RA17 ACHIEVER SERIES
EFFICIENCIES UP TO: 17 SEER / 13 EER

Quiet and Efficient
These new air conditioners are engineered to perform both efficiently and quietly, delivering comfort you can rely on when you need it most.

Increased Comfort
The Two-Stage Copeland Scroll™ UltraTech™ compressor provides more precise temperature control and humidity levels for increased comfort.

Exceptional Quality and Reliability
Our Achiever Series includes features that help fight corrosion, reduce leaks and enhance the overall strength of your air conditioner, so you can be assured in the way it performs.
Count on Staying Cool and Comfortable

A smart, efficient design makes the Ruud Achiever Series Air Conditioner one of your best options for staying cool inside. Each new unit includes a generous list of features that work together to bring you quiet, efficient and reliable indoor comfort.

Reliable and legendary performance
The Two-Stage Copeland Scroll™ UltraTech™ compressor makes the Achiever Series as efficient as it is durable. A Single-Stage unit runs at one speed, but the two-stage RA17 modulates between two speeds—high and medium. It will operate on medium speed most of the time, providing more precise temperatures and lower humidity while also reducing energy use. The system only operates on high when necessary during peak, warm weather conditions. The compressor also has 70% fewer moving parts—which means you get a unit that’s more efficient and more reliable. The optimized fan orifice contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time.

A quieter and more durable unit
It starts with the smart new composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays looking new for years to come. The improved refrigerant tubing design also contributes to quieter, more reliable operation. For added strength, curved lower panels and rugged corner posts on the exterior do an excellent job of protecting the inside.

Curb appeal
Looks are not lost on the new Achiever Series. Ruud Air Conditioners look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

Fast and accurate installation and maintenance
Your savings start with the installation of your new unit. Achiever Series Air Conditioners are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

*Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your local contractors for details or visit energystar.gov. For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local contractor or go to Ruud.com for a copy of the product warranty certificate. Conditional warranties must be registered through RegisterMyUnit.com.

For over 100 years, Ruud has provided trusted, long-lasting solutions. The brand has a habit of delivering reliable heating & cooling products focused on keeping you comfortable. No matter how advanced the engineering has become, Ruud will always “make them like we used to.” With Ruud, you get a history of doing things right and the assurance that you can Rely on Ruud™.
