

The Certificate of Immunization, Form #3231

Dear Parents,

Please remember to get the **current and up to date** Certificate of Immunization, Form #3231, for your child from your child's physician/pediatrician, or local Health Department.

The school is required by the DeKalb County Board of Health to have a current, valid #3231 form for each child attending DBP.

School Forms #1 through #4, and a current form # 3231 must be completed and submitted on visiting day, or your child's first day of class.

Your child may not attend school without providing these completed forms.

Thank you,

Lesley Kammerer, Director
