

Printing Posters

at **FedEx Office**SM
Office and Print Center

If you are looking for a way to draw even more attention to the Winspire Experiences you are offering, consider printing any one of our Package Display PDFs as a poster at your local FedEx/Kinkos. All of our materials are produced using high quality photos, allowing you to enlarge our 8.5 x 11 PDFs to 3 times their normal size without losing image quality.

Getting the PDF file to FedEx

Find the nearest FedEx Office by visiting FedEx.com/us/office

With USB Drive

Save the PDF file on to a USB drive and take it to your nearest FedEx Office/Kinkos.

No USB Drive

Call your nearest FedEx Office/Kinkos and ask for an email address where you can send the PDF file.

Either in person, over the phone or in your email to FedEx, ask to have the PDF enlarged to one of the poster sizes listed below. You can choose between standard poster paper or have it mounted on poster board and laminated.

	18 x 24 inches	22 x 28 inches
Standard Poster Paper	\$22	\$36
Mounted Poster Board	\$39	\$69

As of 2/15/2013. Price and participation may vary by location.

Important Note: Before enlarging the PDF make sure you have the FedEx clerk **Uncheck the box "Preserve Aspect Ratio"**, which will eliminate any white space around the edges of the composition. While it does stretch the document slightly, it isn't noticeable and the end result will come out looking much cleaner.
