Food to Grow On

Food2GrowOn   Info

Make a difference in a child's life

Our history

Food2GrowOn was founded in December 2011 by a caring parent who was volunteering at a local school's holiday gift drive. While there, she became exposed to the reality of child hunger in her community. She heard stories about children who would not eat over the weekends and some whose only meals would be the two provided at the school cafeteria. She began bringing bags to the school on Fridays filled with nutritious, child-friendly food items. She enlisted friends to help with her cause and soon gained the support of local organizations (including churches and synagogues, and Rotary Club of Port Chester/Rye Brook), community leaders, and other individuals. We supply over 200 bags a week to local children in need.

The cost of the food is about $8 per bag.
