All selected athletes (including the reserve(s)) must declare any medications they are taking, the use of any restricted medications, and submit these to the Chief Medical Officer (CMO) at British Gymnastics for medical approval. 4. An athlete or coach may be removed from the Team in the event of a non-compliance in training, a breach of responsibility to the Team or a violation of the Codes of Behaviour adopted by the Team. Prior to removal the athlete or coach will be presented with the opportunity to attend a removal interview with the Performance Director (or their appointed representative) and where possible one other independent person. Written justification must be provided for all removals by the Performance Director. Decisions on these matters are not open to appeal. 5. At any stage following the selection announcement and prior to the Delegation Registration Meeting (the date the team is formally entered), should any athlete fail to reach <u>performance expectations</u> in training or competition or suffer a loss of form to such an extent that it leads the Head National Coach to reasonably believe that such athlete cannot perform to their expected ability at the Games, the Head National Coach may recommend de-selection to the Approval Panel. The Approval Panel will consider this recommendation in full, set out the reasons for such decision to the affected athlete and provide an opportunity for the athlete to make a counterargument, and then pass judgement. Written justification must be provided for all removals. Decisions on these matters are not open to appeal. 6. At any stage following the selection announcement but prior to the Delegation Registration Meeting (the date the team is formally entered), should there be a doubt over the ability of an athlete to compete to the best of their ability due to an injury or illness (physical or psychological), the following procedure will be adhered to: a) The athlete will be referred to British Gymnastics designated Medical Officer to undergo a medical examination to determine their fitness to participate. Initially this will be based on an assessment of whether or not the injury and/or illness is such that the athlete is physically or psychologically unable to compete or is at risk of causing medical harm to themselves, or endangering other competitors, officials or spectators.

	b) If the athlete passes the initial medical examination carried out by the Medical Officer but British Gymnastics still has concerns over whether or not the athlete is able to compete to the best of their ability due to the underlying injury or illness, the gymnast will be required to undertake British Gymnastics' designated performance assessment. c) The performance assessment is an objective measure that will require the athlete to perform routine(s) at least equivalent to Paris Olympic Games Performance Standards at the date of the selection meeting at which they were nominated. d) In the event that an athlete fails to complete the performance assessment to the required standard, they will be removed from the Team, a decision that is not open to appeal. 7. Any replacement(s) required will be made by the Head National Coach based on the needs of the Team and will normally come out of the pool of nominated travelling or non-travelling reserves. Decisions on these matters are not open to appeal. 8. Following the DRM, athlete de-selections and replacements are to be only allowed in accordance with the IOC's "Late Athlete Replacement Policy". Athletes may be de-selected at this stage due to the athlete no-longer being eligible, or due to injury/illness (physical or psychological). In such circumstances, should the British Gymnastics CMO, Performance Director or Head National Coach believe injury/illness (physical or psychological) will impact upon an athlete's potential to deliver a performance at the Games at least equivalent to Paris Olympic Games Performance Standards at the date of the selection meeting at which they were nominated due to injury or illness the following process will be undertaken: 9. The Team GB CMO, in conjunction with the British Gymnastics CMO (or designated medical representative), will request that the athlete undergoes a medical examination to determine his/her fitness to compete. If the athlete is deemed not fit to compete or refuses to undergo the examination, his/her nomination will be withdrawn, and British Gymnastics will nominate the relevant reserve athlete. 10. If the athlete satisfies the Team GB CMO that they are 'fit to compete' and yet the British Gymnastics and/or the BOA believe they will not be able to deliver a performance at least equivalent to Paris Olympic Games Performance Standards at the date of the selection meeting at which they were nominated as a consequence of the underlying injury or illness (physical or psychological), the Team GB Chef de Mission, at his sole discretion, may request the athlete undergoes a set of performance tests. The test(s) will be agreed by each of the Performance Director, Head National Coach, the British Gymnastics CMO (or designated medical representative) and the BOA. If the athlete is unable to perform in the tests at a reasonably equivalent level to what they could have done at the date of nomination in the opinion of the Performance Director, Head National Coach and the BOA, or refuses to undertake the test, they will be withdrawn by the BOA from Team GB under the IOC Replacement Policy. At this stage the BOA will nominate the relevant reserve athlete.
16. Team Announcement	1. Selected Team Members agree not to make any announcement to the media or public in any form (including on any personal websites) regarding their selection until after British Gymnastics and the BOA have announced the Team selection.
17. Any additional matters not covered by this Policy	1. Any matters arising from the selection process that are not covered within this policy shall be determined by the chair acting at their sole discretion.
