Web/App Developer

USE COMPUTER SCIENCE TO CHANGE THE WORLD.

Turning computer science and programming into a career starts at SWU. In the Computer Information Systems (CIS) program, you'll expand your skills in accounting, database management, networking, programming, systems analysis, and web design—all while integrating faith and ethical decision-making into everything you do. Our experienced, caring faculty will guide you in developing both the technical expertise and the business acumen you need to succeed in the ever-evolving tech industry.

You can also customize your CIS degree with a concentration in business, media, or music informatics. Along the way, you'll have opportunities to work with real-life clients, apply for grant funding for research projects, and go beyond the classroom in a practical, faith-integrated, and career-focused program.
