GLOBAL PARTNERS CORNER

Since the February 6th 7.8 magnitude earthquake that devastated southeastern Turkey and northern Syria, there have been over 10,000 aftershocks in the following 3 weeks.

With the documented death toll now exceeding 47,000 this week as bodies continue to be recovered from the ruins of demolished buildings, aid has poured in from around the world to help alleviate the suffering from this devastating catastrophe. FBC immediately sent funds to assist relief efforts through two of our Global Partner agencies in country there. This week we received a thank you email from International Needs regarding our donation to the relief effort there and a report on how those funds are being spent.
