GRACE POINT GROUPS

Discussion Questions for week of 11.01.2026

Count The Stars

"God's Promises Don't End When Our Physical Lives Do"

GETTING STARTED

ICE BREAKER: What is something you hope to pass on to the next generation, and why?

KEY THOUGHT: ***"God's Promises Don't End When Our Physical Lives Do"***

GETTING THE POINT

Promise Keeper

Read Genesis 12:2-3, 22:17-18, 23-24:4

1. How do we see God's promises continue despite the physical passing of Sarah and Abrham?
2. What ways have we seen Abraham's faith growing over his time walking with God? Why has his faith strengthened over time? Should our faith strengthen the same way over time? Why or why not?

The Promise Moves Forward

Read Genesis 25:7-11a, Galatians 3:7-9

3. God promised Abraham specific things, how does the promise move forward after Abraham's physical death?
4. What is the status of the promise God made to Abraham? How is the promise continuing to be shared?
5. What is the significance of the Galatians verse? How have the Gentiles played into God's grand narrative?

Connection To Christ

Read Matthew 22:31-33

6. What important truth is established here that is accomplished through Christ? How should we respond in light of this teaching to a world where many don't know Christ?

GETTING PERSONAL

Read Matthew 9:37-38

1. One author said, "In 300 million years from now, what will matter?" How would you answer that question? How does eternity change our perspective on what we are doing right now?
2. How is evangelism always a win? If we never fail when we share Christ why are we often reluctant to do so?
3. If you know Christ, you are a possessor of the greatest truth this world has ever known. People need to hear this good news. (Romans 10:14-15) Who are you actively sharing Christ with? How can you be more intentionally in living your faith out loud?

Pray that God would send us out as a blessing to the nations pointing people to Christ, our only hope in life and death. Pray God would send us laborers into the harvest.
