SPECIAL FEATURES OF THE STUDENT BOOK

Perforated Pages
Each page can be removed easily from the student book to be given to a student.

Minibooks
Many lessons include colorful minibooks that are used to teach stories. The teacher or students create these books with the help of included instructions.

Colorful Pictures
The student book uses colorful images to teach the English language. The book includes pictures of children and adults from many different countries.

Picture Dictionary
Many of the important words from each lesson are presented in a picture dictionary at the end of the student book. Teachers and students can use these pages to learn and review new vocabulary. Presenting vocabulary in meaningful groups of words helps children in their learning process. The inclusion of vivid pictures also helps children understand and remember the new words.

Every morning, we wake up, we wake up, we wake up. Every morning, we wake up; that is morning.

Every day, we eat our food, eat our food, eat our food. Every day, we eat our food; that is mealtime.
