

Greatest Gift CHRISTMAS CARDS

Share the message of God's love this Christmas.

We've made it easy!

*Simply use the Christmas Card template image (in PNG format),
or print a complete design from this PDF printable
to make your own Christmas Cards this year!*

Directions:

Use the PNG graphic file to create your own
family photo Christmas Card on your computer.

Simply save the file to your computer,
then open it in your favorite graphic design software program.

Then layer your family photo under the graphic file.

Save and send to your favorite photo printer or print at home!

All templates are 5x7 and fit a 3x4 family photo in the center.

- OR -

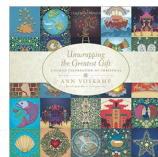

*(if you are not as computer-savvy and all this talk of PNGs
and layering photos with graphics has you all confused...no worries...
we have beautiful printables for you too!)*

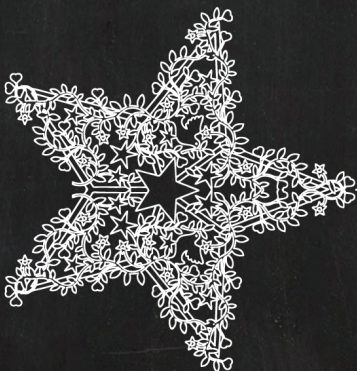

You can simply print the Christmas Card from the following pages -
simply print, then use the clipping guide lines to cut out the card,
fold, and then tuck a family photo or a special note inside.

Mail them, deliver them,
tuck one into a gift or along with a plate of cookies...

share the Greatest Gift this Christmas!
