

Annual Review 2025

Dear Friends, Partners, Volunteers, and Supporters,

As we reflect on 2025, we do so with profound gratitude to God and to each of you. Because of your prayers, partnership, and faithful generosity, our 24/7 hotline at Rescue America has remained a true freedom line for survivors seeking safety, hope, and a way out. Every call answered represents a life reaching toward light — and together, we have been positioned to respond.

Trafficking and sexual exploitation thrive in secrecy, isolation, and fear. Yet nothing is hidden from God. Throughout this year, we have witnessed His faithfulness break through darkness again and again. We have heard trembling voices find courage. We have seen impossible situations shift. We have watched isolation give way to connection and despair surrender to hope.

This annual review is not simply a report of numbers — it is a testimony. Behind every statistic is a person created in the image of God. Behind every call is a prayer. Behind every safe connection is a team willing to answer at any hour.

In 2026, we sense the Lord leading us into a season of strengthening and preparation. We are focusing on deepening our operational foundation, fortifying partnerships, intensifying prayer, and strategically leveraging technology so that when the harvest comes, we are ready. We believe this is not a retreat but a rooting — a time to repair any broken places, refine our systems, and build sustainably for long-term impact.

As I step into the role of CEO, I do so with humility and dependence on the Lord, honored to serve alongside this faithful team and each of you.

Thank you for standing in the gap for the vulnerable. Thank you for helping us “ANSWER THE CALL” — literally and spiritually. Your partnership brings light into hidden places and declares that exploitation does not have the final word.

Partner Testimonies

"It's been a joy and privilege to partner with Rescue America to see freedom come to the captives. Their partnership is vital to the work we do and they make the process as smooth as possible for all involved. We are so grateful for everything they do and the opportunities we have to work together in this landscape."

-Evelyn Khoma, Program Director
Helping Captives

"A woman is safe today following an extraction in Denver, CO. Rescue America played a critical role alongside Safe Places for Women and Jesus on Colfax, empowering her to escape a trafficker and reach safety. We are grateful for Kingdom Collaboration to rescue the one!"

-Ked Frank, President & Founder
Safe Places for Women
