Inside!

It's time for us to get back to the beginning... the world's beginning! Some people will say that we were created by accident. But if there is one thing we know about God is that He doesn't make accidents! God made the world, the stars, planets, the animals, water, food, plants, and You on purpose! God is amazing!

Family Challenge!

God created everything in this world and universe
ON PURPOSE! As you read the scriptures pay
attention to how God sees that His creation is good...
VERY GOOD! This week get outside and look around
and see just how amazing
