

Groups Where You Can Get A Plan, Dump Debt, Build Wealth and Give

Our groups use a curriculum based on nine video lessons taught by Dave Ramsey and his team of financial experts. Our group coordinators are rock-star volunteers from our church who host the group, lead discussions, and encourage group members to never give up. These coordinators have the heart to help others. Here are what the group sessions entail –

Lessons 1-4: The Plan

01: Starter Emergency Fund and Budgeting You'll learn to get yourself situated so you have margin to make a spending plan (a budget.) This will become the doable tool, empowering you to finally get traction toward achieving your financial goals!

02: Pay Off All Debt (Except the House) You'll be introduced to an additional tool that has helped thousands and thousands of people get out of debt completely – student loans, car notes, credit cards – you name it! Once your debt is paid off, you'll have freed up cash to save more, invest for the future, pay for college, even pay off your home early!

03: Save a Fully Funded Emergency Fund In light of COVID-19, this lesson will seem especially relevant and be another surprising key to really tackling your financial goals.

04: Invest for the Future and Build Wealth This lesson begins to take you where you've wanted to be from the beginning. But for most, it seems to be far down the road, and for some, even unimaginable. This one will cause you to think again. And it's all good.

Lessons 5-9: Life on the Plan

05: Buyer Beware During this lesson you gain understanding about how we're all wired when it comes to making purchases – how best to navigate marketing campaigns and make wise purchases impacting our household budgets.

06: The Role of Insurance For many, this lesson is a real eye-opener when it comes to what coverages you actually need, some of the best vehicles through which to get this done, and the *why* behind all of it.

07: Retirement Planning Whether you're thinking it's a long way down the road, or right up the street, this lesson will help you begin to understand what you'll need to retire with dignity, and provide you the tools to obtain what you have in mind for your future.

08: Real Estate and Mortgages This lesson offers great content on concerns like rent vs buy, how to sell your home, when and how to purchase a home, warnings about the worst mortgage options, and more.

09: Outrageous Generosity Discover the final key to financial peace in this lesson, unpacking a whole new paradigm for most of us when it comes to building wealth.
