CHRISTIAN SCHOOL

Kindergarten

Dear Parents,

We are delighted that you have chosen our school for your child's educational training. We look forward to partnering with your family to provide a quality, Christ-centered classroom environment, in which your child will be nurtured for academic and spiritual growth. Our kindergarten faculty has provided the following overall distinctive elements and readiness areas which we hope will be beneficial for children entering our program. Please contact our school office if you have any questions.

Kingdom Education

Bay Area Christian School exists to provide Kingdom education to the next generation, empowering them to make disciples of Jesus at home, in society, and through the church. Kingdom Education is a life-long, Bible-based, Christ-centered process of leading a child to Christ, building them up in Christ, and equipping them to serve Christ.

Overall Distinctive Elements

Curriculum: The BJU Press Early Childhood materials help develop a foundation in Bible, science, heritage studies, handwriting, phonics, and reading which are needed for the later grades. Daily activities provide the essential elements in phonemic awareness, reading strategies, listening, and speaking. Both teacher-guided and independent discover-based activities are used.

Math: BJU math equips students to master fundamental skills through hands-on manipulatives and sequential teaching that lead students from a concrete to an abstract understanding of mathematics for the purpose of solving problems within the context of a biblical worldview. *K5 Math* builds a strong foundations of number sense; introduces addition, subtraction, solving word problems, measurement, time, calendar, and shapes; and includes STEM instruction and money concepts (BJU Press, 2025 Catalog).

Specials: Art, music, P.E., and library

Field Trips: Christmas tree farm, Nutcracker performance, and Stevenson Park

Other: Numerous events and celebrations are planned for families to build community and friendships with one another.

Achievement Testing

Kindergarteners take a standardized test in the spring and typically score significantly above the national average and regional averages in all the subtests administered.

Summer Suggestions

- Read *Bob Books* by Bobby Lynn Maslen
- Read nursery rhymes and fairy tales
