Temple Judea NEW ECC COVID-19 Protocols

All COVID protocols are subject to change, based on the current protocols of the Los Angeles County Department of Public Health, and the decision of the Director and the Temple Judea Senior Leadership.

Close Contacts
Close Contacts are no longer required to quarantine. We do have different masking and testing rules based on the type of close contacts below:

1. Close Contact at School or Away from Home:
   - If there is an exposure at school, all families will be notified.
   - Exposed children will need to take an antigen test immediately, and also 3-5 days after exposure. If the test is negative, and if the child has no new symptoms, they may come to school.
   - Children with symptoms should remain at home for 48 hours and test again before returning.
   - Masking for close contacts is strongly recommended, but not mandatory.

2. Close Contact at Home
   - If there is an exposure to a parent/sibling/other household member, and you CAN isolate the individual with COVID from others, the exposed child should test immediately. If they are negative, they may return to school, but must be masked for the next 5 days. They should test again on Day 5. If they are negative, they no longer have to mask.
   - Exposed children who CANNOT isolate from a family member with COVID, and thus have repeated daily exposure, may come to school if:
     ✓ They have no symptoms of illness.
     ✓ They test negative immediately, and also every day before coming to school.
✓ They mask indoors at school until 5 days after the family member with COVID tests negative.

- A family member with an active case of COVID may not bring a child to school until they have tested negative.

**COVID Testing/Isolation**
- Children should test with an at-home COVID antigen test at the onset of any new symptoms.
- Any child or family member who tests positive for COVID-19, regardless of vaccination status, must isolate for at least 5 days.
- Individuals with COVID may return to school on Day 6 **IF:**
  ✓ there has been no fever for 24 hours, **AND**
  ✓ other symptoms are diminished, **AND**
  ✓ they have tested negative on a COVID antigen test.
- If a student tests negative after day 5 and before day 10, they can return to school, but they must be masked indoors for the duration of the 10 days.
- It is our school’s decision to require a negative COVID test to return to campus before day 10.

**Travel**
- According to the CDC, travel increases your chance of getting and spreading COVID-19. There is no longer a travel rule for COVID.
- To protect our community, we request that anyone who has traveled on mass transit, tests when returning home and before coming to school.

**Tuition Refunds**
Temple Judea does not give refunds for school days missed for illness or travel.
