

SUNDAY SAFARI

JESUS CAN HEAL OUR HEARTS

We get sick. We get better. We hurt our knee, over time, it heals. But there are some hurts and wounds that we can't see. Those are the things in our hearts. Even if someone doesn't realize it, we all need our hearts to be healed by Jesus. We are healed when we put our faith in Jesus Christ, in His death and resurrection. Through that, our hearts are healed and we are changed. The truth is, our world is broken and the only way it can truly heal is through the power of Jesus Christ!

EXPLORING AS A FAMILY:

1. Do you have a favorite athlete or movie star? What would you do to get ready if they were coming over to your house?
 2. If you knew Jesus was in a building (like, Jesus: walking, talking on earth), what would you do to try to get into that building?
 3. Have you ever known God to heal someone in your life? What happened?
 4. How has Jesus healed your heart? How?
-

THIS WEEK'S FAMILY ADVENTURE:

Who can you share God's healing love with this week? Go for a walk through your neighborhood and pray for those who live near you; pray that God heals their hearts.

This week's story is about the man lowered through roof and can be found in Mark 2:1-12. Be sure to check it out as a family together!
