

119

MINISTRIES

“The following is a direct script of a teaching that is intended to be presented via video, incorporating relevant text, slides, media, and graphics to assist in illustration, thus facilitating the presentation of the material. In some places, this may cause the written material to not flow or sound rather awkward in some places. In addition, there may be grammatical errors that are often not acceptable in literary work. We encourage the viewing of the video teachings to complement the written teaching you see below.”

Something is Happening At 119 Ministries

Something is happening at 119 Ministries.

And quite frankly, we are more excited about what is happening right now than we have been in a very long time.

So, let us show you why.

It took 119 Ministries about **10 years** to reach our first 100,000 subscribers on YouTube.

Then it took us nearly another **six years** to reach 200,000, which happened in March of 2026.

But then something changed.

From March to August, in only **five months**, another 60,000 people subscribed.

We are now at approximately 260,000 subscribers.

Do you see where this is going?

Because we do. And these are not just numbers on a screen.

Behind those numbers are real people encountering Torah for the first time, reconsidering doctrines they may have believed their entire lives, studying Scripture, asking questions, sharing teachings with their families and friends, and discovering the whole Word of God.

How do we know? Because we are talking to them every day.

We are engaging with more people than ever before. The number of meaningful conversations we are having now in a single month rivals what we once experienced over an entire year, and that was not very long ago.

That certainly excites us.

Actually, we are overwhelmed with excitement about what is happening at 119 Ministries right now, and we hope it excites you too.

Because if you believe in the mission and vision of 119 Ministries, you can now actually see and quantify the progress being made. And we believe we are only beginning.

In the next few minutes, we want to show you exactly what that looks like.

We are going to show you how **Scripture Sketches** are creating more Torah conversation than anything we have produced before; how our new **119 Response series, Let's Test That**, will engage theological and Bible-related videos where those conversations are already happening online, take their claims point by point, and test them against Scripture; how **Psalms of 119** is reaching an entirely different audience, including people who may have maybe never even heard of Torah, and what happens after those people discover the ministry; how our **audio sermons** and traditional **119 Ministries teachings** are reaching hundreds of thousands, and in some cases more than a million, people; and how projects like the **119 Contextual Compendium** and **The Lost Tapes** could become some of the most ambitious resources we have ever produced.

We will also show you what we are learning through **advertising and online outreach**, why the way we reach people is changing so rapidly, how we are testing hundreds of shareable biblical graphics in real time, and how an entirely new **119 Ministries website** could help us do something we have wanted to do far more effectively for years: connect believers, families, Bible studies, and fellowships with one another.

And perhaps most importantly, we want to show you what is already waiting in the pipeline and what could happen if we had the resources to move it forward faster.

All of this is happening at the same time.

We are not sitting here trying to figure out what to do next. We know what to do next.

We have the ideas, the scripts, the research, the tools, the systems, and increasingly, the data showing us what actually works. What we want you to see over the next few minutes is what could happen if we had the production resources to move all of it forward even faster.

So let us start with **Scripture Sketches**.

SCRIPTURE SKETCHES

One of the new approaches that has produced incredible results is something we call **Scripture Sketches**.

For example, [*Until Heaven and Earth Pass Away*](#) introduced a character called **Interrupting Isaac**.

Isaac follows Yeshua and the disciples around and interrupts them with questions and objections that sound suspiciously like things you might hear in modern Christianity today. The format is humorous, but the biblical questions are very serious.

And that one Scripture Sketch has reached nearly **half a million views in just a matter of months**. Even more importantly, it has generated more engagement and Torah conversation than any other video we have ever produced.

And if you liked Interrupting Isaac, there is a lot more coming.

We have Interrupting Isaac Scripture Sketches already written or in development on:

- **Acts 10, “The Vision, the Animals, and the Gentiles.”**
- **Acts 21, “Paul, the Temple, and the Sacrifices.”**
- **And Mark 7, “The Hands, the Heart, and the Food.”**

But Interrupting Isaac is only one type of Scripture Sketch.

We are also launching **Sheep vs. Wolf**.

These are very short, usually one- or two-minute debates where the wolf presents a common antinomian argument and the sheep answers from Scripture.

They are designed to be quick, memorable, shareable, and effective.

We already have **15 Sheep vs. Wolf scripts completely written and waiting for production**, with dozens more concepts mapped out behind them.

The ideas are there. The scripts are there. What determines how quickly you see them is production capacity.

119 RESPONSE: LET'S TEST THAT

Another new format we are preparing is a 119 Response series called Let's Test That.

Every day, theological and Bible-related videos are being shared online, and the claims in those videos can spread very quickly. Many of you send those videos to us and ask some version of the same question: What about this argument?

Let's Test That is designed to enter those conversations directly. We will take the claims being made point by point, interact with the speaker's own words and context, and work through the argument in a clear, debate-style type of format.

The goal is not controversy for the sake of controversy. The goal is to carefully examine what is being said, test each claim against Scripture, and equip believers to think through these topics with greater clarity and understanding.

This also gives us an opportunity to meet theological conversations where they are already happening. Instead of only waiting for someone to find one of our existing teachings, we can directly engage the arguments people are already watching and sharing, and then help viewers go deeper into the larger 119 Ministries teaching library when they want to study a subject further.

The first response script, addressing **Matt McMillin**, is ready to record. Another response addressing **Solberg's arguments on Acts 15** is already being written, and we are building a growing list of additional videos and claims to address.

So this can become an ongoing, responsive arm of 119 Ministries, one that allows us to engage important theological claims while those conversations are active and equip people to test those claims for themselves.

Once again, the content pipeline is already forming. What determines how quickly we can record, edit, and release these responses is production capacity.

PSALMS OF 119

Another area that has surprised us is **Psalms of 119**, our music.

[*When Life Crumbles*](#), which is based on a true story, has now received approximately **1.3 million views on YouTube alone**, plus additional listeners through Spotify, Apple Music, and other platforms.

But here is what really caught our attention.

Our analytics show that someone who engages with one of our songs is approximately **400 percent more likely to subscribe to 119 Ministries** than people reached through our other forms of content.

Think about what that means.

A person may have never heard of Torah. They may not even know there is a debate about whether God's Torah still matters. They were not searching for a teaching about the law of God. They simply heard a song. Then they discovered 119 Ministries. And then they subscribed.

And now, every time we release another teaching, Scripture Sketch, sermon, or resource, they have an opportunity to encounter the whole Word of God.

That then makes music an extraordinary outreach tool.

We write the lyrics and we determine the biblical message.

And then we use modern tools, including AI-assisted instrumental and vocal production, to help produce the music.

We understand that some people have concerns about AI. We understand that completely. Like the internet, these technologies can be used for good or they can be used for bad. And our intention is to use them for good. And more importantly, **that is what we are doing with them.**

We have the evidence and the fruit to demonstrate that, and there is far more happening than we could possibly show you in this one video.

119 AUDIO SERMONS

We have also been producing **119 Ministries audio sermons.**

[*The Narrow Path*](#) has already reached nearly **half a million people.**

And once again, the response and the testimonies we receive from people are difficult to put into words.

We currently have **17 more audio sermons planned**, with more expected.

This gives us another way to reach people who might not initially sit down for a detailed traditional teaching, but who will listen to a sermon while driving, working, exercising, or going about their day.

AND OUR REGULAR TEACHINGS ARE GROWING TOO

Now, some of you may be thinking:

With Scripture Sketches, Let's Test That response videos, music, audio sermons, documentaries, graphics, and all these other things, does this mean traditional 119 Ministries teachings are going to slow down or be of less quality?

Absolutely not. In fact, the opposite is happening.

Everything we are describing in this video is **in addition to** what 119 Ministries has been doing for the last 15 years.

We are not replacing our traditional teachings. We are producing **more** of them. And their quality is continuing to improve.

For example, our regular 119 Ministries teaching [God's Law in Prophecy](#) has now reached approximately **one million views**.

Even our traditional long-form teachings are reaching people at a scale we have rarely seen before. And several teachings released just within the last few months are already producing significant results.

[Acts 15 Explained: Did the Apostles Reject the Torah for Gentiles?](#)

Approximately **47,000 views**.

[Daniel 2: Iron and Clay, the Two Legs of Rome, and the Final Mixed Condition.](#)

Approximately **37,000 views**.

[Testing the Enoch and Zadok 364-Day Solar Calendars](#)

Approximately **12,000 views**.

And these are only a few recent examples.

We also have traditional teachings coming through production on subjects including **how to be saved, what righteousness is, what sanctification is, why God does not appear to heal today like we see in the first century**, and a teaching called **Have You Had Your Heart Transplant Yet?**

We are also creating Bible study outlines and study guides for every single 119 Ministries teaching.

So if your concern is that all these new projects somehow mean less traditional 119 Ministries content, there should be no concern.

The teaching ministry you have known for the last 15 years is not going anywhere.

It is growing too.

THE 119 CONTEXTUAL COMPENDIUM

And then there is the **119 Contextual Compendium**.

This may become one of the most useful resources we have ever produced.

In less than 90 minutes, we intend to address, as efficiently and powerfully as possible, essentially every major antinomian passage people use in Scripture.

Think of it as taking the success and research behind the entire Pauline Paradox project and bringing the core case together into one highly efficient presentation.

But it does more than that.

At every point where somebody wants to go deeper into a particular passage or objection, we point them directly to the detailed 119 Ministries teaching that addresses that subject.

So someone can get the complete overview in less than 90 minutes, and then, anywhere they want greater depth, they can immediately access the appropriate resource from our library of more than **700 teachings**. The script has been already written for months. We just need more production capacity to get it live and in your hands.

Wait until you see it.

THE LOST TAPES

Then there is [The Lost Tapes: Sabbath Through the Ages](#).

This is one of the most ambitious projects 119 Ministries has ever attempted. It combines Scripture, archaeology, documented history, storytelling, and a level of production we have simply never done before.

If you have seen our latest production update, you already have an idea of where this is going. If you have not, we encourage you to watch it.

We do not want to reveal much more yet. But we are extremely excited about it.

MEMES, GRAPHICS, AND VIRAL OUTREACH

We are also in the process of producing **hundreds and hundreds of memes and biblical graphics** designed specifically to be shared across the internet.

And we are not simply guessing about what works. We can now test them in real time.

Over the coming year, we expect to rotate through potentially **one to two thousand different graphics**, measure which ones actually produce engagement and meaningful reach, emphasize the ones that work, and retire the ones that do not.

That allows us to constantly improve. Instead of saying, “We think people will respond to this,” we can increasingly know what actually reaches people and produces biblical conversation.

ADVERTISING HAS CHANGED TOO

The same thing is happening with advertising. We are extremely careful about paid promotion. We only want to spend money advertising something when the numbers demonstrate that it actually makes sense.

But new marketing tools have opened opportunities that were simply not available to us even a year ago. In some of the outreach we are testing, we can put a 119 Ministries teaching in front of a regular Christian for approximately **1.2 cents per person reached**.

And in the campaigns where we are seeing our strongest results, with just slightly more costs, approximately **40 percent subscribe after being reached**.

That does not mean every person suddenly agrees with us.

That is not the point. It means they chose to remain connected.

So now, when another 119 Ministries teaching comes out tomorrow, next week, or next month, that person can organically encounter it again. They subscribed for a reason. That connection can continue for years unless they choose otherwise.

We cannot emphasize enough how powerful that opportunity is. And again, this was not available to us in this way just a short time ago.

THE NEW WEBSITE AND FELLOWSHIP

We are also in the initial planning stages of an entirely new **119 Ministries website**, and we will have much more to share about that soon.

One of its major goals will be something 119 Ministries, as an internet-based ministry, has historically had difficulty focusing on:

fellowship.

We want to help people connect. We want to support Bible study groups. We want to help families and individuals find fellowship. We want to strengthen community around the whole Word of God.

The website is still in its early stages, but we are very excited about what it could become.

WHY ARE WE MAKING THIS APPEAL?

Now, if you have followed 119 Ministries for very long, you know something about us.

We really do not like making financial appeals and you already know that we do not do them very often. Maybe once or twice a year we stop and explain where things stand, because if a ministry never tells people what the needs and opportunities are, eventually people simply do not know.

But this particular message feels different to us, because it is different.

We are not coming to you because we are discouraged or concerned about support. We are coming to you because we are almost overwhelmed by the opportunity.

We would actually feel embarrassed if we did **not** tell you what is happening. Look at these numbers. Look at the engagement. Look at how quickly the mission is accelerating.

Look at how many projects are already written, planned, or waiting for production. We are already operating at an exhausting full throttle. Our team is working extremely hard.

We cannot simply work twice as many hours. At this point, the primary limitation in front of us is **production resources**.

That means editors, production capacity, software, computing resources, advertising, automation, and the infrastructure necessary to take what is already written and developed and actually put it in front of people.

And there is another important part of this. The impact of additional resources is not always merely one-to-one.

It can compound.

For example, adding production capacity may not simply produce one additional video.

It can remove a bottleneck that allows several projects to move simultaneously.

One editor may free another editor to work on something else.

One finished Scripture Sketch can attract thousands of new subscribers who then encounter dozens of future teachings.

One successful advertisement can create an ongoing connection to someone who continues seeing our content long after that initial advertisement is finished.

One successful song can introduce someone to the ministry, who then discovers hundreds of teachings already waiting for them.

That is what we mean when we talk about **multiplying impact**.

Support does not simply help us make something.

It can help us build systems that allow everything behind it to move faster, exponentially. We now live in a world of exponential tech, and we are leveraging it, with absolutely limitless potential and outcomes.

AND NOW YOU CAN HELP SET THE PRIORITIES

There is something else we are doing differently.

For perhaps the first time in the history of 119 Ministries, **you have a more direct opportunity to influence what we accelerate.**

We are producing so much that we have to make decisions about which projects move first.

And we serve you. You know what your family needs. You know what your friends respond to. You know what resources your Bible study group uses. You know what you are sharing with people.

So tell us.

When you support 119 Ministries, use the note or memo field and tell us what you most want to see accelerated:

- **The Lost Tapes**
- **Scripture Sketches**
- **119 Response: Let's Test That**
- **Psalms of 119**
- **119 Ministries Teachings**
- **The New 119 Ministries Website**
- **Advertising and Outreach**

Or simply say **general support**, and we will place those resources wherever we believe they can accomplish the most.

The projects that receive greater support and interest will naturally tell us where the community wants more production attention.

That gives you a role in helping us determine what comes next.

CLOSING

We may not know exactly when Yeshua is returning. But the world certainly does not seem to be becoming less complicated. And whether his return is very soon or farther away than we think, our mission does not change.

We want to reach as many people as possible. We want to introduce people to the whole Word of God. We want to strengthen believers, families, Bible studies, and fellowships. We want to challenge bad doctrine with Scripture. And we want to create resources that people will actually watch, listen to, study, and share.

For 15 years, 119 Ministries has tried to do that **faster, better, and cheaper**, and most would say we have been quite successful in that already.

But now, for the first time, the tools available to us are allowing that philosophy to scale in ways we could not have imagined before.

Ten years to reach our first 100,000 subscribers.

Nearly six years to gain the next 100,000.

Five months to gain another 60,000.

And these are not just passive subscribers, they are engaged. We are talking with them behind the scenes.

Nearly an immediate half a million views on an Interrupting Isaac Scripture Sketch. 1.3 million views on a Psalms of 119 song. Nearly half a million on a 119 audio sermon. One million views on a traditional 119 Ministries teaching.

And this is only a fraction of what is happening.

So again:

Do you see where this is going?

We do.

And we hope you are as excited about it as we are. We cannot imagine you wouldn't be.

There is really only one major question in front of us now:

How quickly can we move?

That depends greatly on the resources available to us and on those who believe in this mission choosing to partner with it.

So if you want to help accelerate what is happening at 119 Ministries, please consider supporting the ministry.

And if there is something specific you want to see more of, tell us in the note or memo field. This is all happening. The question is just how quickly.

Your support helps determine how quickly we can move, how many people we can reach, and which projects we can accelerate first.

Thank you for praying for us. Thank you for encouraging us. Thank you for sharing these resources. It all makes a tremendous difference, as you can see.

And thank you to everyone who makes this work possible.

There is a lot coming.

And we cannot wait for you to see it.

Shalom.

May all glory, honor, and praise go to YHWH alone.

May YHWH bless you and keep you, and remember, continue to test everything. Shalom.
