

In Student Ministries we are empowered by God to reach others for Christ by helping students become lifelong followers of Him. We do this best by focusing on two wins:

- Creating engaging experiences
- Building transformational relationships.

Every Wednesday is someone's first Wednesday. We strive to create a personal experience for each student that walks into our campuses every week. The Student Ministry Concessions teams create a unique and engaging environment for students by selling pizza, pop, and candy. You will play a vital role in accomplishing our two wins by creating an engaging experience and setting up students to enter into transformational relationships with God and others.

Here's how we do it:

Before

- Read weekly communications from you leader prior to student services.
- Check in with your team lead at scheduled time to receive instructions, connect with your team, and prepare to serve.
- Check in, wear your nametag, attend huddles, and participate in ongoing training meetings if applicable.
- Communicate scheduling conflicts with your team leads and manage you schedule on My.eaglebrookchurch.com.
- Set up concession tables with pizza pop and candy and take inventory. Taking inventory of the night is simple – count all pop and candy at the beginning of the night and count what is left at the end of the night.
- Be familiar with the campus facilities and the schedule of the evening this way you can help students who are new.

During

- Maintain the organization and cleanliness of the concession area.
- Stay attentive and aware—avoid using your phone while serving.
- Student will come back every week – try to remember their names or their favorite treat to make the experience more personal.
- Helping to create a fun atmosphere for parties and special events.

After

- Tear down, clean, and store all concession items in designated storage area.
- Maintain the organization and cleanliness of the student ministries' storage area.
- Count all inventory that was not sold that night and compare it to the beginning of the night number to get an accurate inventory count.
- At the end of the night money must be counted by two background-checked volunteers or staff members.
- If you're a volunteer overseeing the money count, you'll receive training from a staff member to do so.
