Excellence:** The Center of Excellence program annually awards grants of approximately $20,000 to programs that meet specific structural requirements with the potential and ability to develop athletes into international-level competitors, and have consistently produced national results and coordinated with USA Cycling's National Development Program participation. Since the program's inception ten years ago, the USA Cycling Development Foundation has distributed over $240,000 to grassroots development programs thanks to the generous donations to the USA Cycling Development Foundation.

USA Cycling and the Foundation recognized 13 club teams during 2013. Winners were chosen based on organizational criteria and performance results in developing junior and U23 athletes.

**Congratulations to the 2013 Centers of Excellence Winners:**
- Whole Athlete Specialized Cycling Team (Mill Valley, Calif.)
- The Young Medalists (Trexlerstown, Pa.)
- Team Velosport (Orange County, Calif.)
- Team VRC Get Crackin’ (Los Angeles, Calif.)
- Team Twenty16 (Marin, Calif.)
- Boulder Junior Cycling (Boulder, Colo.)
- Team Specialized Racing Juniors (Menlo Park, Calif.)
- Team Swift (Santa Rosa, Calif.)
- BYRDS Cycling (Boise, Idaho)
- Front Rangers (Colorado Springs, Colo.)
- Bear Development (Kentfield, Calif.)
- Star Track (New York, N.Y.)
- Bicycle Racing Association of Colorado (Golden, Colo.)

**John Stenner Collegiate Cycling Scholarship Recipients:** Each year, the Foundation awards two Stenner Scholarships to students based on academic achievements, athletic accomplishments, and service to the community with an emphasis on collegiate team involvement and leadership. Congratulations to 2013 Stenner Scholarship winners Matthew Baranoski (Penn State) and Rose Long (Icahn School of Medicine at Mount Sinai).

**Joshua Kuck Memorial Scholarship Fund Recipients:** The Kuck Scholarships are awarded based on outstanding achievements in the areas of cycling safety, advocacy, and education. Congratulations to 2013 Kuck Scholarship winners Erika Pearsons (California State University) and David Ziehr (Harvard Medical School).
Fundraising
The Foundation accepts private and corporate donations, and as a 501(c)(3) corporation registered in the State of Colorado, offers donors the opportunity for tax benefits as a not-for-profit, Type III Supporting Organization.

Fundraising occurs at several levels, with the primary resource for annual funding being the Champions Club major donor program. Each of the members of this special group of individual contributors has the option to sit on the Foundation Board of Directors if they choose, and Champions Club members and guests may participate in unique special events developed specifically for the group which revolve around cycling events, at their cost.

Additionally the Foundation raises annual funds from individual donors through direct mail campaigns, USA Cycling annual licensing appeals, web-based gifts, planned giving, the annual Combined Federal Campaign, corporate employee matching gift programs, merchandise sales and other special events, like the Marin Classic. Individual donors are recognized at these giving levels: Champions Club, Gold Medalists, Silver Medalists, Bronze Medalists, World Champions, National Champions, Patrons, Friends of the Foundation, and Supporters of the Foundation. Please contact the Foundation office for more information on our fundraising programs.
