2 SAMUEL 5; 1 CHRONICLES 17

David was the king over all the people in Israel. Everyone in the land knew of David's bravery and wise decisions. The people knew that God had chosen David to rule as king over all the land.

Leaders in Israel traveled to a place called Hebron to meet with David. King David made an agreement with the leaders, then they put oil on his head because he was their king.

David was 30 years old when he became the king over Israel. He was the king for a long time—until he was 70 years old.

After becoming king, David and his soldiers marched to Jerusalem. David called it the city of David. King David began building up the city and making it a great place where he could live and rule the land. David built a beautiful palace where he and his family could live.

King David wanted to build a beautiful new temple in Jerusalem for God. But God said that David's son Solomon would be the one to build the temple. God said He would bless David and his son and love them.

David listened to God and followed the things God said to do. God led King David to make good decisions and be successful in Israel. God helped David become more and more powerful.

David thanked God for helping David know what to do. David said, "Lord, You indeed are God. There is no one like You."
