Reflection during the week:

1. Which voice shapes my decisions most right now — Scripture, wise counsel, circumstances, or my own instincts? What might be out of balance?
2. Am I asking God for clarity while resisting the transformation He is trying to do in me? What might need to change first?
3. Where is God already speaking in ordinary ways — through His Word, His Spirit, or His people — and how does that connect to what He has already placed in my hand? Am I truly listening and responding?
