Adirondack Annual Common Loon Census
July 21, 2018 8am-9am

INSTRUCTIONS:
1. Record only the FIRST sighting of each loon or group of loons. PLEASE DO NOT COUNT LOONS TWICE.
2. It is essential that the observations be conducted on the Census Day, from 8-9a.m., and continue for the ENTIRE HOUR to prevent duplicate observations.
3. Loons flying overhead should not be counted to prevent duplicate observations of birds that were surveyed on another lake.
4. Please attach or sketch a map on the back of this form – Please note if you conducted observations on the entire lake or on a portion of the lake. Note where birds were observed, the direction in which they swam or flew, and the location of the observer(s).
5. Please report “zero” loons observed as well as positive observations. A report of zero loons is just as important for census validity as a report of 10 loons.
6. An adult loon is fully feathered with black and white feathers, and is full size. A chick has either black or brown down, and is less than 2/3 the adult size. An immature loon is fully feathered with light and dark gray feathers, and is 2/3 adult size or larger.
7. Please check the appropriate boxes in the above lake characteristic categories. This information will help us to characterize habitat utilized by Adirondack loons.

TOTAL # LOONS OBSERVED:

CENSUS OBSERVERS!
YOUR SUPPORT IS NEEDED!
Your donation, made payable to the Adirondack Center for Loon Conservation will help ensure the continuation of the Loon Census in future years.

THANK you!
Please complete back of form also.

Please sketch or attach a map of your survey area (Note: It is very helpful if you can show the general shape of the lake and where you observed loons):

Comments (Please include addresses of additional observers):

Thank you for your help and support! Please return your census forms by August 15, 2018, to be included in the Census Results.

Return forms to: WCS’ Adirondack Program, 132 Bloomingdale Ave, Suite 2, Saranac Lake, NY 12983 or email wcsaccp@gmail.com

* The Wildlife Conservation Society’s Adirondack Program conducts the Annual Loon Census in collaboration with the Adirondack Center for Loon Conservation (www.adkloon.org). For more information about other conservation projects of WCS’ Adirondack Program, please visit www.wcsadirondacks.org. The Wildlife Conservation Society is grateful to the NYS Dept. of Environmental Conservation, Biodiversity Research Institute, the Natural History Museum of the Adirondacks, and the Audubon Society of New York State for their collaboration with loon conservation efforts in the Adirondack Park.
