## APPLICATIONS

- Free arm quilting and embroidery of light and multilayer materials
- Especially suitable for long and complex materials.

## FEATURES

- Light weight aluminum alloy construction.
- Miniature PLC easily adjusts the sewing speed and needle stop position.
- Front and rear adjustable control handles.
- Ten foot frame with dual rail easy roller system.
- Adjustable fabric ratcheting tensioners for multi-ply (3) applications.
- Detachable laser pointer for tracing pattern.
- Work table for small patterns.
- Built-in Florescent light.
- Nylon wheels with sealed steel bearings.
- 1-1/2" 11ga steel poles for less bowing.
- Rotary thread tensioner.
- Oilless needle and presser bar for no oil drips.
- Synchronous belt drive to top and bottom shaft.
- Harmonic balancers on top shaft.
- Top mounted non-engaged hand wheel.
- "L" bobbin case and belt driven Koban hook assembly (Model 1709Q)  
("M" size bobbin in the 2611BQ)
- Rear mounted thread stand.
- Includes light frame for mounting overhead light (light not included)
