

Dr. Shaik Mohiuddin, BDS, MHA, FACHE, CHE, is a healthcare executive with over 17 years of international experience in healthcare quality, patient safety, accreditation, risk management, and healthcare operations. He currently serves as Chief Quality Officer for Al Dhafra Hospitals, Abu Dhabi, United Arab Emirates, where he provides strategic oversight for quality, patient safety, infection prevention and control, risk management, and regulatory compliance across a network of hospitals and ambulatory care facilities.

Throughout his career, Dr. Mohiuddin has held progressive leadership positions within leading healthcare organizations including SEHA, NMC Healthcare, and Mediclinic Middle East. He has successfully led large-scale transformation initiatives focused on accreditation readiness, high reliability organizations, patient safety culture, quality improvement, and value-based healthcare.

Dr. Mohiuddin is a Fellow of the American College of Healthcare Executives (FACHE) and a Certified Healthcare Executive (CHE) through the Canadian College of Health Leaders. He holds a Master of Health Administration degree. He also serves as an adjunct faculty member, teaching healthcare quality, patient safety, and healthcare management.

An active researcher and speaker, Dr. Mohiuddin has authored approximately 15 peer-reviewed publications, contributed to book chapters, and published books focused on patient safety and healthcare quality. His professional interests include healthcare quality economics, leadership development, patient safety culture transformation, and the application of artificial intelligence to healthcare improvement.
