

Alana Sulka, MPH, RN, CPH,

- Alana Sulka completed her undergraduate degree in Biology at the University of GA in 1997 and her Masters in Public Health (MPH) in Epidemiology from Emory University's Rollins School of Public Health in 2000. From 2000 -2003, she served as a Surveillance Epidemiologist in the Foodborne and Diarrheal Diseases Branch at CDC managing multiple aspects of a diverse Public Health team focused on surveillance and prevention of foodborne illness outbreaks. In 2004, she joined Gwinnett, Newton and Rockdale County Public Health and has served as the Director of Epidemiology and Infectious Diseases since 2007. In this role, she manages the surveillance, investigation, response, and control of diseases of Public Health concern for the district. In order to expand her knowledge base and ability to respond to community needs, she also obtained an Associates Degree in nursing in 2012, became Certified in Public Health through the National Board of Public Health Examiners in 2015, and completed her BSN in 2019.
