Erika T. Brown, PhD was appointed as the Dean of Faculty Affairs at Geisel School of Medicine at Dartmouth in December 2021. Her initial faculty and administrative appointments were at the Medical University of South Carolina, in the Department of Pathology and Laboratory Medicine, the Hollins Cancer Center, and the Office of the Provost. She also served at Morehouse School of Medicine (MSM) as the Inaugural Associate Dean for Faculty Affairs and Development and promoted to Senior Associate Dean for Faculty Affairs, Professional and Academic Development, and held a faculty appointment as Professor of Pathology and Anatomy.

Dr. Brown is a nationally recognized expert in faculty affairs and professional development and a highly sought speaker and consultant. She has been an active member of the AAMC Group on Faculty Affairs (GFA) since 2013 and had the distinction of being elected to the AAMC GFA National Steering Committee, term 2018-2021. In her research program, she has studied the roles of BRCA1/2 in breast cancer and repair of damaged DNA since 1999. Her research has been funded by the NIH-NCI and the DOD Breast Cancer Research Program. Dr. Brown has received numerous honors and awards for her research, teaching, administrative roles, and community service.

She also had the distinction of being a fellow in the 2014-15 Executive Leadership in Academic Medicine® (ELAM®) Program for Women and was appointed as the Associate Director of ELAM® in 2022. Dr. Brown received her B.S. in Biology (Minor in Biochemistry) from Spelman College and Ph.D. in Medical Genetics from the University of Alabama at Birmingham. She completed her postdoctoral studies in Cancer/Radiation Biology at Vanderbilt University Medical Center and the University of Colorado Health Sciences Center (now University of Colorado—Denver, Anschutz Medical Campus).
