

## **The Cruel God of Evolution**

Some people think that they can believe in Jesus Christ as their Savior and at the same time believe God created through evolution. These people are called theistic evolutionists or progressive creationists. What kind of nature would a god have who creates through the death that is essential to evolution?

First, death would have to have begun from the very moment of creation. Death, disease, pain and suffering would have had to originated with this god. Long before man, according to evolution, dinosaurs were eating other dinosaurs and entire species were dying out. Rather than loving us, such a god would be indifferent and capricious. The god that would use evolution to make living things would have no right to punish sin. He would have had no right to bring a world-wide Flood to punish sinful man. This kind of god would be nothing more than a bully. Such a god would not be likely to have given us his word. And nothing the Bible says about him could be true. If the Bible really is from him, it is full of untrue claims. Any god who created using evolution is not the God of the Bible. If you think about it, the god of evolution sounds surprisingly like the devil.

What's wrong with believing that God created through evolution over millions of years? Any god that uses evolution and death to make us is extremely cruel. More importantly, if there was no first Adam to bring sin and death into the world, there was no need for Christ, whom the Bible calls the last Adam, to die and save us from sin and death.

### **1 Corinthians 15:22**

**“For as in Adam all die, even so in Christ shall all be made alive.”**

Prayer: I rejoice, dear Father, because You are gracious and merciful to me. Amen.
