

Kevin Adams
AVP Virtual Health
Atrium Health

Kevin Adams, AVP Virtual Health Atrium Health, Charlotte, NC. Kevin is responsible for virtual health program development and implementation in the Georgia Market including the Atrium Health Navicent and Floyd systems, as well as enterprise level virtual related programs. Kevin started with Atrium Health at Navicent, Macon in January of 2017 in the role of AVP Strategy and eHealth and transferred to the Virtual Health department in Charlotte in 2021.

He has over 25 years' experience and demonstrated performance excellence in health care and information technology, serving in Strategy, Service line and virtual health roles for Peace Health, Aurora, and Washington University Medical School in St Louis. Prior to his work in health care Kevin was President of ACS Technologies, a SBU of ACS, a DoD contractor providing communication technologies and program management to the Naval Space and Warfare Command, other Armed Service Commands, and various commercial clients.
