Pledge of Allegiance
At all Charles City Community Schools campuses, the Pledge of Allegiance shall be reasonably administered daily either corporately or individually by classroom. Student participation is always optional. Students may not be a material disruption during the administration of the Pledge of Allegiance. This policy shall be administered daily through the best and reasonable efforts of the administration and staff; however it may be interrupted due to unforeseen circumstances or events at the school.

School Colors and School Mascot
Charles City School District Colors are Orange and Black and our School Mascot is the Comets. Please see the Office of Communications for further information concerning logo and style guides.

Glorious deeds and acts of honor given in solemn praise.
C.C. High our alma mater we'll remember thee
Till the end, we shall remember dear old C. C. High

Essential Competencies:
After a six-month journey in the spring of 2019, a team of 30 students, staff, parents, board members, community, and leadership embarked on the Next 20 Project. During this time, the team worked to develop what are the essential competencies that our graduates may need over the next 20 years to prepare them for success after graduation. Below are the essential competencies this team developed. Every student has the right to learn and will drive all of the teaching and learning that happens each day: adaptability, integrity, critical thinking, communication, empathy and learner’s mindset.
Equal Educational Opportunity
The school district does not discriminate in its education programs or educational activities on the basis of sex, race, religion, color, national origin, marital status, or disability. Students are educated in programs which foster knowledge of, and respect, and appreciation for, the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society. Students who feel they have been discriminated against are encouraged to report it to the school district Affirmative Action Coordinator. The Affirmative Action Coordinator, Anne Lundquist, can be reached at 641-257-6500. Inquiries may also be directed in writing to the Director of the Region VII Office of Civil Rights, U.S. Department of Education, 8930 Ward Parkway, Suite 2037, Kansas City, MO 64114, (816) 268-0550, or the Iowa Department of Education, Grimes State Office Building, Des Moines, IA, 50319-0146, (515) 281-5294.

The school district, in its educational program, has a process to assist students experiencing behavior and learning difficulties. Representatives from the Area Education Agency may also assist the school district in this process. Parents wanting access to this process should contact the Principal.
Chapter 33, Educating the Homeless, Iowa Administrative Code, defines a “Homeless Child of School Age”:

1. Child between the ages of 5 and 21
2. Who lacks a fixed, regular, and adequate nighttime residence
3. Including a child or youth who is living in a car, tent, abandoned building, or some other form of shelter not defined as a permanent home;
4. Who is living in a community shelter facility
5. Who is living with non-nuclear family members or with friends (includes doubled-up families).

NOTE: The Iowa definition is for school-age children and youth, ages 5-21, and the Federal definition is for individuals of any age.

Jurisdictional and Behavioral Expectations Statement

This handbook is an extension of board policy and is a reflection of the goals and objectives of the school board. The board, administration, and employees expect students to conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others.

Students are expected to treat teachers, employees, students, and visitors with respect and courtesy. Students may not use abusive language, profanity, or obscene gestures.

This handbook and school district policies, rules, and regulations are in effect while students are on school grounds, school district property, on property within the jurisdiction of the school district; while on school-owned and/or school-operated buses or vehicles or chartered buses; while attending or engaged in school activities; and while away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the school district or involves students or staff. School district policies, rules, and regulations are in effect twelve months a year. A violation of a school district policy, rule, regulation, or student handbook may result in disciplinary action and may affect a student’s eligibility to participate in extracurricular activities whether the violation occurred while school was in session or while school was not in session.

Students are expected to comply with and abide by the school district’s policies, rules, regulations, and student handbook. Students who fail to abide by the school district’s policies, rules, regulations, and student handbook may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to obtain their education or to participate in school activities; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion. Discipline can also include prohibition from participating in extracurricular activities, including athletics. The discipline imposed is based upon the facts and circumstances surrounding the incident and the student’s record.

The school reserves and retains the right to modify, eliminate or establish school district policies, rules, regulations, and student handbook provisions as circumstances warrant, including those contained in the handbook. Students are expected to know the contents of the handbook and comply with it.
Students or parents with questions or concerns may contact the Principal for information about the current enforcement of the policies, rules, regulations, or student handbook of the school district.

High School Behavior Procedures

The Philosophy of How We Manage Behavior (in order of importance):

1. We build relationships with students.
2. We teach behaviors and what is appropriate.
3. We do everything in our power to keep students in the learning environment.
4. We protect instructional time and other students when necessary.

Behavior Management Procedures Tier 1
The Five-Step Procedure and Behavior Intervention Meetings

Teacher Commitments:

1. Utilizing multiple positive reminders for the student and redirection. This includes contacting an administrator or coach to come and do a proactive redirection with the student. Positive communication at home is also key in building relationships. This is highly encouraged and expected.
2. Use of personal, quiet verbal warning of undesired behavior with a clear explanation of positive expectations or other Tier 1 interventions.
3. Pause for the Clause: Utilized as a time-out within the classroom for repeated behaviors after positive redirects and verbal warning.
4. Behavior Intervention Room: As a final step, intervention in a quiet and structured environment that the student will report to only after repeated failure of steps 1-4. (See below for explicit procedures). *By no means should a student ever report to the intervention room without being referred by an adult.
   a. Call the office for removal
   b. Online minor Referral - filled out by the end of the business day
   c. Assignment of detention for missed class time
   d. A phone call home is made by the classroom teacher by the end of the business day.
5. Re-entry Meeting: Students will not be sent back to the class that they were removed from that day. If a student is sent out of class to the Intervention room, it is the teacher’s responsibility to find the student immediately the next morning, before school starts to do a re-entry meeting. This is a simple meeting; it is not to address the behavior, it is to build back the relationship, give positive feedback, and welcome them back to class. We want the last interaction before they re-enter class with the teacher to be positive. This is an expectation for all staff.

Behavior Intervention Room
Purpose:

1. To be utilized as a time for a student to calm and redirect their behaviors and have purposeful reflection with an adult.
2. To be utilized as an interim location while staff determine different interventions and modifications for the student’s success.
3. On occasion, to be utilized to house a student who is a persistent disruption to the learning and safety of a classroom.
4. The goal is to Maximize Student Learning Time in the Class Setting. The Behavior Intervention Room is meant to be a detour NOT a destination.
5. To be the facilitator for initial student/parent communication about the behavior.

**Procedures:**

1. Students are sent to Intervention after in-class procedures have been exhausted.
2. Students will only be sent to Intervention after utilizing steps 1-(3) of the teacher commitments.
3. Students will be automatically sent to an administrator for any major infractions.
   a. Majors are generally suspension-level behaviors.
4. Once a student has been sent to the Behavior Intervention Room, the data from the referral will be reviewed by the behavior coordinators.
5. If a student is sent to the Behavior Intervention Room two times in one day, they will remain in the intervention room for the rest of that school day. (Major/ISS)

**Intervention:**

1. Students will never return to the same class they were referred from. The earliest they will return to class will be the next period (For blocks, they will return to the next academic class).
2. Quiet and respectful atmosphere. No peer-to-peer talking. There will be some discussion with students and adults reflecting on the behavior.
3. No use of computers or electronic devices in the intervention room.
4. The Behavior Interventionist will make final decisions on whether the student is fit to return to the next class based upon discussions and reflections. Students that don’t demonstrate acceptable behavior to return to class will be held and referred to the counselor or administrator.
5. The Behavior Interventionist will assure that the student has communicated behavior and consequence with parents and coaches before re-entering the classroom.
6. Students sent to Intervention twice in the same day will be held the remainder of the day.
7. Students not meeting expectations in Intervention may be sent home with additional consequences.
8. Follow-up on student behaviors will be discussed during behavior meeting times.
9. The Behavior Intervention Room Supervisor will track all data for students entering. This includes reflection data and detention/suspension data.

**Suspensions:**

The following procedures will be followed in cases of suspension:

1. **First suspension:** As soon as the decision has been made to suspend a student from classes, there will be an attempt to notify the student's parents.
2. **Second suspension:** The same procedure will be followed and after notification to parents there may be a conference that may also include the Superintendent of Schools.
3. **Third suspension:** In the event the above two suspensions and conferences have not produced the necessary results and a student is involved in a third suspension, the Principal may recommend to the Board of Education that the student be suspended or expelled from classes for the remainder of the semester, the remainder of the school year, or other appropriate lengths of time. The student and his parents may appear before the Board at its next regularly scheduled meeting to show reason why the student should not be suspended. If the student wishes to be admitted back to classes the following school year, he may be asked to appear with his parents before the Superintendent of Schools and the Principal to request such admission.
The above procedures do not mean that a student must be suspended three times before long-term suspension is considered; the recommendation for such may come at any time, depending upon the seriousness of the situation.

Any student serving a suspension, such as an in-school or out-of-school, will not be allowed to practice or participate in any extracurricular activities while on suspension.

**Bus Expectations**
Riding a school bus is a privilege not a right. In the event that a student has negative behavior on a school vehicle, the student may be removed from the bus either temporarily or permanently. The building administrator will work directly with the driver, transportation director, student and parents to solve issues as they come up.

**Definitions**
In this handbook, the word "parent" also means "guardian" unless otherwise stated. An administrator's title, such as Superintendent or Principal, also means that individual's designee unless otherwise stated. The term "school grounds" includes the school district facilities, school district property, property within the jurisdiction of the school district or school district premises, school-owned or school-operated buses or vehicles, and chartered buses. The term "school facilities" includes school district buildings and vehicles. The term "school activities" means all school activities in which students are involved whether they are school-sponsored or school-approved, whether they are an event or an activity, or whether they are held on or off school grounds.

**Buses Where Possible**
During times of inclement weather or deteriorating road conditions, the Superintendent or their designee may put “buses where possible” into effect. If this occurs, buses will travel to where they may reasonably do so based on conditions. Parents may choose to have their children meet the bus at an alternate location. The district will also offer alternate transportation options (i.e. van or smaller vehicle) if possible or feasible.

**School Fees**
The school district charges fees for certain items, such as textbook rental & technology fees. Students whose families meet the income guidelines for free and reduced-price lunch are eligible to have their student fees waived partially or in full. Contact Central Services for the required paperwork to complete. This waiver does not carry over from year to year and must be completed annually.

**Emergency Forms**
During registration for each school year, parents must file an emergency form with the office providing the emergency telephone numbers of the parents as well as alternate persons to contact in the event the school is unable to locate the parents. The emergency form also includes a statement that gives the school district permission to release the student to the alternate person in the event the parents cannot be reached. Parents must notify the office if the information on the emergency form changes during the school year.

**Student Attendance**
Students are expected to be in class and to make attendance a top priority. Only through attendance and class participation do students achieve the benefits of the education program. Participating in class discussion, developing an appreciation for the views and abilities of other students, and forming the
habit of regular attendance are legitimate class objectives. Learning lost due to an absence can never be replaced. Regular attendance and being well prepared for class enables students to learn and prepares them for adulthood.

**Reporting an Absence**
Parents of students who know they will be absent must notify the office prior to the absence. If advance notification is not possible, parents must notify the office at 641-257-6510 on the day of the absence prior to 9:00 am. If notification is not received, the office will attempt to contact the parents at their emergency number.

**Excused Verified Absences**
Excused absences will not count toward days absent for purposes of the truancy law. Excused absences include but are not limited to, illness, family emergencies (such as a death in the family or a funeral), recognized religious observances, appointments that cannot be scheduled outside the school day, court appearances, college visits, and school-sponsored or approved activities. The principal may request evidence or written verification of the student’s reason for absence.

Students with approved absences will make up the work missed and receive full credit for the work. It is the responsibility of the student to initiate a procedure with the teacher to complete the work missed. School work missed because of absences must be made up with two times the number of days absent, not to exceed five school days. The time allowed for make-up work may be extended at the discretion of the classroom teacher.

Students who wish to participate in school-sponsored activities must attend school one-half day the day of the activity unless permission has been given by the principal for the student to be absent.

**Tardiness**
A student is tardy when the student initially appears in the assigned area after the designated starting time.

All incidents of class tardiness will be the responsibility of the teacher. Sanctions may include warning, assigned detention, parent contact and referral to the administrator.

**Truancy – Unexcused Absence**
A student is truant when absent from school or an assigned class without school permission. Work missed must be made up. Incidents of truancy will be recorded and count toward absences per semester. The administrator will determine disciplinary action including, but not limited to, warning, detention, in-school suspension or administrative referral.

**Unexcused Absences** are all absences other than those considered excused absences (see above) and include but are not limited to family vacations, hunting trips, and senior photo sessions. Spectator trips to state tournaments may be excused, but only at the discretion of the Activities Director.

**Unverified Absence**
A student’s absence is unverified when it cannot be determined whether the absence is excused or unexcused. This is the most serious type of absence because the student’s whereabouts are unknown. Unverified absences will be investigated by school personnel.
Excessive Absenteeism
Procedure: After three (3) unexcused or a combination of nine (9) unexcused and excused absences, student absenteeism is considered excessive.

1. Six (6) unexcused, a letter of “Excessive Absence” will be sent to the parent and forwarded to the Problem-Solving Team.
2. After nine (9) unexcused, the Problem-Solving Team will contact the student and parent/guardian to arrange a meeting, which may include referral to an outside agency.
3. After twelve (12) unexcused, a referral will be made to the County Attorney for assistance in rectifying the attendance issue.
4. If the County Attorney agrees attendance is an issue, they will issue a warning letter and “Reasonable Parent Efforts Checklist,” and/or a referral for mediation. A mediation hearing may be held with The Floyd County Attorney’s Office.
5. If attendance continues to be a concern and in violation of the mediation agreement, a referral to the County Attorney for immediate action can be made at the discretion of the school.

These steps will be followed as shown. Steps can be modified to accommodate individual situations as determined by and/or at the discretion of the student’s campus administrator. Referral to the County Attorney may be made at any time during the process. See Board Policy 501.9 and 501.10 for more information.

The school administrator or designee, will determine whether an absence is excused, unexcused or unverified.

Leaving/Returning during the school day
Students who need to leave school during the school day must receive permission from office staff through one of the following processes

1. Note signed by parents
2. Parents contact the office
3. Parents personally come to the office

Students are not released to anyone other than their parents during the school day unless the office has approved documentation. Students who return to class or arrive after the start of the school day must present a signed note to office staff from parent/guardian or have professional documentation for re-admission.

Making up schoolwork
Students are responsible for arranging and receiving permission to make up schoolwork. Students that are aware they will be absent are expected to proactively contact teachers in advance to arrange for missed work. Students will be provided a reasonable amount of time as determined by the teacher and/or administration to complete missed schoolwork upon return. Should a student be absent more than one day, they must make arrangements with teachers to schedule missed work. Students may forfeit their opportunity to make up work if they have frequent unexcused absences as determined by the administration.

When it becomes necessary to remove a student from a course due to excessive unexcused absences, the student may be assigned to study hall (with restricted status) in lieu of attending the class for the balance of the semester. The student will forfeit the opportunity to earn credit for the class for that semester. If excessive unexcused absences cause a student to be removed from classes such that the
five-credit minimum is not maintained, the student will be placed on probationary status (ineligible for athletic competition).

Students participating in school activities must be in school by 11:00 am on the day of the event in order to participate. The remaining half-day must be a verified or an excused absence. Only in extraordinary circumstances may this rule be waived by the administration. If a student is absent on Friday due to illness, they may participate in weekend school activities at the discretion of the administration. This decision will be based on the student’s previous attendance record.

Charles City High School and Charles City Middle School are in compliance with state law which requires students to be in regular attendance. The compulsory attendance statute places the responsibility with the parents to cause a child to attend school for the entire time it is in session. Violation of this responsibility may require referral for appropriate action to the Floyd County Attorney’s Office.

**Tardiness**
Definition: A student will be counted tardy if not in his/her assigned classroom when the bell rings at the beginning of the class period. When a student misses more than half of the assigned class without a legitimate excuse, this is considered an unexcused absence.

**Advisory (High School 9-12)**
Advisory is a homeroom/intervention block of time that will serve as a scheduled time during the instructional day to meet individual needs, ensure academic success, offer enrichment opportunities, and create a student-centered learning environment. Students who are currently failing one or more assigned courses may be assigned to specific interventions during Advisory.

**Transfers or Withdrawals**
When a student knows they are leaving school, they are required to complete the following steps:
1. Obtain a withdrawal form from the office.
2. Take the withdrawal form to all teachers, media specialists, and food service for their initials.
3. Return the completed form to the office for filing before leaving school.

**College Visits**
Juniors and Seniors are encouraged to visit college campuses that they are interested in exploring. Each student has the opportunity to utilize two college visit days during their Junior year and two college visit days during their Senior year. These visits require prior approval by speaking with the main office to obtain appropriate paperwork. Students must be on track to graduate and not have excessive absences in order to be approved.

**Inclement Weather**
In the event of dangerous roads or weather conditions that make it necessary to delay or close school, radio and television stations Local television and radio media will be notified and information shared via social media and School Messenger. The information will be given to these communications tools and outlets as soon as it is possible to determine that there will not be school. If school is dismissed because of inclement weather after the day has begun, parents are notified by the same methods. Parents of students who ride the bus will be notified how students will be returned home. The Superintendent
determines whether buses will follow the regular or alternate routes. If the buses follow alternate routes or the parents are responsible for picking up the students, they shall be reasonably notified.

Extracurricular activities or practices scheduled for the day or evening of a day when school is canceled or dismissed early are generally not held. The principal may determine whether to hold extracurricular activities or practices if conditions safely allow. If the extracurricular activity is to be held, students and parents are notified through the normal communication methods.

School Day
Students may be present on school grounds before 6:00 a.m. or after 10:00 p.m. only when they are under the supervision of an employee or an extracurricular activity sponsor. If school is dismissed early, students are expected to leave the school grounds within fifteen (15) minutes of dismissal.

HAWK-I Insurance for Children
Parents can apply for low- or no-cost health insurance for their children through the state’s Healthy and Well Kids in Iowa (HAWK-I) program. Children, birth to age 19, who meet certain criteria, are eligible. The coverage includes doctor’s visits, hearing services, dental care, prescription, immunizations, physical therapy, vision care, speech therapy, and hospital services to name a few. Parents are urged to call 1-800-257-8563 (toll-free) or go to the website at http://www.hawk-i.org/ for more information.

Student Insurance
Student health and accident insurance is available to students at the beginning of the school year. Parents may purchase insurance for their children at their discretion. Parents who would like more information about student health and accident insurance should contact the office.

Student-athletes must have health and accident insurance in order to participate in intramural or extracurricular athletics. Students must provide written proof of insurance prior to the start of the athletic activity. A letter from the parents stating that the student is covered is adequate proof of insurance.

Immunizations:
Prior to the first day of school, proof of up to date immunizations must be provided. If immunizations are not up to date, a provisional certificate will be issued. The provisional will allow student enrollment for 60 days and then expire. Per Iowa’s state law, at this time students not in compliance with the Iowa Department of Public Health immunization requirements will be excluded from school. Only for specific medical or religious purposes are students exempt from the state of Iowa’s immunization requirements. An exemption form must be completed and turned in to the school prior to the first day of attendance. Students entering from a foreign country may also be required to pass a Tuberculosis (TB) test prior to attending school.

Physical Examinations
Students participating in interscholastic activities require a physical. Physicals should be kept on file in the athletic office for one calendar year.

Emergency Drills
Periodically the school holds emergency fire, tornado, active intruder, and bomb threat drills. At the beginning of each semester, teachers notify students of the procedures to follow in the event of a drill. Emergency procedures and proper exit areas are posted in all rooms. Students are expected to remain...
quiet and orderly during a drill or an emergency. Students who initiate a false alarm are subject to being disciplined under the school district's policies, rules and regulations. They may also be reported to law enforcement officials.

Administration of Medication:
Some students may need to carry prescribed medication (inhaler, Epipen) with them throughout the school day. This will only be acceptable with written permission from the parent and physician. All other medications will be locked in the nurse's office and administered by certified staff at the times written on the prescription. Sometimes students carry medication to school without the knowledge of school staff. The school does not approve of this and cannot be held responsible when it occurs. Unless a specified time is written, noon will be considered during the lunch hours. Medication prescribed for three times a ti

The PARENT, not the student, will transport any medication to and from school. The school must know the medications a student is taking in the event the student has a reaction or illness. Written instructions for medication administration, as well as parental authorization to administer the medication, must be provided.

Medication is held in a locked cabinet and distributed by trained personnel. Medication must be in the original container with the following information either on the container, in the instruction sheet or in the parental authorization: name of the student; name of the medication; directions for use including dosage, time, route, and duration; name, phone number and address of the pharmacy (if applicable); date of the prescription (if applicable); name of the physician (if applicable)

The prescription label and the medication authorization form must match. The parent must fill out a new medication sheet with any medication change as well as provide a corrected label for the medication bottle.

Requests for as needed (PRN) medications such as Tylenol, Ibuprofen, Tums, decongestants, antihistamines, etc. will be granted on a short term basis. A physician order may be requested should usage be deemed excessive by the nurse’s assessment. The parent cannot request over the counter medication dosage greater than the label directive. All medications will be provided by the parent/guardian.

School personnel will not administer herbal supplements or vitamins during the school day. The Iowa Board of Nursing does not allow the administration of these medications at school per parent request.

Student Illness or Injury at School
A student who becomes ill or is injured at school must notify his/her teacher or another employee as soon as possible. Students must come to the health office or main office if they feel ill. School personnel will attempt to call parents or emergency contact. In case of serious injury or illness, the school shall attempt to notify parents according to the information on the student registration form which is filled out by the parent at registration. If the student is too ill to remain in school, the student will be released to the student’s parents or, with parental permission, to another person directed by the parents.
If parents or their designated emergency number cannot be reached and the need for medical care is urgent, emergency services will be contacted. The school will attempt to notify parents of the treatment destination.

Children will be excluded from school when their temperature is (100.4) degrees and should not return to school until their temperature has been normal for 24 hours (without the use of fever reducing medications.) Exclusion from school will also be advised when other significant symptoms are present such as vomiting or diarrhea. Charles City Schools follow the Iowa Department of Public Health guidelines for school exclusion and illnesses.

**School Nurse**
The Charles City Community School District employs nursing staff who are shared between all school campuses. The nurses can be reached during regular school hours. Contact the front office staff of any campus to be directed. The school nurse is responsible for individual health plans, training and delegating staff and assessments.

**Communicable and Infectious Diseases**
Cases of communicable diseases should be reported to the school so action may be taken to reduce their spread.

When appropriate, parents of students in the affected child’s homeroom will be notified of any contagious disease that has been identified so they can remain observant. Due to confidentiality issues, the names of involved students will not be released and the school may partner with public health.

Students with contagious diseases will be excluded from school until such time that their condition does not endanger the health of others. A signed release from a physician may be required for re-admittance if so requested by the school personnel.

**Illness or Injury at School**
A student who becomes ill or is injured at school must notify his/her teacher or another employee as soon as possible. Students must come to the health office or main office if they feel ill. School personnel will attempt to call parents or emergency contact. In case of serious injury or illness, the school shall attempt to notify parents according to the information on the student registration form which is filled out by the parent at registration. If the student is too ill to remain in school, the student will be released to the student’s parents or, with parental permission, to another person.

If parents or their designated emergency number cannot be reached and the need for medical care is urgent, emergency services will be contacted. The school will attempt to notify parents of the treatment destination.

**Health and Safety**

*When should I keep my child home from school?*

Deciding when a child is too sick to go to school can be difficult. In order for your child to be available for learning and to control communicable diseases in school, it is important to keep your child home for the following reasons:

*Fever 100.4 degrees and above*

Your child should be fever free and off all fever-reducing medications for 24 hours before he/she returns to school.
Sore Throat
A minor sore throat is usually not a problem, but a severe sore throat could be a symptom of a more serious illness. If your child is diagnosed with strep throat he/she may return to school 24 hours after antibiotic treatment begins.

Eye inflammation or discharge
If your child’s eye is red with cloudy or yellow/green discharge, matted eyelids, eye pain, and/or redness you should keep them home and contact your healthcare provider. If your child is diagnosed with pink eye, he/she may return to school 24 hours after treatment is initiated.

Vomiting and Diarrhea
Your child should stay home until the illness is over (without the use of medication) and for 24 hours after the last episode of vomiting/diarrhea.

Influenza symptoms
This includes sudden onset of high fever, chills, headache, body aches, dry cough, or vomiting. Influenza can be serious and may warrant immediate medical attention. Your child should stay home until the illness is over without the use of medication. Your child must also be fever free without the use of fever-reducing medication for 24 hours before returning to school.

Lice
Head lice infestations are common and are most likely to occur in preschool and elementary-age students, regardless of socioeconomic status or geographic region. A head lice infestation is not a communicable disease and no health risks have been associated with head lice.

If your child is found to have head lice by the school nurse, contact will be made with the parent/guardian. The school nurse will provide the parent/guardian with evidence-based education and treatment instructions from the Iowa Department of Public Health. Students do not need to be sent home or miss school due to head lice; however, it is recommended that parents/guardians begin treatment as soon as possible before their child returns the next day.

Both the American Academy of Pediatrics (AAP) and the CDC recommend schools discontinue the following practices: whole classroom head lice screenings, exclusion for nits or live lice, and notification to others except for parents/guardians of students with head lice infestations. Notification to others may be a breach of confidentiality.

When should you call the school nurse?
We encourage parents/guardians to call with concerns, questions, or updated information- including the following reasons:

1. A new medical diagnosis or change in your child’s physical/behavioral/emotional health status
2. A new allergy
3. A newly prescribed medication or a change in the current medication regimen
4. A serious illness, injury, or condition requiring emergency treatment or hospitalization
5. A head injury or concussion
6. An injury requiring sutures, casting, or mobility assistance
7. Contagious conditions such as chicken pox, influenza, strep throat, whooping cough, head lice, or pink eye
8. Your child is absent for three or more days due to physical illness, injury, or mental health
9. If there are any recent changes in your family that may affect your child, such as a birth, recent death, serious illness, military deployment, unemployment or marital separation, or divorce

PARENTS ARE TO TRANSPORT ALL MEDICATION TO AND FROM SCHOOL. PLEASE DO NOT SEND MEDICATION IN YOUR CHILD’S BACKPACK AS THIS CREATES A SAFETY RISK.

Dental Screening:
The state of Iowa requires that all students entering 9th grade must provide proof of a dental screening. The screening must be provided by a licensed dentist or dental hygienist and shall be completed no earlier than one year prior to enrollment and no later than four months after enrollment. The Iowa Department of Public Health Certificate of Dental Screening is the only form accepted by the state and can be found here.

Health Screening
Throughout the year, the school district performs health screenings for vision and hearing in certain grades. Upon a teacher’s recommendation, students not scheduled for screening may also be screened. Students are automatically screened unless a parent submits a request in writing asking that the student be excused from the screening.

Sexual Abuse and Harassment of Students by Employees
The school district does not tolerate employees physically or sexually abusing or harassing students. Students who are physically/sexually abused or harassed by an employee should notify their parents, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated Marcia DeVore, at 257-6560, as the Level I investigator.

Physical abuse is a non-accidental physical injury that leaves a mark at least 24 hours after the incident. While employees cannot use physical force to discipline a student, there are times when the use of physical force is appropriate. The times when physical force is appropriate include, but are not limited to, times when it is necessary to stop a disturbance, to obtain a weapon or other dangerous object, for purposes of self-defense or to protect the safety of others, to remove a disruptive student, to protect others from harm, for the protection of property or to protect a student from self-infliction of harm.

Sexual abuse includes but is not limited to, sexual acts involving a student and intentional sexual behavior as well as sexual harassment. Sexual harassment is unwelcome advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature when submission to such conduct is made either implicitly or explicitly a term or condition of the student's education or benefits; submission to or rejection of the conduct is used as the basis for academic decisions affecting that student; or the conduct has the purpose or effect of substantially interfering with a student's academic performance by creating an intimidating, hostile or offensive educational environment.
Asbestos Notification

Asbestos has been an issue of concern for many years. The Asbestos Hazard Emergency Response Act of 1986 (AHERA) was designed to determine the extent of asbestos concerns in the schools and to act as a guide in formulating asbestos management policies for the schools. The school district facilities have been inspected by a certified asbestos inspector as required by AHERA. The inspector located, sampled and determined the condition and hazard potential of all material in the school facilities suspected of containing asbestos. The inspection and laboratory analysis records form the basis of the asbestos management plan.

A certified management planner has developed an asbestos management plan for the school district facilities which includes: notification letters, training for employees, a set of procedures designed to minimize the disturbance of asbestos-containing materials, and plans for regular surveillance of the materials. A copy of the management plan is available for inspection at Central Services.

Assemblies

Assemblies may be held throughout the school year. Attendance at these assemblies is a privilege. Students must act in a manner that meets the school district expectations. Students are expected to attend assemblies unless otherwise directed. Students who are not attending assemblies shall report to the office or to another specified area.

Field Trips

Field trips are components of the curriculum as an extension of the classroom to contribute to the achievement and mission/vision of the school district. If a field trip is required for a course, students are expected to attend. Absences in other classes or school activities due to attendance on field trips are considered excused. Students are expected to complete missed work prior to departing. While on field trips, students are guests and considered ambassadors and representatives of the school district. Students are expected to treat employees, chaperones, and guides with respect and courtesy. Prior to attending a field trip, students must return a permission form signed by the student’s guardians.

Padlocks

Gym lockers and padlocks shall be school issued. School issued padlocks should not be used at home. Physical education teachers will issue the padlocks. Students who lose padlocks will be charged the cost of replacement.

Activity Bus

The school district may sponsor an activity bus to transport students to activities. A fee may be charged to students utilizing the activity bus. The activity bus is a privilege that can be revoked. Students who utilize an activity bus must ride during all phases of the trip unless prior arrangements have been made with the building principal or Activity Director with approved parent documentation.

Student Funds and Fund Raising

Students may raise funds for school activities upon approval of the principal prior to the beginning of the school year. Funds raised remain in the control of the school district and the board. School-sponsored student organizations must have the approval of the principal prior to spending the money raised. Classes that wish to donate a gift to the school district should discuss this with the principal. Students may not solicit funds from teachers, employees, or other students during the school day. Students who violate this rule will be asked to stop. Violations of this rule may result in future fundraising activities being denied.
Use of School District Facilities by Student Organizations
School district facilities are available during non-school hours to school-sponsored and non-school-sponsored student organizations for the purpose of meetings or activities. Students wishing to use the school district facilities should contact their sponsor or the Office of Activities to reserve a room. School district policies, rules, and regulations are in effect during these meetings.

Dances
School-sponsored dances must be approved by the principal at least 4 weeks prior to the dance. Students who leave a dance are not allowed to re-enter. School district policies, rules, and regulations apply to students as well as guests at school dances. Students and guests violating school district policies, rules, or regulations are asked to leave the dance and grounds. Parents will be notified of the violation and removal. Student identification may be requested by school officials. Students who have an excessive number of office referrals or are habitually tardy/absent may lose the privilege of attending dances. This is the discretion of the campus administration.

High School only: Visitors may be allowed to attend High School dances but must meet the following expectations:
1. Currently attend a high school,
2. Register in advance,
3. Receive permission from their current High School Administrator
4. Receive permission from Charles City High School Administration.

School Improvement Advisory Team (HS)/Student Ambassadors (MS)
The SIAT serves as a student-led advisory group. They serve as liaisons and provide input to the campus leadership. Members of the team are student representatives who have direct access to the campus leadership.

Student Activity Tickets
Students may purchase an activity ticket for admission to school district activities. Students who do not purchase an activity ticket will be expected to pay regular prices to attend.

Student Participation in Non-School Athletics
A high school student who participates in sponsored athletics may participate in non-sponsored activities during the same season with the approval of the Office of Activities.

Student Records Access
The district board recognizes the importance of maintaining student records and preserving their confidentiality. Student records containing personally identifiable information are kept confidential during collection, storage, disclosure, and destruction. The board secretary is the custodian of student records. Student records may be maintained in the Central Services Office or Administrative Office of the student's attendance center.

Parents and eligible students will have access to the student’s records during the regular business hours of the school district. An eligible student is someone who has reached eighteen years of age or is attending an institution of postsecondary education at the post-high school level. Parents of an eligible student are provided access to the records only with the written permission of the eligible student, unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the
parents may be provided access without the written permission of the student. A representative of
the parents or eligible student, who has received written permission from the parents or eligible
student, may inspect and review a special education student’s records. Parents, other than parents of
an eligible student, may be denied access to a student’s records if the school district has a court order
stating such or when the district has been advised under the appropriate laws that the parents may not
access the student records. Parents may inspect an instrument used for the purpose of collection of
student personal information prior to the instrument’s use.

A student record may contain information on more than one student. Parents will have the right to
access the information relating to their student or to be informed of the information. Eligible students
will also have the right to access the information relating to themselves or be informed of the
information.

Parents and eligible students will have a right to access the student’s records upon request without
unnecessary delay and in no instance more than forty-five calendar days after the request is made.
Parents, an eligible student, or an authorized representative of the parents will have the right to access
the student’s records prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of student records will be provided if failure to do so would effectively prevent the parents or
student from exercising the right to access the student records. Fees for copies of the records are
waived if it would prevent the parents or student from accessing the records. A fee may not be
charged to search or retrieve information from student records.

Upon the request of parents or an eligible student, the school district will provide an explanation and
interpretation of the student records and a list of the types and locations of education records
collected, maintained, or used by the school district.

If the parents or an eligible student believes the information in the student records is inaccurate,
misleading, or violates the privacy or other rights of the student, the parents or an eligible student may
request that the school district amend the student records. The school district will decide whether to
amend the student records within a reasonable time after receipt of the request. If the school district
determines an amendment is made to the student record, the school district shall make the
amendment and inform the parents or the eligible student of the decision in writing.

If the school district determines that amendment of the student's record is not appropriate, it will
inform the parents or the eligible student of their right to a hearing before the hearing officer provided
by the school district. If the parents’ and the eligible student’s request to amend the student record is
further denied following the hearing, the parents or the eligible student are informed that they have a
right to place an explanatory letter in the student record commenting on the school district's decision
or setting forth the reasoning for disagreeing with the school district. Additions to the student's
records will become a part of the student record and be maintained like other student records. If the
school district discloses the student records, the explanation by the parents will also be disclosed.

The school district or its officials or employees may disclose the following directory information without
obtaining consent from the student or the student's parents or guardians:
  a. the student's name, age, enrollment status, address, and telephone number
  b. the names, addresses, email addresses, and telephone numbers of the student's parents or
     guardians

c. the student's date and place of birth
d. the student's grade level and fields of study
e. the student's participation in officially recognized activities and sports
f. the weight and height of members of athletic teams
g. the dates of attendance and the building attended in the district
h. degrees, honors, and awards received by the student
i. the most previous educational agency or institution attended by the student
j. Photographs and likenesses of the student

However, if an eligible student, parent, or guardian notifies the building principal or superintendent in writing by the start of each school year [or within ten (10) calendar days of enrolling in the district if a student enters after the start of the school year] that he/she does not want any of the above-listed items to be considered directory information capable of being disclosed without consent, then such information shall not be released with respect to that student without consent.

Student records may be disclosed in limited circumstances without parental or eligible student’s written permission. This disclosure is made on the condition that the student record will not be disclosed to a third party without the written permission of the parents or the eligible student. This disclosure may be made to the following individuals or under the following circumstances:

1. To school officials within the school district and AEA personnel whom the superintendent has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees
2. To officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts
3. To the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities; In connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid
4. In connection with an emergency, appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons
5. To organizations conducting educational studies and the study does not release personally identifiable information
6. To accrediting organizations
7. To parents of a dependent student as defined in the Internal Revenue Code
8. To comply with a court order or judicially issued subpoena
9. Consistent with an interagency agreement between the school district and juvenile justice agencies;
10. In connection with a health or safety emergency
11. As directory information

The superintendent will keep a list of the individuals and their positions who are authorized to view a special education student's records without the permission of the parents or the eligible student.
Individuals not listed are not allowed access without parental or an eligible student's written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent will also keep a list of individuals, agencies, and organizations which have requested or obtained access to a student's records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. The superintendent, however, does not need to keep a list of the parents, authorized educational employees, officers, and agencies of the school district who have accessed the student’s records. This list for a student record may be accessed by the parents, the eligible student, and the custodian of student records.

Permanent student records, including a student's name, address, phone number, grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation. Permanent student records will be kept in a fire-safe vault.

When personally identifiable information, other than permanent student records, no longer needs to be maintained by the school district to provide educational services to a special education student, the parents or eligible student are notified. This notice is normally given after a student graduates or otherwise leaves the school district. If the parents or eligible student request that the personally identifiable information be destroyed, the school district will destroy the records. Prior to the destruction of the records, the school district must inform the parents or eligible student the records may be needed by the parents or eligible student for social security benefits or other purposes. In the absence of parents or an eligible student's request to destroy the records, the school district must maintain the records for at least three years after an individual is determined to be no longer eligible for special education.

The school district will cooperate with the juvenile justice system in sharing information contained in permanent student records regarding students who have become involved with the juvenile justice system. The school district will enter into an interagency agreement with the juvenile justice agencies involved.

The purpose of the agreement is to allow for the sharing of information prior to a student's adjudication in order to promote and collaborate between the school district and the agencies to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

The school district may share any information with the agencies contained in a student's permanent record which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to adjudication information contained in the permanent record may be disclosed by the school district to the parties without parental consent or court order. Information contained in a student's permanent record may be disclosed by the school district to the agencies after adjudication only with parental consent or court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student’s family or coordinating the delivery of programs and services to the student or student's family.
Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.

Confidential information shared between the school district and the agencies will remain confidential and will not be shared with any other person unless otherwise provided by law. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian. The school district may discontinue information sharing with an agency if the school district determines that the agency has violated the intent or letter of the agreement.

Agencies will contact the principal of the attendance center where the student is currently or was enrolled. The principal will then forward copies of the records within ten (10) business days of the request.

The school district will provide training or instruction to employees about parents' and eligible students' rights under this policy. Employees will also be informed about the procedures for carrying out this policy.

It is the responsibility of the superintendent to annually notify parents and eligible students of their right to inspect and review the student's records. The notice shall be given in a parent's or eligible student's native language. Should the school district collect personal information from students for the purposes of marketing or selling that information, the school district will annually notify parents of such activity.

The notice will include a statement that the parents have a right to file a complaint alleging the school district failed to comply with this policy. Complaints can be forwarded to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, Washington, DC. 20202-4605.

Date of Previous Adoption: January 12, 1987
Revised: September 10, 2001, December 8, 2008

Student Suspensions
In accordance with board policy and law, students may be suspended for up to 9.5 consecutive days by the campus administration. Students may be suspended 10-15 consecutive days with the written permission of the superintendent in accordance with applicable law (this may not apply to students with IEP's per law). Any suspensions beyond fifteen (15) days must be approved by the school board in accordance with applicable law. A parent meeting will be set prior to the return to school following a suspension, student attendance is required.

The vision, mission, and core values of the school district hold school personnel responsible to avoid using suspension in capricious or futile methods. Suspension shall be utilized for the following reasons:

1. For additional time to establish appropriate learning/safety plans, accommodations, and modifications to deter future behaviors.
2. For additional time for school personnel and family to reset learning conditions.
3. In rare instances of extreme behaviors, to communicate expected standard of conduct.

Charles City Community Schools High School Handbook
Student Extended Absences
Students that notify the district of an absence that is longer than three (3) weeks may be dropped from enrollment if educational services are unable to be reasonably provided. The district shall make every reasonable effort to continue to provide educational services during any extended absence. This decision shall be made by the appropriate Senior Leader with the final decision by the Superintendent or designee. Students that have not provided notification of a long-term absence shall remain enrolled and every reasonable effort shall be made by the district to locate the student(s).

Students Possessing Personal Defense Items
Students are prohibited from carrying personal defense items on school property. Personal defense items include, but are not limited to, pepper spray, noisemakers, and key chain clubs. Students found in possession of these items shall have them confiscated by administration and additional discipline if warranted. Multiple violations may include progressive discipline. Students using or displaying a self-defense item on school property may result in school discipline up to and including long-term suspension and expulsion.

Note: This policy does not cover offensive weapons such as firearms, knives, tasers, and look-alike weapons. These items are covered in various other policies.

Student Searches
In order to maintain safety of all people and facilities within the district, school-owned lockers and desks may be searched or inspected. A search of a student will be justified when there are reasonable grounds for suspicion that the search will discover evidence of a violation of school policy, rules, regulations or the law.

Reasonable suspicion may be formed by considering factors such as the following:
1. Eyewitness observations by employees
2. Information received from reliable sources
3. Suspicious behavior by the student
4. Student's past history and school record (this factor alone is not sufficient to provide the basis for reasonable suspicion)

A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the objectives of the investigation. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:
1. Age of the student
2. Sex of the student
3. Nature of the infraction
4. Emergency requiring the search without delay

A student's body and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe they may be in possession of illegal or contraband items and/or has violated district policies, rules, regulations or the law.

Personally intrusive searches will require more compelling circumstances to be considered reasonable. Searches that engage in pat-downs or investigation of garments (such as jackets, socks, pockets, etc.) it shall be executed in private by a school official of the same sex as the student. In addition another adult
witness of the same sex shall be present when feasible. A more intrusive search, short of a strip search, of the student's body, handbags, book bags, etc., is permissible in emergency situations when the health and safety of the campus and people are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

Student parking on school district property is a privilege. Bicycles, skateboards, scooters, and mopeds, and similar vehicles must be parked in designated areas. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the premises may be searched if the school official has reasonable suspicion to believe that illegal, unauthorized, or contraband items are contained inside.

Student Lockers and Desks
Student lockers and desks are the property of the school district. Students shall use the lockers and desks assigned to them for storing their necessary school materials and personal items. It is the responsibility of each student to keep the assigned locker and desk clean and undamaged. The expenses to repair the damage incurred to an assigned locker and desk shall be charged to the student.

Although school lockers, desks, and other spaces are temporarily assigned to individual students, they remain the property of the district at all times. The school district has a reasonable and valid interest in ensuring lockers, desks and other spaces are properly maintained. For this reason, lockers, desks, and other spaces are subject to unannounced inspections. Students have no legitimate expectations of privacy in the locker, desk, or other space. Periodic inspections of all or a random sample of lockers, desks, or other spaces may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such searches shall be confiscated by school officials and may be transferred to law enforcement.

The contents of a student's locker, desk or other space (coat, backpack, purse, etc.) may be searched when a school official has a reasonable suspicion that the contents contain illegal or contraband items or there is evidence of a violation of school policy or the law. Such searches shall be conducted in the presence of another adult witness when feasible.

Threats of Violence
All threats of oral, written, or symbolic violence against students, employees, visitors, or school facilities are prohibited. All threats will be promptly investigated and law enforcement may be contacted. Threats issued and delivered away from school or activities may be grounds for disciplinary action if the action impacts the orderly and efficient operation of the district.

Students engaging in threatening behavior will face disciplinary consequences up to and including expulsion. The following factors will be considered in determining the extent to which a student will be disciplined for threatening or terroristic behavior:

1. Background of the student including any history of violence or threatening behavior;
2. Student's access to any weapons
3. Circumstances surrounding the threat
4. Age of the student
5. Mental and emotional maturity of the student
6. Cooperation of the student and his or her parent(s) or guardian(s) in the investigation
7. Existence of the student's juvenile or criminal history
8. Degree of legitimate alarm or concern in the school community created by the threat
9. Other relevant information from any credible source

Physical Restraint of Student
State law forbids school employees from using corporal punishment against any student. Certain actions by school employees are not considered corporal punishment. Additionally, school employees may use “reasonable and necessary force, not designed or intended to cause pain” to engage in certain actions that prevent harm to persons to property. State law also places limits on school employees' abilities to restrain, confine, and detain any student. The law limits why, how, where, and for how long a school employee may restrain or confine and/or detain a child. If a child is restrained, confined, or detained, the school must maintain documentation and provide notice to the parent. If there are questions about this policy and law, please contact your school administration. The complete text of the law and additional information is available on the Iowa Department of Education’s website link [http://www.iowa.gov/educate/](http://www.iowa.gov/educate/) and search for Timeout, Seclusion, and Restraint.

Internet
The Charles City Community School District is committed to making student access available to a wide range of electronic information resources, equipment, and software. The goal in providing this technology and access is to support the educational objectives and mission/vision of the Charles City Community School District as well as promote resource sharing, innovation, problem-solving, and communication. The use of the District’s computers, network, and Internet access shall be for educational purposes only. Students shall only engage in appropriate, ethical, and legal utilization of the District’s computers, network, and Internet access. Students’ use of the District’s computers, network, and Internet access shall comply with all policies and regulations. The number of available terminals and the demands for each network may limit the amount of time available for each student. Access to the District’s computers, network, and the Internet shall be available to all students. Access is a privilege and not a right. Each student must have an acceptable use agreement on file prior to having access to using the District’s computers, network, and Internet. The use of the network may be revoked for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. It is the user's responsibility to abide by the policies and procedures of these other networks.

Students will adhere to online protocol:
1. Respect all copyright and license agreements
2. Cite all quotes, references, and sources
3. Remain on the system only for the amount of time needed to access and gather information
4. Apply the same privacy, ethical and educational considerations utilized in other forms of communication

Restricted Material
Students will not intentionally access or download:
1. Material which is obscene, libelous, indecent, vulgar, profane, or lewd
2. Advertises any product or service not permitted to minors by law
3. Constitutes insulting or fighting words of expression which injures or harasses others
4. Presents a clear and present likelihood that because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or activities
5. Will cause the commission of unlawful acts or the violation of lawful school regulations

 Unauthorized Costs
If a student gains access to any service via the Internet incurs any types of costs, they shall be held personally responsible. Inappropriate use and/or access will result in the restriction and/or termination of this privilege. It may also result in further discipline for students up to and including expulsion as well as other legal action. The District’s administration will determine what constitutes inappropriate use and their decision will be final. Students are required to provide full cooperation to District administration and staff, or other agencies, associated with any investigation concerning or relating to misuse of the technology resources. For complete details on the District’s Acceptable Use and Internet Safety policies, refer to School Board Policies 502.12 and 502.13.

Dress Code
There is a strong research connection between academic performance and student conduct/appearance. Inappropriate student appearance may cause material and substantial disruption to the environment or present a threat to the health and safety of school. Students are expected to adhere to reasonable levels of cleanliness and modesty. Students are expected to wear clothing that is appropriate to their age level and does not disrupt the school or educational environment.

Students are prohibited from wearing:
1. Clothing advertising or promoting items illegal for use by minors such as alcohol or tobacco
2. Shoes with cleats except for outdoor athletic practices
3. Clothing displaying obscenity, profanity, vulgarity, racial or sexual remarks,
4. Items that reference prohibited conduct or similar displays

Under certain circumstances, classes, or activities a stricter dress code may be appropriate. Students must comply with the stricter requirement. The administration makes the final determination of the appropriateness of the student’s appearance. Students inappropriately dressed are required to remediate the issue or have appropriate consequences. Any ensuing absence may be coded as unexcused.

In addition:
1. Coloring hair, painting skin, or piercing the body is prohibited at school or on school grounds
2. Students are not allowed to wear coats/jackets/blankets in the classroom unless requested by a teacher
3. Carrying backpacks into the classroom requires teacher permission prior to entering
4. Hoods and hats are prohibited in the building

Care of School Property
All school grounds and campuses have been designated by School Board policy to be Tobacco Free Areas. Students are expected to take care of school property including desks, chairs, books, lockers, and equipment. Vandalism is not tolerated and students found to have destroyed or otherwise harmed school property may be required to reimburse the district. In certain circumstances students may be
reported to law enforcement officials. School administrators or their designees have the right to request any uncooperative or disruptive person(s) to leave school property.

Driving, Biking or Riding Snowmobile to School
Students will be required to register their car in the office with a parking sticker at no fee and visibly display it. Students shall only park in the designated student areas. Parking on Salisbury Street is available when the lot is full. Parking in the northwest section is reserved for faculty and staff.

Fines for illegal parking will be issued to students. Examples of illegal parking:
1. Parking outside the space,
2. Parking in the staff portion of the lot,
3. Parking in restricted spaces (handicapped or spaces designated for specific school personnel).

When there is sufficient snow and city ordinances allow, students may utilize snowmobiles to attend school. To maintain this privilege, students must register their snowmobile, attend a school-sponsored safety meeting, park in the designated area, and follow communicated rules.

Hall Passes
