proudly presents

### IN A GALILEE FAR, FAR AWAY

Created by Steve Moore, Rob Howard, and David Guthrie

**December 7, 2025 – 6:00 p.m.**

Tonight, we invite you to come aboard the S. S. Emmanuel, the world's most advanced spaceship. The crew on board is orbiting into deep space, and their mission is to discover, witness, and record the indescribable beauty and size of God's creation. Since this spaceship can travel at or near light-speed, the crew plans to complete in just six months what would take a normal spaceship decades. Their mission motto is Psalm 19:1: "The heavens declare the glory of God; the skies proclaim the work of his hands." Unfortunately, the crew runs into some navigation difficulties; their planned six-month mission has already lasted nine months, and Christmas is upon them. Because everyone wants so badly to be home for Christmas, they make the difficult and somewhat dangerous decision to utilize the "hyper-active" lever on the spaceship, which is supposed to get them back home in a matter of minutes. However, things do not go as planned, and the crew finds themselves involved in BACKWARDS time travel. The captain then devises a plan to take them all the way back to when Jesus was on Earth so they can celebrate the very first Christmas in "a Galilee far, far away."

**OPENING SCENE** (Deep Space; March 25, 2025)

**SONG:** "Away We Go"

**SOLOIST:** Aubree Cruse; **DUET:** Aubree and Brilee Cruse
