 - B. Discernment in Life

Main Theme: Everyone is hopelessly and helplessly living under the power of sin and God's wrath and judgment—until we come to Christ and His salvation.

Discernment: the ability to measure what you read, see, hear, or experience against the Word of God using critical thinking and logic to recognize and dismantle falsehoods

Alisa Childers, apologist

Judging: It is not “judging” to agree with God about what He calls good and evil. The judging God hates is the hypocritical spirit that thinks oneself better than another because they sin differently, and only sees the speck in other’s eyes but never the log in their own.
