

BSA IPAD PROGRAM

MIDDLE SCHOOL

Bell Shoals Academy desires to provide the best educational tools possible for our students. As part of this effort, BSA uses iPads in the classroom to enrich student learning.

INVESTMENT

All 6th – 8th grade students will be issued an iPad to use while they are enrolled. Parents are assessed a \$650 fee the first year of enrollment. The fee covers the iPad, the case, four years of Apple Care+ for Education, and related technology services. After successful completion of their 8th grade year, the iPad will be released to the student to use in their future education.

CURRICULUM

Curriculum will be installed on the iPads so that we may be able to lighten your child's backpack. iPads will be monitored through an MDM (mobile device management) system which will control all content of the device to make sure the user experience pertains only to school related materials and will be monitored for proper usage. This MDM software will also automatically update apps and software as needed without the need for the student or teacher to release use of their device.

ACCEPTABLE USE AGREEMENT

At the beginning of the school year, students will receive an iPad Agreement to outline and ensure the appropriate use of the iPad. Both students and parents will need to familiarize themselves with our policy and sign in agreement.
