

Jason Lesandrini, Ph.D., FACHE, LPEC, HEC-C
AVP of Ethics, Advance Care Planning, Spiritual Health
and Language Access Services
Wellstar Health System

Jason has 17 years' experience as a medical ethicist and healthcare executive. He has a strong focus for leading and promoting ethical behavior and decision-making aligned with the mission, vision and values of a health system. Jason has a proven track record for building capacities for ethical decision-making, promoting a thriving moral community within hospitals that improve patient care and create integrated, sustainable and accountable ethics resources from the bedside to the boardroom.

As a trusted resource and expert in medical ethics, Jason is an accomplished guest lecturer and adjunct faculty for Mercer University and Georgia Institute of Technology.
