Encore electric water heaters offer a diagnostic system with leak protection and a 12-year warranty

EFFICIENCY
- .92 - .93 UEF
- Isolated tank design reduces conductive heat loss
- Dual 5500 watt stainless steel heating elements

PERFORMANCE
- FHR: 55 - 72 gallons based on gallon capacity
- Recovery: up to 25 GPH at a 90° F rise

SUPER SENTINEL DIAGNOSTIC SYSTEM
- Simple easy to read diagnostics
- Controls multiple operating modes
- Digital thermostat setting
- Leak detection with audible alarm

FEATURES
- High performance and lower operating cost
- Compliant with many electric utility incentive programs
- Premium grade anode rod provides long-lasting tank protection
- Electric junction box located above heating elements for easy installation
- Over-temperature protector cuts off power in excess temperature situations

PLUS...
- EcoNet® enabled WiFi-connected technology and free mobile app gives users control over water systems, allowing for customizable temperature, energy savings and system monitoring at home or away. Visit Rheem.com/EcoNetConnect
- EverKleen® self cleaning device fights harmful sediment build-up with a high-velocity spiraling water stream – helps operating efficiency by saving energy, money and improving tank life
- Enhanced-flow brass drain valve
- Temperature and pressure relief valve included
- Low lead compliant

WARRANTY
- 12-Year limited tank and parts warranty*

*See Residential Warranty Certificate for complete information

Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90, ICC Code and all state energy efficiency performance criteria.

Recovery calculations used are based on 4500 watt elements used in non-simultaneous operation.

Uniform Energy Factor and rated gallon capacity based on Department of Energy (DOE) requirements.

Super Sentinel not available on single element models, available on dual element models only. Super Sentinel not available in excess of 5 kW on 208 V models.

• Heaters furnished with standard 240 volt AC, single phase non-simultaneous wiring, and 4500 watt upper and lower heating elements.
