

Give, Save and Spend Labels

Here are some fun labels to help your kids learn how to use their money wisely! Cut these out (and laminate them if you're feeling fancy), then put them on containers or envelopes so your kids can organize the cash they've earned.

HELPFUL HINT: Your kids should give at least 10% of their earnings, so help them with the numbers or show them how to calculate it on their own like a math whiz!
