

The Church: God's Hospital – Pastor Mark Pope  
February 22/23, 2025

1. The church is often referred to as God's hospital where the sick come to be healed. When was a time in your life when you were able to lean on the church for healing?
2. Would you have picked Levi out as being a prime candidate for a disciple? Why would he NOT be a likely follower of Jesus, let alone one of his closest disciples?
3. Read Luke 5:27-32. How do we sometimes reflect the same attitudes of the Pharisees? How did Jesus flip their judgmental spirits?
4. How can we be better at helping people heal in a broken and hurting world? How can we as the church get better at helping the hurting people around us?
5. What is your next step in spiritual health? How can you move towards that step this week?
