serving the heart
of our Rapid City Community.

FACILITY *Growth - Needs*

- Rimrock Downtown is located at 514 St. Joe Street with a welcoming "Storefront" and has about 3800 square feet of space. The space is very well used but has been outgrown in many dimensions. A future facility would require close to 20,000 sf to accommodate the current ministry needs and the future continued growth of the RD community.
- The welcome area is a great space with a coffee bar. Ideally, a future facility would include a large café/coffee shop area for everyday use and as a fellowship center for large gatherings and events.
- The worship gathering space seats less than 100 people. The future hope is to facilitate a worship center for 200 – 250 people
- The building does not have enough space for children's ministry which is currently held down the street at Starbucks ;) A future facility with 4 to 6 classrooms and a space for a nursery is necessary.
- Rimrock Downtown is used throughout the week by many small groups as well as the large Sunday worship services. There is a growing synergy with other para-church organizations who want to partner in their ministry to the Rapid City community. Future facilities would be designed with multiple meeting rooms for facilitating community gatherings.

RIMROCK’S VISION FOR A DOWNTOWN CAMPUS
