

## COVID-19 COURT SPORTS POLICY

October 6, 2020, Warren Sports & Fitness will follow a court sports policy in light of COVID-19. Your participation in this process is crucial for the safety of yourself and others. This policy is subject to change based on leadership/government updates. By participating in the league, either in play or on our volunteer team, you understand the risk of communicable disease and agree to hold Warren Baptist Church, Inc. harmless from any claim arising from your participation.

### PLAYER CONSIDERATIONS

- When possible, please maintain a distance of 6'. Although social distancing is limited on the court, it is important to encourage your player to distance while resting on the sidelines.
- **Masks are not required for players, but spectators, coaches, referees and staff members must wear a mask. If your player would like to wear a mask during play, that is at the parent's discretion.**
- If your player is exhibiting any symptoms of COVID-19, has been directly in contact with someone who has, or has travelled outside of the country within 14 days of play, please remain home until your player is outside of the quarantine window (14 if by travel or exposure, symptom free for 7 days if by infection).
- If a player/coach on the team tests positive, notification will be sent by email to participants on that team. Recommendation for testing and/or quarantine will be made for fellow players if contact was within 48 hours of first symptoms. *(example: Henry and Jake practice on Wednesdays. Henry showed symptoms on Saturday, Jake does not need to test/quarantine unless parent or guardian would like to. If Henry shows symptoms on Thursday, Jake would be encouraged to test/quarantine before returning.)*
- Carpooling is discouraged when possible to reduce the risk of spread.
- Thirty minute gaps will be placed between games to allow safety entry and exit into the building. Please use the labeled doors appropriately.
- Water fountains will not be available this season. Please label your player's water bottle prior to arrival. Teams are permitted to have group snacks, however, provided food items must be individually wrapped and hand sanitization must take place prior to dispersement.
- Please use the hand sanitization station before entering the building.
- Spectator seating will be distanced appropriately. Please refrain from moving chairs. Additional seating will be available on the walking track. Children under the age of 16 must be accompanied by an adult at all times when in the building. Running, playing and other forms of physical activity are not permitted on the track or on the landing area (leather couches, etc.).

### COACH/VOLUNTEER CONSIDERATIONS

- Please adhere to the same guidelines above regarding exposure. If you or someone in your family tests positive, please contact a WSL staff member as soon as possible so that proper communications and schedule changes can be arranged.

October 6, 2020

- **Masks are required. Proper social distancing during huddle, timeouts and locker room time should be conducted when possible.**
- High-fives, handshakes and other forms of celebration contact are not permitted. (example: post-game lineup handshake)
- Please use the hand sanitization station before entering the court.
