What is a Woman?

Titus Fellowships

1. Write out your definition of womanhood:

2. Who has been most influential in your life in terms of understanding femininity and womanhood?
3. Josiah allowed both his daddy's negative influence and his granddaddy's positive influence to be used for good in his life. How about you?
4. Have you learned from the sins and mistakes of others letting God use it for your good or have you used them instead as excuses for your own sin?
5. Sometimes the most difficult thing we can do is to admit that our portrait of womanhood and God's portrait are two different paintings, especially if we don't like some of the colors He chose. But will you, like Josiah, have an open, teachable heart, ready hear and obey all that God reveals to you?
