

# Friendships of Women

## What we Learn from the Friendships of Paul

If you are comfortable, discuss in your group what God has shown you from the message today concerning yourself.

What is one thing God really impressed upon your heart?

Without being too personal, share something that you want to the Lord to help you improve in the way you treat your friends.

How do you think others would describe you as a friend? Keep in mind, not everyone can or should be your closest friends ... but whether they are or not, what do you think they would say?

What kind of friend are you?

Now, write down the names of two people in your life that you would consider your Timothy and your Epaphroditus. Like me, most of you would write family members, but for our purposes today, I just want you to think about two women in your life who are not in your family.

1. My Timothy \_\_\_\_\_ -

2. My Epaphroditus \_\_\_\_\_.

Write a prayer for those two women.
