

Giving Spotlight

World Service Fund

Today we highlighted some of the ways that God is creating a new heaven and new earth in this congregation and community and through our United Methodist Connection. Together we do more to create a new heaven and new earth through our connectional giving.

A portion of our Sunday offering joins with other United Methodists to support ministries through joint resources including the World Service Fund.

This denominational fund provides resources for the general church to focus The United Methodist Church's efforts on four areas that help the church live out God's vision.

1. Engaging in ministry with the poor
2. Improving health globally
3. Developing principled Christian leaders.
4. Creating new places for new people and renewing existing congregations.
