<p>*All reported salary information in this document is "base salary only" and does not include over time. If your industry typically allows for and/or requires overtime, you may calculate that in to estimate what a graduate's 1st year total annual salary might be in their respective major. For example, 10 hours of over time each week with an annual base salary of \$47,500 (calculated at time-and-a-half over 40 hours), would add an additional \$17,815 per year for a total 1st year annual income of \$65,315</p> <p>Median "Intern" Hourly Rate Summer 2023: \$18.50</p> <p>Projected 5 Year Base Annual Salary: \$72,200 (52%)</p>
